

## Asthma & Allergy Associates PA

**Certified: American Board of Allergy and Immunology**

4601 W 6<sup>th</sup> Street, Ste B- Lawrence, Kansas 66049 - 785-842-3778

Ronald E. Weiner, M.D.

Warren E. Frick, M.D.

Your first appointment will take 2-3 hours if skin testing is performed. The fee for the initial office visit itself will be ~\$210-270. Skin testing could be an additional \$400-800. This is an **estimate** that could be higher, depending on the number of tests that are done. Copays are required at the time of service.

If there is a balance after insurance processes your claim, we will send you a statement. Keep in mind, an unmet deductible can significantly contribute to your out-of-pocket-expense. It is your responsibility to check with insurance regarding coverage.

If you do not have insurance, we require full payment at the time of service. Arrangements must be made in advance if payment cannot be made in full on the day of the appointment.

See below for the most commonly used CPT (insurance) codes for an allergy work-up:

Initial office visit for a new patient:

99203 - \$210

99204 - \$270

99205 - \$325

Percutaneous (prick) skin tests – 95004 are \$10.00 each

Intracutaneous (ID) skin tests – 95024 are \$ 13.00 each

Please call for codes & pricing for venom testing & treatment, drug testing, food/drug challenges, spirometry, bronchospasm study, allergy shot extracts & allergy injections.
