Melinda Inestroza (Hospital Manager) melinda.inestroza@vca.com

Credentialed Veterinary Technician OR very experienced and seasoned veterinary assistant FT

VCA Buckhead Animal Hospital is seeking a Credentialed Veterinary Technician (or highly experienced Veterinary Assistant) to join our 5-doctor practice in Atlanta, Georgia - located in Buckhead.

We're looking for a believer in the possibilities of high-quality veterinary medicine and patient care—with the experience and technical know-how to make them happen....a devoted team player who thrives in a collaborative environment, and is invested in their colleagues' success....someone who takes enormous pride in their ability to listen and speak to clients like a trusted friend....a service-minded professional who is energized by the gratitude of others and in the satisfaction of a job done right.

If this describes you, then we want you on our team!

Why We Need You

We recognize that our clients have many choices in veterinary care, including the choice to skip it altogether. Your mission will be to win the confidence of every pet parent, in every interaction, so they will partner with us for the lifelong care of their companion animals—and to never take their patronage for granted.

You've worked hard for your credentialing and we want you to use the knowledge that you've invested your time and talent in. The skills that you will be utilizing include, but are not limited to: venipuncture, catheter placement, radiology, anesthesia monitoring, physical examinations and patient assessment, surgical preparation and assisting, dentistry, laboratory work, pharmacy, patient recovery, and compassionate care for our hospitalized patients.

Your teaching and marketing skills will also come into play, as you educate clients on the value of advanced veterinary care. You will be in a unique position to coach them on keeping their pets healthy, as well as validating any concerns they may have in collaborating with the doctor. Making a positive impact on both the patient's life and the client's is a privilege that you will share in.

Perhaps the greatest asset you will bring is your emotional intelligence. As you know, the hospitalization of a beloved pet can be a stressful situation for everyone involved. At times, your ability to maintain a cool head and treat clients according to the Golden Rule will be tested. But we have faith in your professionalism and know that you won't let us, your patients—or yourself—down!

Why You Should Consider Us

As a member of the VCA family, your passion for medicine and compassion for pets and people is matched with a commitment to your professional growth. You will enjoy exposure to a diverse and stimulating caseload, employ the most advanced imaging and monitoring tools, and tap into the expertise of more than 3,000 doctors, including 360+ boarded specialists. You will sharpen your skills—and even learn some new techniques—and explore career options that only VCA can offer, such as continuing education, transfer, specialization, and leadership opportunities.

We offer competitive compensation along with a comprehensive benefits package, including, medical/dental/vision and paid vacation, 401(k), generous personal pet care discounts and more!

Please note that this position requires a flexible schedule and the ability to work evenings, some weekends, and some holidays.

Veterinary technology or animal health degree preferred

Licensure Required

Flexible scheduling and ability to work some weekends and holidays is a must!
