

SUN in TAURUS

Taurus represents the sign of purposeful determination and power. It is the celestial rhythm of Taureans to conserve physical resources and own physical assets being of the element Earth. Thus, they have a strong desire for personal security. Their quest for spiritual truths comes by material efforts. The key phrase of Taurus is "I have". The astrological symbol for Taurus is the bull, and the symbology reveals the stubborn nature of the Taurean personality. Because these individuals are unable to rely on others, they are usually very dependable themselves. A good Taurean will have a strong sense of loyalty. The hub of their universe is security, both physical and emotional.

If the Sun is expressed in the chart, Taureans are physically strong and solidly built with a heavy chest and heavy torso. Even those who are not fat, may appear physically dense with stoutness, even barreled-chested, with thick legs.

Each sign has external, internal, and structural relationships. Externally, it rules the throat, neck, ears, and lower jaw. Internally, it rules the thyroid gland, pharynx, larynx, jugular vein, tonsils, Eustachian tubes, cervical ganglia, and carotid arteries. Structurally, it

rules the occiput, cervical vertebrae, lower jaw and teeth, chin, and palate. The pathological tendencies of this sign are stroke, croup, tonsillitis, lymphatic stasis of the neck and head, and laryngitis. Vulnerable parts of the body are the neck, throat, shoulders, and upper torso. Stiff necks, sore throats, and earaches are common Taurean complaints.

Taurus colors are brown, russet, and turquoise. The benefiting color for the native is yellow, inspiring the mind and offsetting indolence and apathy. The emerald is Taurus' birthstone. Other stones for Taurus are jade and lapis lazuli. These individuals should remember only to wear these stones if they wish to bring that particular stone's influence into their life. Cancer is a sign of emotional expression, domestic concerns, and food production. There was a revolution in agricultural techniques with the introduction of chemical fertilizers and discovery of pesticides. On April 22, 1915 the Germans fired three rockets of chlorine gas on French troops in Ypres which resulted in unprecedented horror and mass slaughter. In the words of the infamous Professor Huber, they had discovered a "higher form of killing". During this time was the formation of the infamous IG Farben Chemical Cartel which fueled Hitler's war machine and later became the companies that control many of today's pharmaceuticals. Cancer rules women and the family. During the 20's the attitudes and roles of women were transformed. They demanded greater freedom in society and release from the drudgery of domestic chores. As a result of the increasing number of women seeking employment outside of the home, family life also changed dramatically.

HOUSE 1

The first house and the sign that rules this house, is also known as the Ascendant or rising sign, or that zodiac point which is actually crossing against the horizon at the exact time of your birth. It denotes your outer personality and physical constitution. The Ascendant is about interaction with you and the environment, the meeting point between the individual and the external world. Its sign denotes the animal heat and corporeal vigor. The planet ruling the sign of the Ascendant is considered one of the principal ruling planets of the horoscope. First house placement is so important, that the degree of the sign rising is treated as though it were a planet with regards to aspects with other planets and with regards to pinpointing details of the health chart of the native - his/her mind, body, strength, diseases subject to, etc. The sign on the Ascendant denotes the body's conductance or resistance to the inflow of prana or vital energy. It is conducted best by fire and air signs; and resistant if the rising sign is of water or earth elements.

In every sense the first house should be called the native's personality as it shows what is on the surface, how you

appear to others, how the world sees you or what we call the native. Thus the horoscope is also called the nativity chart. Outsiders are attracted to you by this sign. It accounts for those glaring contradictions we find in human behavior. You may feel yourself as sexy, yet it is not picked up by others or appears that way due to your rising sign's influence, and vice versa. It explains why some people are forever getting in trouble or attracting trouble through no intentions of their own. When the first house contains no planets, it means individuality is not a matter of personal concern, these individuals accept themselves "as is". If the first house contains one or more planets, then the native is consciously concerned about some aspect of his identity. There is some dynamic or hang-up that needs resolution, karmically speaking.

Planets in the first house indicate the native is aggressive and strives to be "first" denoted by the planet or planets posited. These individuals usually have a difficult time resting and relaxing their bodies which they need to learn in order to insure good health. First house people tend to be individualists with a forceful drive and ambition in life.

The first house shows the organic elements, the physiological factors, and the physical characteristics

which determine the strength and resistance of the body. The Ascendant and the first house represents the "original impulse of individual being", or the self as a particular vibration and rhythm, and the unique soul destiny of the individual. It indicates essentially the type of experience through which he/she will best discover who they are. The zodiacal sign on the Ascendant normally tells us the "dharma" of the individual, the central potentiality which the conscious person is seeking to actualize. If there are planets in the first house they indicate the kinds of functions which will be most valuable in the process of discovery of one's authentic being. Thus, the planets and the first house ruling planet show the way to impel performance of specific acts.

One can often discover what zodiacal sign was rising at birth (if time of birth is not known) by studying a person's facial features and expression. The head symbolizes the essential character of the individual. The head is ruled by the first house. The first house rules the body form, constitution, and temperament. The physical appearance, strength and vitality, weight, height, color of hair and eyes, etc. are largely determined by the rising sign, degree rising on the cusp, etc. The position of the first house ruler and planets rising modifies these features. The zodiacal sign ascending denotes the part of the body more liable to

affliction from external causes such as trauma and infection.

The benefics, Jupiter and Venus, in the first house at birth indicate a good constitution, whereas the malefics, Saturn and Mars, denote scars, birthmarks, moles and defects of the head. This house at birth, and by direction, signifies all diseases of the head, face, eyes, ears, nose, and mouth. This house is closely associated with the feelings, sensations, emotions, manners, passions, and dispositions of the native. In this regards, it explains why the Sun sign does not reflect all the features of the native, and why the Ascendant and the Moon sign are of equal importance in the analysis of the health horoscope.

Regarding the compatibility of healer and patient, the rising sign in each natal map should be in harmony, belonging to the same triplicity, that is in trine or sextile to each other. If the patient has Aries on the Ascendant at birth, his/her healer should also have a fire sign on the Ascendant, as in Leo or Sagittarius. If the healer employed has Cancer, Libra, or Capricorn on the Ascendant it would tend to be adverse, if not in results, certainly in relationship and cooperation. The sextile and trines naturally tend to inspire confidence and faith between healer and patient.

AFFLICTIONS: Head and face, endocrine disturbances which affect the mental states, brain tumors, high fevers, meningitis, migraines.

Those with Capricorn rising are usually finicky eaters. This helps them to avoid gaining weight. This is a weak sign in regards to vitality, but they do not yield readily to disease. Although once afflicted they become despondent and melancholic, and may become hypochondriacs. It also does not contribute to beauty of the human form, unless offset by a well balanced Sun sign. Accidents tend to bring broken bones and dislocations, especially of the lower limbs. The native is also apt to have a hearing disorder sometime through their life, if not some degree of deafness in old age. It is often said that a Capricorn with beautiful eyes is made only through sadness, through a tough childhood that one must forgive and forget. Often, there is a beak-like nose and deep snarl lines around the nose and lips. They may

have a pale, sickly complexion if there are other hard aspects.

The rising sign is divided into thirds, or 3 "decanates", which have a powerful influence over the appearance and form of your body. The sign is simply divided into three 10° aspects as follows: 0-10° first decanate, 11-20° second decanate, and 21-30° third decanate. Each decanate is ruled over by a planet. The first ten degrees is ruled over by the indigenous sign ruler, the second takes on the qualities of the next elemental ruler, and the third the successive element sign ruler. Thus, the first decanate of Aries is ruled by its Mars, the second takes on the qualities of Leo, and the third would combine the qualities of Aires and Sagittarius, and so on throughout the zodiac. Simply locate the first house on your natal chart and note which degree is rising in the sign listed. This gives you your decanate. If in the last few degrees of the sign, e.g. 26° or more, you would also take on characteristics of the first decanate of the following sign.

The pituitary gland, which controls all endocrine glands, falls under this house.

The belief or realization for those so gifted, adds another dimension to understand second house questions. One's tendencies, faculties, and karma produced from past lives and carried over into the present rests with the concept of management, that is, intelligent use of one's inheritance, possessions, artistic talents, or even inventions. The second house can show the mere fact of ownership in today's essentially "unspiritual society", or

one who lives according to spiritual values and surrenders to mankind assets to promote human evolution. It shows then if a person can advance beyond the traditional use of possessions, or is acting merely as an agent for the "ghosts of karma" (Geg in Tibetan), with a life filled by ancestors, driven by socio-religious hatreds and fears.

When no planets occupy this house, it indicates the native does not see money as a major issue in life. With planets in this house, the affairs of other houses which those planets rule are brought to bear influence on the matter of obtaining money. For example, if Saturn is in your second house, tenth house matters, such as your profession, is where the money will easily flow from.

People with planets in the second house have overwhelming desires to prove their self-worth, establish themselves in society by big factors as indicated by the house rulers outlined above. For example, if the Moon is in the second house, fourth house matters like the home are important and the native will desire a big home or big family. After having established their nest eggs, (with the personal planets Venus, Moon, Mars, Jupiter placed in this house) gluttony is not uncommon. The native will

also learn the karmic problem of this house - happiness is the one thing that cannot be bought.

AFFLICTIONS: Problems with homeostasis - blood and electrolyte changes, intake of nutrients - diabetes, obesity, hypoglycemia; disorders arising from vaccination.

HEALING COLOR: Yellow

EMPOWERMENT COLORS: Green, lemon, citrine, brown

PISCES on 2nd HOUSE

♆ on 2nd

The second house shows how the native earns money from his/her own efforts and from what resources. These individuals are prone to have difficulties with their finances. They may be disorganized and lax when it comes to handling their affairs and if they do not pay close attention, there is the potential that all they have worked for will dwindle away.

SUN in 2nd HOUSE

☉ in 2nd

This position shows that the person will obtain money by industrious effort, and may align himself or herself with people who are financially able to assist in furthering one's material prosperity. The saying, "easy come, easy go", applies truly to a person with the Sun in the second house, since there is an innate tendency to squander

money on social intercourse, pleasure and luxury. Unless this trait is curbed it will bring about financial emergencies, for it is not so much what we earn that counts as what we spend. One must learn to use property and money constructively, not merely for personal satisfaction.

PSYCHOLOGICAL TENDENCIES: The sign position gives an important clue to the way the person will acquire money. For example, if the Sun is in Gemini in the second house, the native will likely earn and spend through intellectual pursuits, through Leo by social or romantic endeavors, etc. If the Sun is afflicted, money may be spent on luxuries for purposes of display and ego gratification.

PATHOLOGICAL TENDENCIES: Diabetes, mineral imbalance, obesity, rheumatic pains.

PSYCHIC PURIFICATION:

Diabetes: Longing for what might or should have been, no sweetness left. The resolution here is to recognize the sweetness of today.

Obesity: Running away from your feelings by possessiveness or seeking self-fulfillment. The resolution here is to realize you're already safe and secure with what you have. Love and approve of yourself.

Rheumatism: Lack of love, the resolution here is to approve of yourself as well as others and be at peace.

SUN trine NEPTUNE

Sun trine Neptune favors the spiritual faculties and intensifies the spiritual vibrations in the aura. Many people with this configuration have providential luck, as it is said they live in the presence of angels for good deeds they performed in past lives. In others it fosters a love of the occult which leads them into the spiritual world. It suggests those who are prone to have highly developed intuition. However, they can lack ambition and miss opportunities that come their way presenting gains in spiritual or artistic growth.

NORMERGIC TENDENCIES: Psychic powers which benefits the vitality.

MERCURY in 2nd HOUSE

This position indicates preoccupation and gain through the Mercurial occupations such as economists, writers, accountants, agents, draftsman, banking clerks, secretaries, etc. These natives are adept in finding practical solutions to problems. They have a unique sense of knowing what others think is important and benefit

from this quality. If the planet is adversely aspected there may be financial loss caused by misjudgment and poor reasoning. The sign in which the planet is functioning will indicate from what source the loss may come. For example, if Mercury is afflicted in Aquarius, a friend may encourage the native to speculate unwisely; in Libra it could be the advice of a partner or spouse.

PATHOLOGICAL TENDENCIES: Sore throats, laryngitis, tendency to stutter.

PSYCHIC PURIFICATION:

Stuttering: Insecurities, not being allowed to cry or speak for oneself.

MERCURY conjunct URANUS

♀ ♂ ♃

Mercury conjunct Uranus indicates those who are unpredictable. These individuals are also likely to have curious minds, if not telepathic abilities and flashes of intuition. With negative afflictions the native may be conceited and difficult to get along with, even harebrained.

PATHOLOGICAL TENDENCIES: Mental derangement, neurosis, neurasthenia; incoordination, spasms or twitching.

NUTRITIONAL ASPECTS: Deficiencies of thiamine, calcium and magnesium.

BENEFICIAL FOODS: Sunflower seeds, whole grains, yogurt, broccoli, tea.

MERCURY square PLUTO

♀ ☐ ♁

Mercury square Pluto indicates a native with strong will power. These individuals exhibit a straightforwardness to the point of cunning. They often use harsh speech and words. They "tell it like it is" and for this reason sometimes create resentment and enemies.

PATHOLOGICAL TENDENCIES: Of high strung temperament with heart problems, thyroid insufficiency; multiple sclerosis; constipation or sluggish peristalsis.

NUTRITIONAL ASPECTS: Severe deficiencies of thiamine; deficiencies of the B complex in general, calcium and magnesium.

BENEFICIAL FOODS: Whole grains, broccoli, turnip greens, tea.

URANUS in 2nd HOUSE

♃ in 2nd

Uranus in the second house, which governs finance, indicates an unsettled state of financial affairs, impulsive

spending habits, and money earned from unusual or unorthodox occupations. Even these individuals may have good aspects concerning financial matters, it may be found that they are unable to protect themselves against these sudden and unforeseen losses or gains. Therefore it is difficult to give financial advice to such people, for even if they invested prudently and cautiously, there will be sudden, unexpected, if not catastrophic losses in business ventures. The sign in which Uranus is placed will show the nature of the losses, as in Aries, Leo or Sagittarius, loss by fire or in electrical investments; in Virgo or Capricorn, by investments in lands, mines and real estate; and so on with the rest of the signs.

PATHOLOGICAL TENDENCIES: Spasms in the neck and shoulders.

HOUSE 3

Astrology speaks of the third house as that of brothers and sisters, and close relatives. It actually means the earliest newborn environment and of one's grown relationship to it. The relationship of the child to his/her environment is basic and substantial in the formation of his/her character, and of responses to life. The third house refers to the early environment and to persons who acted within it - close relatives, guardians, siblings, etc. It also

shows in the child "coming to terms" which is at first entirely unconscious and instinctual, later becoming the foundation for human intelligence, and consciousness.

No planets in the third house means response in a natural fashion. One or more planets in the third house indicates a self-conscious need to express thoughts. It may sometimes indicate speech difficulties. The native is often asked too often to help other people, brothers and sisters. The disease of "other people" can lead to great frustrations and nervous stress. These individuals need to learn to say no, take regular breaks in peace and quiet, take short naps after lunch, etc. for the health to improve.

Malefic planets in this house tend toward mental instability and chaos unless well aspected. It shows traumatic experiences such as child abuse, fights with siblings, rebellion, etc. What differentiates this house from its opposite, the ninth house, is that of experiences involving direct personal contact with the close environment of the individual, resulting in habits and proclivities. It indicates physical actions, and transportation, especially within your immediate environment. Benefics in this house, when well aspected, indicate a well balanced mind. It rules the fingers, hands, chest, lungs, the lower mind and wakefulness.

AFFLICTIONS: Disturbed breathing rhythms, reduced vitality, lack of oxygenation, nervous tension, mental instability.

HEALING COLOR: Orange

EMPOWERMENT COLORS: Yellow, indigo, white with red

TAURUS on 3rd HOUSE

♉ on 3rd

The third house deals with the native's immediate speaking, writing, and communications audience. Taurus ruling the third house indicates individuals who are apt to be very sociable within their immediate surroundings but communicate by convenience, not by innovation. Being slow and deliberate in thought, once they make a decision they become stubborn and rarely change their minds. Their thinking is often concentrated on money making or on artistic endeavors. These individuals usually have friendly and sincere relationships with their brothers and sisters as well as their neighbors. The native may also actively participate in community projects. Afflictions in the third house suggest these individuals may become involved in arguments with siblings or neighbors.

HOUSE 4

The fourth house is said to have two basic meanings - the soil or secure foundation in which man is rooted; and the "heart" or fundamental rhythm of the individual self. It is indeed the Nadir of the chart, the midnight point of consciousness, where "God-experience" can be had. The vertical line of the birth chart - Zenith to Nadir - points upwards to the sky (Zenith) and downward through the spinal column at the center of the globe. Unity comes by centering one's "Hara" or vital energy with that of the Earth.

Its sign and planets refer to the kind of feeling which spontaneously mobilizes and directs the energies of the organism, often called "gut feeling". The Ascendant tells who we are, while the Nadir shows what we are, at least potentially, where we stand. It is the power implied in "being a person", yet in today's global economy it is basically conditioned, if not entirely determined, by socio-cultural patterns and media manipulation, rather than by ancestral family values. Thus it indicates the beginning as well as the end of various cycles in the native's life, including old age, the end of life and death, the various conditions which affect the close of life, its diseases, worries, wealth or poverty, etc. The nature of the end of life will be told by the planets in this house, and the

sign on which the cusp begins the part or organ where the complaint will lie.

If there are no planets in the fourth house, the native accepts his background and family and makes the best of it. If there are one or more planets in the fourth house, then conscious attention is directed towards his background. He/she has reasons to question, if not doubt family matters. Some may have unfortunate liabilities to overcome before they make headway in life. Malefics in this house can indicate early childhood traumas which are best recalled and cleared by past life regression. Neurosis can result from repressed anger. Parental attitudes and conditioning have led to unhealthy if not neurotic habits. All these matters of childhood trauma and abuse are judged by the fourth house.

At the biological level, the fourth house symbolizes the acquirement of nutrients to satisfy basic physiologic needs to meet daily routines and obstacles. It is the energy needed for intercellular exchanges and for adjusting the body to changes in temperature and the demands of the physical environment. It rules over the body water, interstitial fluid, and lymphatic environment. In a mentally and emotionally developed person, one's personal power (Hara) is available for self-expression and

social contact. In an undeveloped or immature being, confusion sets in with mixed impulses carried over from previous lives and those values family and society has forced upon the individual. This results in oral fixations, hormonal imbalances, lymphatic stasis and obesity. It is a being out of rhythm, breathless, confused and never satiated.

This house rules the breasts, lungs, stomach; inheritance; the birthplace and home place; the mother in the male chart and father in the female chart. Benefics in this house at birth indicate that the native should live in his native homeland, if possible, for insured good health and fortune, leading to a happy end of life. Malefics here point to a short life of the mother or father, according to the sex of the horoscope; disease, distress, and worry in old age.

AFFLICTIONS: Oral fixations, overeating, nutritional disturbances, obesity, anorexia; diseases of the stomach, breasts, and lungs.

HEALING COLOR: Violet

EMPOWERMENT COLORS: Silver, green, russet, brown

TAURUS on 4th HOUSE

♉ on 4th

The fourth house is the area of private concerns,

emotional security and how we inwardly feel about ourselves. If there are no planets in this house, there are generally no problems in the way these natives accept themselves. The cusp on this house shows the general tempo of the subjective self. Taurus ruling the fourth house indicates people who regard themselves as practical and dependable. These individuals' romantic and social lives are usually centered around their homes. Their residences are apt to be elegant, comfortable, and homey. Afflictions in this house indicate the inability to enjoy domestic life and difficulties in purchasing a home.

HOUSE 5

At its highest potential, the fifth house shows the exteriorized power and a projected vision originating from a realm that is "super personal". The person thus becomes an agent for some great collective consciousness or planetary, evolutionary purpose. He/she becomes a lens through which light is condensed and brought into focus, at which point power can operate and work can be performed. This creative process, work, and its products are conditioned by the nature and temperament of the person. The person acts strictly as an individual. To the extreme, he/she expects results that will bring fame, prestige, and ego-satisfaction.

The fifth house is the area of experiences which are essentially the outcome of emotions, as distinguished from gut feelings of the fourth house. Feelings are spontaneous reactions, whereas emotions seek an exteriorization, or "moving out" with synchronous organic changes and muscular movements. The fifth house is associated with gambling in any form, for money, business ventures, romance, etc. whenever one follows hunches, inner frustrations, or imagination.

Traditionally, the fifth house is considered to be the section of the birth chart (radix) referring to love affairs, versus a seventh house marriage. Fruitful signs and planets here denote many children, barrens signs and planets here tend to deny children. This house rules the back, spine, liver, stomach, appetites, loves affairs and sexual appetites. This house is said by some to rule the soul.

Each house of the radix refers to power and unfoldment, as well as some great test of the developing individual. The zodiac sign on the cusp of this house and planets within should give the student of astrology clues as to the best way in which he or she can solve problems creatively. The Chinese character for danger, also means opportunity, depending solely on one's perspective and

ability to be creative. The test of the fifth house is that of isolation, or emergence as a unique and valuable human being. The test of the second house is that of ownership and possessions. In the third house it is thought and how to handle ideas to approach challenges of one's environment. The fourth house test is that of stability. The fifth is creative self-expression.

No planets in this house means the native has little attraction to fifth house matters. He/she can take gambling or leave it. One or more planets in this house shows the native has a natural interest in art, pleasure, children, romance, or gambling. These natives may feel a great need for love. Their ailments can come from chaotic affairs leading to frustrated and fragmented lives. The root cause is insecurity. Naturally, the houses ruled by the planets in the fifth house contribute and inspire all fifth house creativity.

AFFLICTIONS: Heart disease (with malefics in this house), overeating, egomania, spinal disorders, liver problems, arteriosclerosis, hypertension.

HEALING COLOR: Purple

EMPOWERMENT COLORS: White, gold, green, red

GEMINI on 5th HOUSE

II on 5th

The fifth house is where the ego extends into so-called pleasurable pursuits.

Gemini ruling the fifth house indicates individuals whose pleasure pursuits are intellectual or mental. However, no one area of pleasure will occupy the native's thinking for too long. Romances are apt to be precarious or fickle and these individuals may be in more than one relationship at one time. They can be critical of their loved ones. They enjoy trading stocks or other commodities.

HOUSE 6

The sixth house implies a crisis of perception, the period of personal readjustment, the time in one's life when one is forced to realize what he/she has done and whether success has come to rest or to haunt. Once a work is completed, the composer is often painfully aware of how it could have been produced better. A person's inner worth is often revealed when faced with experiences and periods of inadequacy, frustration, or defeat. These crises take their toll upon the body, require guts and fortitude, and great reserves of vitality. This house represents fundamentally, everything that deals with personal crises, the way to best meet them, and the direction of personal growth and transformation. The sixth house is

somewhat karmic in nature by its perception or reason for duties, debts, and obligations.

The sixth house is known as the "house of health" and the sign on the cusp of this house indicates which body parts and organs prone to disease and affliction. Illness may be the direct result of some defeat of the vital energies unable to cope with a challenge to grow stronger, or an attempt by the soul to show a need for a revision in attitude. The sixth house shows a response of the individual to a social situation. Also, as a patient, one should not consult with a doctor whose natal Saturn is in the sixth house of the native, as one will find incompatibility or may even be poisoned by medication.

Natives with planets in this house may have a lack of self-esteem, be plagued by guilt, or seek the approval of others. All these negative emotions affect the health with nerve related ailments, blood sugar problems, and intestinal disorders.

Benefic planets ruling this house or planets in this house show better health, while malefics afflict the mind and body. The sixth house in a broad sense governs disease, especially if there are planets in it at birth. It particularly rules the abdomen, belly and intestines, food

affecting conditions of health, healers and physicians. The sixth house also rules aunts and uncles, servants, persons in employ, kindred on the father's side, small animals and pets of the native.

When emotionally upset they feel it in their stomach as "butterflies" and as a result suffer from digestive upsets. In this house of food the native is fond of rich "motherly" meals (home cooked meals) - soup with breads, thick gravies with meats, butter in everything, etc.

When these individuals are at work they prefer to work alone or in a position where they have some authority over coworkers. They work better at their own pace and many possess good organizational skills. Those with Pluto in the sixth house have strong recuperative powers, as well as above average strength and stamina.

KARMIC LESSON: Personal health, or even a serious illness, is instrumental in producing great changes in attitudes and a purification of one's own values.

HOUSE 7

The seventh house is closely related to the sign Libra, and thus marriage and partnership, the husband in a female nativity, and the wife in a male nativity are also related. This house shows the test of functional cooperation and participation between individual and society. Function suggests purpose, both inherent and potential, in man or woman. Purpose is only revealed as one operates within the group or global economy. It is the field of human experience that the person can be most basically transformed and can gain freedom. Planets in this house reveal compelling pressures and motives for destiny. In such cases, individuals may find themselves driven to enter into certain types of relationships as part of their destiny.

While the first house represents how the native appears to others, the fourth house shows how the natives sees himself or herself, the seventh house represents how others appear to the native. It represents those whose lives touch the native and how they respond. If the house is unoccupied by planets, he/she is comparatively free of the influence of others in most of his/her affairs. These individuals do pretty much as they please, but it also means others do not generally help them either. The

affairs of this house are always related to the area of another house where the ruler of the sign on the seventh cusp lies. If there are one or more planets in this house, the native is consciously dependent on others in some respect and other people tend to control his/her affairs. Natives with planets in this house may find it difficult to "stand on their own two feet". They feel accomplishments need to come through other people or their partners or spouses. The Sun located here is indicative of good health, while Saturn signifies a potential for a short life. Mars here, indicates a bad wife and sickness.

The seventh house also denotes the type of physician or healer required in health matters. It is important that the healer is compatible with the native depending on the illness. HOUSE 8

This house, its cusp, and the planets located in it, indicate how a person can best approach opportunities and the resistance involved in bringing relationships into a fruitful situation. These relationships can mean marriage, partnerships, and business associations. The second house refers to private assets, or what can be used to actualize one's birth potential. The eighth house deals with business contracts and agreements that are legally binding. The eighth house field of experience deals with trust, management, and responsibility. The second house deals with personal management, whereas the eighth house with proper management of business assets, profits and losses. It indicates where binding agreements will bring legacy. It may also mean death followed by rebirth, or the kind of disagreements which bring unresolved frustrations and a future surrounded with karmic ghosts. With such a native, emotional scarring tends to be hidden. These individuals have a burning need to purge themselves of past memories which brutally punish their bodies for years. Many succumb to chronic ailments

around the ages of 42 to 49 years old. With the background of this emotional insecurity, they push hard for overt success, only for their bodies to crack up under the pressure. Sex is often their only form of organic release.

If the eighth house is unoccupied by planets, the native takes emergencies in stride and usually faces crises with appropriate action. If the house is occupied, eighth house matters are of serious concern for the native. These matters may take the form of handling other peoples money, dealing in antiques, archaeological findings, etc. The eighth house also indicates the end of physical life, the surrender of the soul, the time and manner of death. VIRGO on the 8th HOUSE

♍ on 8th

In the eighth house we look for the possibility and effect of extraordinary changes that might intrude on the native's life and the inner strength that he/she might possess to cope with the challenge. Virgo ruling the eighth house indicates the native will be of help during devastating conditions or times of change. These individuals must be on the alert for situations of danger or accidents may occur. Their inner strength comes from realizing solutions to change.

HOUSE 9

Experiences and the tests related to the ninth house are those periods encountered by the individual to find the meaning of things. The act of knowing belongs in the third house because it implies mere contact with the immediate environment. It is knowledge derived merely from sensations. The ninth house relates to understanding, a far more complex process which involves synthesis of many factors and data. The German term "gestalt" applies to the ninth house as a type of knowing, understanding, and referencing holistic experiences derived from mystical and philosophical inquiry.

The ninth house is the house of symbols and words.

Symbols have to be interpreted. The radix chart is a set of symbols relating to the location of planets and stars at the time of birth. It symbolizes the complex relationship existing between the native and the universe. Likewise, all religious concepts and mystical visions are symbolic of man-to-universe relationships. To speak of a "God Experience" is a typical ninth house activity, a unity which the person projects and asks for answers for all his conceivable needs.

The danger one faces in ninth house experiences is over-expansion caused by ambition and greed for power and power symbols, such as money. Ambition is the negative aspect of this house, leading to compulsive egocentric relationships that use other people for power or prestige. Knowledge is used to achieve power. It is this type of knowledge our society holds in high esteem. Ours is a society imbued with competition and ambitions, worshipping success and power with no concern for the environment and health of society as a whole. Thus the relationships become perverted, destructive and inharmonious to a wholesome life. In such a society, the mind is used as the instrument of success. Group relationships translate into compulsive cooperation, mandated actions, and forced taxation. It implies twisting the laws, natural as well as political, so they

become tools for gathering wealth. This is the mind of the politician, the corporate leader, the scientist in search of inventions and discoveries for personal fame.

If the house is unoccupied by planets, the native finds it easy to accept certain philosophical principles or cause of religion, and there is no resistance to understanding higher principles. If the house is occupied, the native is concerned with philosophical formulations or developed principles. Due to this high thinking, people with benefics in this house are some of the least likely to have health complaints.

The ninth house denotes the fundament, hips, thighs, hams, higher mind, dreams and visions. Malefics in the ninth house at birth tend to disturb and unbalance the mind, or cause religious excitement and fanaticism, unorthodox views, and trouble with religious authorities. It also points to dangers in foreign travel, injury or ill-health, or even death abroad. It is advised that persons with malefics at birth with no benefics in this house should remain in their native land.

AFFLICTIONS: Accident and injuries to the hips, thighs and hamstrings; nervous strain and stress; sports injuries and trauma.

HEALING COLOR: Scarlet

EMPOWERMENT COLORS: Jade, purple, white, yellow

SCORPIO on 9th HOUSE

♏ on 9th

The ninth house has to do with our higher ideals and ability to heal by faith. Scorpio ruling the ninth house indicates the native's higher thinking drifts to realms not suitable for mundane discussion. These individuals are likely to be reformers or innovators in their fields, especially of philosophy and religion. The native's values are exceedingly open to continual change.

HOUSE 10

In the tenth house an individual meets experiences which result from his/her successes or failures in gaining social, public or professional position. He/she is integrated, or fails to become integrated into the social collective and public status in the community. It is one's "office" which defines one's stand in the community. First house potential becomes actualized in the tenth, if all has gone well during the unfoldment of preceding houses. It is a house of vitalistic functions, being on the Midheaven or zenith. The tenth house, the house of Midheaven, corresponds to the sign Capricorn. It rules the knees, hamstrings and thighs. Planets in this house have a powerful influence in matters of health and disease, especially in regards to nervous tension and stress developed from one's career, as well as injury from falls,

blows, or the death of a parent. In the male nativity it rules the father, in the female nativity the mother and the affairs of the mother.

If the tenth house is unoccupied by planets, the native's ambitions and their probable outcome are more directly related to that area of his affairs where the ruling planet falls where the tenth house cusp is found. If the house is occupied, the native has a conscious struggle both to formulate his ambitions and put them across to other people. Any planet in the tenth house reveals more of the outcome of this house than the actual sign or "house rulership." Planets in the tenth house contribute directly to the native's position in life. Their worries, internal pressures and incessant need to work hard may drive them into chronic illness.

AFFLICTIONS: Obesity, anorexia nervosa; nervous tension, self-undoing, misery; accidents; evil of a parent, the "sins of the father passed onto the sons".

Foods that contain bran and bulk such as leafy, green salads and whole grains are advised.

HOUSE 11

In the eleventh house, the power of society, as a collective or group, is released through the individual. The power is released through the activities the individual performs within the social unit such as in their profession, church, club, fraternity, etc. Success is seen pleasurable in the social environment as his/her work and prestige unfolds. The experience gained in the tenth house makes it possible to set new social objectives, new professional goals, or to relax in the company of one's peers or fellow workers. This house has much to do with an individual's attitude towards achievement and social success. It is the use a person makes of either achievement or failure which establishes his/her self-worth. Success or failure brings into the total being the way one lives, feels, and acts and thus has great influence on the health of the native. Success as well as failure must be used wisely, significantly, and creatively. Regression therapy can do

much to undo the patterns that led to failure, or perceived failure can be unfolded into a new dynamic.

If the eleventh house is unoccupied, the native does not consciously need friends to share his/her wishes or hopes. Those who have planets in the eleventh house always work best within groups united for a common purpose. The eleventh house is affiliated with Aquarius and rules the legs, calves and ankles. The malefics in this house bring despair, false friends, ruin and wicked children.

AFFLICTIONS: Heart function; injury or disease of the legs, calves and ankles; blood dyscrasia.

HEALING COLOR: Red

EMPOWERMENT Colors: Sky blue, orange

HOUSE 12

At the twelfth house, the sky comes to an end, as one has

performed his social or professional work in the eleventh. It is described as the house which closes the human cycle of life. They are either the Angels of Light beckoning to the beyond, or they are the dark Guardians of the Threshold, whose memories are shaped by frustrations, denials in life, fears and sins of omission. In the twelfth house we meet the results of our passive acceptance of that which was, or our spiritual rebellion that helped make a new world. We face the karma of society in a subconscious manner, or we face the karma of individuals who fought society for selfish interests, or for the sake of a better world.

The collective power of memories are witnessed in the twelfth house. What is called karma may be so great that it stifles the individual identity of the newborn, or drowns out the rhythm of a new cycle of the man facing the probability of rebirth. This results in the new cycle, becoming no more than a repeat of the last cycle. According to ancient Indian philosophy, the last thought held in death determines the pattern of the future incarnation. One of the stranger characteristics of our linear, Western society is its inability to think in terms of cyclical processes. Such a denial can be traced to a religious decision of the Council of Constantinople in the 5th century A. D. which prohibited the belief in

reincarnation and other factors that began the era of the dark ages.

The twelfth house relates to sorrow, disappointment, loss, misfortune, the private hells, anguish, solitude or confinement, hidden fears and worry. It is considered by some as an "evil house", the house of restrictions and limitations, and detrimental spiritual or psychic conditions of the native. It is related to the sign Pisces. Its placement suggests the best way to deal with one's ghosts and products of the subconscious. The best way to deal with a shadow is to illuminate it by the use of lights focused upon it from a number of different directions. This process is utilized in past life regression therapy. Ghosts and shadows of the subconscious will vanish when subjected to the light of understanding and compassion.

If this house is unoccupied by planets, the native is generally not consciously confronted with its implications. He does not live in fear and accepts and works within the framework of his destiny. Not everyone in life is confronted with the spiritual issues of the twelfth house. Many indeed pass through life facing the material consequences of their conscious ambitions as revealed by the tenth house. If the twelfth house is occupied, the native has some matters in which to confront and work

out as shown by the houses ruled by the occupying planets. The sign on the cusp of the twelfth shows the general tempo of inner spiritual matters in the native's life. Planets here indicate forms of introversion with emotions that build up until some form of illness manifests. Talking about their feelings through past life regression is the best remedy for twelfth house individuals. They need to learn that harboring envy, jealousy, and hatred invariably brings disease and misfortune. The karmic law applies.

AFFLICTIONS: Auto immune disorders, reduced thymus functions from negative thoughts; afflictions, hurts and injuries of the feet; lymphatic congestion; worry, brooding, despair and despondency.

HEALING COLOR: Lemon

EMPOWERMENT COLORS: Green, blue, white
