AKC PBGV STANDARD

GENERAL APPEARANCE

The Petit Basset Griffon Vendéen is a French scent hound developed first and foremost to hunt small game over the rough and difficult terrain of the Vendéen region. To function efficiently, he must be equipped with certain characteristics. He is bold and vivacious in character; compact, tough and robust in construction. He has an alert outlook, lively bearing and a good voice freely and purposefully used.

The most distinguishing characteristics of this bold hunter are: his rough, unrefined outlines; his proudly carried head displaying definitive long eyebrows, beard, and moustache; his strong, tapered tail carried like a saber, alert and in readiness. Important to breed type is the compact, casual, rather tousled appearance, with no feature exaggerated and his parts in balance.

Any deviation from the ideal described in the standard should be penalized to the extent of the deviation. Structural faults common to all breeds are as undesirable in the PBGV as in any other breed, regardless of whether they are specifically mentioned.

SIZE, PROPORTION, SUBSTANCE

Size – PBGVs measure between 13 and 15 inches at the withers. Height over 15 inches is a disqualification. Height under 13 inches is a disqualification at one year of age or older.

Proportion - When viewed in profile, the body is somewhat longer than tall when measured from point of shoulder to buttocks, as compared to the height from withers to ground.

Substance - Strong bone with substance in proportion to overall dog.

Head – The head is carried proudly and, in size, must be in balance with the overall dog. It is longer than its width in a ratio of approximately two to one. A coarse or overly large head is to be penalized.

Expression - alert, friendly and intelligent.

Eyes - large and dark with good pigmentation, somewhat oval in shape, showing no white. The red of the lower eyelid should not show. The eyes are surmounted by long eyebrows, standing forward, but not obscuring the eyes.

Ears - supple, narrow and fine, covered with longhair, folding inward and ending in an oval shape. The leathers reach almost to the end of the nose. They are set on low, below the line of the eyes. An overly long or high-set ear should be penalized.

Skull - domed, oval in shape when viewed from the front. It is well cut away under the eyes and has a well-developed occipital protuberance. Stop clearly defined.

Muzzle – The length of the muzzle from nose to stop is slightly shorter than the length from the stop to occiput. The underjaw is strong and well-developed.

Nose - black and large, with wide nostrils. A somewhat lighter shading is acceptable in lighter colored dogs. A butterfly nose is a fault. **Lips** - The lips are covered by long hair forming a beard and moustache.

Bite - It is preferable that the teeth meet in a scissors bite, but a level bite is acceptable.

NECK, TOPLINE, BODY

Neck –The neck is long and strong, without throatiness, and flows smoothly into the shoulders.

Topline – The back is visibly level from withers to croup. There is a barely perceptible rise over a strong loin. Viewed in profile, the withers and the croup should be equidistant from the ground.

Body muscular, somewhat longer than tall. Compact, casual in appearance, with no feature exaggerated and his parts in balance. Chest rather deep, with prominent sternum. Ribs moderately rounded, extending well back. Loin short, strong, and muscular. There is but little tuck-up.

Tail - of medium length, set on high, it is strong at the base and tapers regularly. It is well furnished with hair, has but a slight curve and is carried proudly like the blade of a saber; normally pointing at about two o'clock. In a curved downward position, the tip of the tail bone should reach no further than the hock joint.

FOREQUARTERS - Shoulders clean and well laid back. Upper arm approximately equal in length to the shoulder blade. Elbows close to the body.

Legs – The length of leg from elbow to ground should be slightly more than half the height from withers to ground. Viewed from the front, it is desirable that the forelegs be straight, but a slight crook is acceptable. In either case, the leg appears straight, is strong and well boned, but never coarse nor weedy. Improperly constructed front assemblies, including poor shoulder placement, short upper arms, out at elbows, lack of angulation and fiddle fronts, are all serious faults. Pasterns strong and slightly sloping. Any tendency to knuckle over is a serious fault. Dewclaws may, or may not, be removed.

Feet - not too long, between hare and cat foot, with hard, tight pads. The nails are strong and short.

HINDQUARTERS - Strong and muscular with good bend of stifle. A well-defined second thigh. Hips wide, thighs well-muscled. Hocks are short and well angulated, perpendicular from hock to ground. Feet are as in front. Except that they must point straight ahead.

COAT - The coat is rough, long without exaggeration and harsh to the touch, with a thick shorter undercoat. It is never silky or woolly. The eyes are surmounted by long eyebrows, standing forward but not obscuring the eyes. The ears are covered by long hair. The lips are covered by long hair forming a beard and moustache. The tail is well furnished with hair. The overall appearance is casual and tousled.

The rough, unrefined outline and tousled appearance of this rustic hunting hound is essential. Any sculpting, clipping, scissoring or shaping of the coat is contrary to PBGV breed type. The PBGV coat should be clean, neatened as necessary, but always remain casually disarranged. Any deviation from the ideal described here and in the General Appearance Section of the official standard should be penalized to the extent of the deviation.

COLOR - White with any combination of lemon, orange, black, sable, tricolor or grizzle markings, providing easy visibility in the field.

GAIT - The movement should be free at all speeds. Front action is straight and reaching well forward. Going away, the hind legs are parallel and have great drive. Convergence of the front and rear legs towards his center of gravity is proportional to the speed of his movement. Gives the appearance of an active hound, capable of a full day's hunting.

TEMPERAMENT - Confident, happy, extroverted, independent yet willing to please, never timid nor aggressive.

DISQUALIFICATION - Height over 15 inches is a disqualification. Height under 13 inches is a disqualification at one year of age or older.

AKC CODE OF SPORTSMANSHIP

PREFACE: *The sport of purebred dog competitive events dates prior to 1884, the year of AKC's birth. Shared values of those involved in the sport include principles of sportsmanship. They are practiced in all sectors of our sport: conformation, performance and companion. Many believe that these principles of sportsmanship are the prime reason why our sport has thrived for over one hundred years. With the belief that it is useful to periodically articulate the fundamentals of our sport, this code is presented.*

- Sportsmen respect the history, traditions and integrity of the sport of purebred dogs.
- Sportsmen commit themselves to values of fair play, honesty, courtesy, and vigorous competition, as well as winning and losing with grace.
- Sportsmen refuse to compromise their commitment and obligation to the sport of purebred dogs by injecting personal advantage or consideration into their decisions or behavior.
- The sportsman judge judges only on the merits of the dogs and considers no other factors.
- The sportsman judge or exhibitor accepts constructive criticism.
- The sportsman exhibitor declines to enter or exhibit under a judge where it might reasonably appear that the judge's placements could be based on something other than the merits of the dogs.
- The sportsman exhibitor refuses to compromise the impartiality of a judge.
- The sportsman respects the AKC bylaws, rules, regulations and policies governing the sport of purebred dogs.
- Sportsmen find that vigorous competition and civility are not inconsistent and are able to appreciate the merit of their competition and the effort of competitors.
- Sportsmen welcome, encourage and support newcomers to the sport.
- Sportsmen will deal fairly with all those who trade with them.
- Sportsmen are willing to share honest and open appraisals of both the strengths and weaknesses of their breeding stock.
