

Hello Abate members and I am sad to say I don't have any new members to mention this month. I am thinking instead of listing a new member name in the newsletter each time we get one I am going to only mention it every three month's that way they will have time to get there Michigan rider and see there name in it. Because it may take a month to get there rider. Which bring me to another point starting June 1st when you renew your membership you have to pay five dollars more for your hard copy of the rider from what I think they should have done along time ago honestly that ant shit it should be twelve extra dollars a year. That is only 1 dollar a month for the rider that is not a big deal. I know opinions are like asshole's everybody has one but if it helps out ABATE why not. I am old fashioned when I go take a dump I like to read the paper that is a book or the mail or a harbor freight magazine , plus if you are not getting the Michigan Rider you might miss an event or a rescheduled meeting which might effect the pack fund in the long run. Ok now on the some other stuff at the meeting. we went over the screwed up insurance that they are going to hit us with. Don't sound good at all. Now on to the bike raffle tickets you will get one ticket per member in the mail.If you what EXTRA to sell see Karen at are next meeting or get with me Treeman 734-497-8430. Also if you need Fieldmeet Tickets get with me or Michele . Ok let me see we also went over the Monroe County Fair looks like we will be doing that again. We went over on February 20th the pizza pop and lunch at the capital which will be over by the time you get this . We went over the Freedom Rally man I hope we have good weather because I go regardless. We went over meeting of the minds which is September 24th-27th . I went over the coast to coast ride from the coast of Lake Erie to Lake Michigan date not set yet. And we also went over a thing called Every Second Matters. Also I brought up if anyone would kike to set in a Awareness Class and be educated on awareness to help Wayne and Big Sexy that would be great. I have been going to the classes and trying to be educated. holy shit look the F--K out. NO just kidding. Ok I hop you are still hanging in there I am just about done. Ok remember to throw out some Prayer's for are ABATE member's there are so many from different Regions that can use them Also the weather down here in southern Michigan has been pretty good I have been riding every other week. so if you are like me and don't put up your bike in the winter be careful cars don't see bikes that good in the winter for some reason. Just keep thinking spring be safe TREEMAN
