

## **Nolan Creek/South Nolan Creek Watershed Stakeholder Advisory Committee to Meet on March 6, 2017.**

The Nolan Creek/South Nolan Creek Watershed Stakeholder Advisory Committee will meet Monday March 6<sup>th</sup> in Killeen regarding the Nolan Creek/South Nolan Creek Watershed Protection Plan. The meeting will be from 10:30 am to noon at the City of Killeen Transportation Training Room, 3201A South WS Young Drive.

The Nolan Creek/South Nolan Creek watershed is located in Bell County and encompasses portions of the cities of Belton, Harker Heights, Killeen, Nolanville, and the Fort Hood Military Reservation. Nolan Creek/South Nolan Creek was first listed as impaired and not meeting state water quality standards due to elevated bacteria concentrations in the creek on the 1996 Texas Water Quality Inventory and 303(d) List. The most recent 303(d) List for 2014 continues to list Nolan Creek/South Nolan Creek as impaired for bacteria. Concerns for elevated nutrients were also noted in 2010 and continue in the 2014 assessment of the Texas surface water quality.

The Texas Institute for Applied Environmental Research and the Texas Commission on Environmental Quality (TCEQ) are partnering with landowners in the Nolan Creek/South Nolan Creek watershed to protect and improve the area's water quality through development of a watershed protection plan (WPP). Stakeholder involvement is crucial in developing a WPP that will comprehensively address all water quality impairments and concerns.

The upcoming meeting will focus on identifying management activities and programs for bacteria load reductions for the Nolan Creek/South Nolan Creek WPP. Mr Bill Carter with TCEQ will make a presentation on low Impact development options as a pollution prevention strategy.

This project is funded through a grant from the U.S. Environmental Protection Agency through the Texas Commission on Environmental Quality.

For more information about the meeting, please contact Leah Taylor at (254) 968-0513 or [ltaylor@tiaer.tarleton.edu](mailto:ltaylor@tiaer.tarleton.edu). Further information about the project can be found at project website <http://www.nolancreekwpp.com/>.
