

T9-MH-XL-DIRECT with Lens

The **MH-XL-Direct** mount fixture comes with **Patented Super Reflector Technology** which produces at least 20% more light than any other fixture. It is perfect for lighting manufacturing and industrial facilities with ceiling 15 to 110 feet high.

Description

T9 Ceramic Metal Halide direct fixture with universal T9-30,000 hour lamp and 60,000 hour dimmable electronic ballasts comes pre-wired and assembled.

- A 24" Aluminum outer housing with high temperature polyester powder coat contains our Patented Super Reflector Technology with a Luminaire Efficacy Rating (LER) 95%.
- Comes with T9 lamp, ballasts mounted in attached ballast enclosure with a swivel ball cover for hook or pendent mount, cord and plug.
- Available with a tempered glass lens.
- For Open Rated fixture use the T12 lamp with outer jacket.
- Standard voltage 200 to 480 volt.
- Weight 30 lbs.
- For more light than a 1000 watt HID use the **630 watt T9 MH-XL-Direct** as seen in photo. Replace 400 Watt HID with T9-210 Watt.
- Five year warranty on housing and reflector.

ArcelorMittal Marion. We replaced 1000W High Bay Lights with 630W and 315W Best Lights Fixtures. **\$88K Per Year in Electrical Savings – More Light – Two Thirds Less Maintenance.**
