## ASTRONOMICAL PROPERTIES OF THE DEATH OF THE LAMB

The purpose of this illustration is to show the Astronomical Positioning that happened during the time Jesus was on the Cross of Calvary. In fact it is the case that the actual Crucifixion Date was on Passover in April 14, 32 AD, what is unique to the other contested dates such as April 3, 33 AD is that there was a Planetary Alignment juxtaposed to the Cross. This is the case if one renders the Ecliptic to show all the Cardinal Points in the same illustrative frame. Many cite the fact that there was a Solar Eclipse at Noon and then a Lunar Eclipse Midnight. It occurred at the Ancient Altar of Libra. It was also a Blood Moon as in the case in Egypt where the 1st Passover commemoration started. However, a Solar Eclipse would be impossible to have happen both at the same day. Thus the Solar Eclipse was caused by another Celestial Body. Pertaining to the Passover Planetary Alignment, if one were standing at the foot of the Cross facing North as Jesus was facing South and looked up at the Sky, the following is what one would have witnessed. This scenario is assuming that from 12 noon to 3pm, the Total Darkness covering the whole Earth was due to this Eclipse.

### JERUSALEM Mt. Moriah

@ the Death of Jesus

This area is just north of the Damascus Gate and outside the Ancient City Walls of Jerusalem. The prior studies have established that there is a mathematical relationship that incorporates the phi ratio factor. This factor even delineates the degree of where and when the exact Crucifixion spot was situated and conversely where the Ark of the Covenant was hidden. This is according to the research of Ron Wyatt.

### A Menorah of Planets

This illustration suggests that in the Biblical context and definition of the Planets during the day of Jesu's Crucifixion, in all there were 7 Celestial Bodies present that made-up the Astronomical Storyline that accompanied and accented the Crucifixion of Jesus that day. Out of the 7 Celestial Bodies, 6 can be verified by the latest and amazing software models and the Ancient Peoples could have only dreamt about using. What took decades and even a life time of research can now be obtained within seconds or minutes at the click of a Mouse The 6 Celestial Bodies that fanned the Crucifixion Site from the East to the West that day were the following.

Planet	In Constellation
1. Uranus	Leo
2. Saturn	Cancer
3. Jupiter	Taurus
4. (Planet X)?	Aries
5. Sun	Aries
6. Venus	Cetus
7. Mercury	Pisces

Contrary to many historical and artistic renditions of the Crucifixion, the Crucifixion spot was between the Skull Façade that makes up the Pinnacle of Mount Moriah and the Garden Tomb. The Crucifixion spot was not atop the Skull Façade or just any arbitrary place but it was against the rampart that made-up pinnacle of Mount Moriah. Mathematically this spot approximates the phi ratio proportion of the distances that made-up the 3 points of the Crucifixion events and localities that day.

Based on some celestial evidence and patterns, Jesus was born on September 11, -3 BC. The second supposition is that Jesus was 33 years old but was crucified on Passover, April 14, 32 AD. Given this timeline, it would correspond precisely then how Jesus was 33 in the year 32 AD. Based on prior studies of the Crucifixion, it is established that Golgotha or the Place of the Skull that is adjacent to the Garden Tomb was where Jesus was crucified and the correct location.

## PROBABLE ASTRONOMICAL PROPERTIES OF THE ECLIPSE OF THE DRAGON

What is telling according to the Gospel accounts is that a Great Earthquake accompanied this Darkness over the entire Globe. It has been proven scientifically that at times, the Planetary Alignment of various Bodies do affect the Gravitational Forcefield of Earth and in turn triggers Earthquakes as pressure from the Tectonic Plates shifts as the Heating-Up of the earth's Core is also affected, etc. This study does agree with the work of Gil Broussard in that his models strongly suggest that a Heavenly Body 7 times the size of Jupiter eclipsed the Sun during the Crucifixion of Jesus, Planet X. Given the scenario that indeed the 3-Hour Darkness was attributed to the Solar Eclipse of the Sun by Nemesis, then the following can be conjectured based on the Angle and Alignment of the Planets as they were position on that day. For one, if the Earth was seen from a bird's eye view of the Solar System as being the Vertical Axis in Alignment with the Sun, then this means that the Nemesis Heavenly Body was in-between the Sun and the Earth. This would have and could only have produced the 3-Hour Solar Eclipse.

April 14, 32 AD

### PASSOVER

1. Blood Moon: Mid-Day
2. Blood Moon: Mid Night

Broussard proved Mathematically that the size of a Celestial Body would have exactly eclipsed the Sun for 3 hours. Thus, if this would have been the case, then there were indeed 7 Celestial Bodies spanning the sky from the East to the West having Planet X as the key and center Celestial Body in direct alignment vertically to the West of the Cross of Jesus. What this then further suggests pictorially is that such an array of Celestial Bodies composed a 'Celestial menorah' or sorts.

This is only to the degree that the Planets, the Constellations and the Stars could have been seen for the 3 Hours of Darkness and the Stars could have shown above the Stratosphere this Storyline. This illustration assumes that it would have been the case. This 'Celestial Menorah' would be in line with the theological understanding that as Planet X was the 'Center Stem', it snuffed-out the Light of the World as that is what Giant Red Dwarf Stars do, they absorb Light.

GARDEN TOMB GOLGOTHA

On Earth below, Jupiter corresponded to the one crucified between 2 males. As above, the Jupiter was juxtaposed between 2 male constellation in the heavens, that of Orion and Auriga. If the conjecture of the Planetary Array that day is valid, then the phenomenon of Planet X, the Red Dragon, Nemesis, etc., does exist.

### A COMING DARKNESS

Will such a time approach the reappearance of Nemesis and be the variable that will likewise cause the Darkness of the coming Kingdom of the Antichrist due the 6th Seal Judgment? Also, this means that Nemesis would have been somewhere in the Planetary Orbital Planes of Venus and Mercury. Based on current speculation and from mathematical models it is believed that Planet X, that is the Red Dragon is coming from the south in a clockwise direction.

### 7-HEADED RED DRAGON

It would also corroborate the many ancient recorded accounts of such a Celestial Body approaching Earth that caused worldwide catastrophes of varying degrees. They did depend on the degree to which the severity of the Flybys. The affect on Earth was then determined on the Angle, the place of the Mini-Solar System that interjected with the Planetary Planes due to its Debris Trail and on which side of the Sun the Earth was on. What is also interesting is that based on this angle, the Planet Jupiter is approximately 33 degrees from the Earth-Sun alignment.

ASTRONOMICAL PROPERTIES OF THE DEATH OF THE LAMB OF YHVH

What is rather interesting is that *Jupiter*, the *King Planet* happened to align on this day with Jesus on the Cross and the Temple Mount in direct alignment by the 3pm hour. It was at the exact time Jesus died. Based on the Gospel accounts, Jesus after having been up all night. After celebrating the Passover with His Disciples in the Upper Room, Jesus was arrested and tried 7 times during the night. If one was present at the 3pm hour when Jesus died on the Cross of Calvary towards the north of the Temple Mount and look directly towards the west just above the Temple proper as the afternoon sacrifices of the Passover Lambs were being slaughtered in the darkness of the solar eclipse, the following would have been depicted in the stars. The planetary alignment of Mercury, Venus, the Sun and Jupiter would have been at an exact vertical alignment. Moreover, the distance from Mercury to Venus and the Sun would approximate the phi ratio of distance between each other, which is amazing, the

The Constellations just showing above the Pinnacle of the Temple was Pisces that perhaps suggested the Age of the Fish to come that has encapsulated the Church Age. Next if one drew a line from the Holy of Holies to the Star Capella in Auriga, Pierced Shepherd and symmetrically juxtaposed it, the corresponding Star was Alnitak. This is the largest of the 3 Stars of the Belt of Orion and the Star that correspond to the Great Pyramid of Giza. It is a 'Clock'. Consequently, this angle is approximately 72 degrees which then echoes the degree of Precession of the Equinox and other Sacred Numerical Association with 'Hidden Knowledge'. What is very prominent is that the Sun is directly aligned at that hour Jesus died as the 'Lamb of YHVH' just to the Side of the North at very same hour.

This Crucifixion would liberate the 'Chained Woman', Andromeda and the Fish that were bound by the Beast the Sea Monster, Leviathan, aka Lucifer. Throughout the Church Age, the Bride of Christ has likewise been in a State of Humiliation of sorts as Believers in Jesus as the Christ still live in Mortal Bodes and a Fallen World. Will there be still such a Planetary Alignment that will correspond to the Rapture event where the 'Pisces' and the 'Andromedas' throughout the Church Age will be liberated of the Chains of Sin/World once and for all?

As to the Star Capella in Auriga the Shepherd, it means the 'Pierced One'. This Astronomical Depiction is seen as the Horn of Taurus does pierce the Heel of the Shepherd, Auriga. This speaks prophetically of the Eternal Struggle and battle of the 2 Seeds pitted against each other since in the Garden of Eden by YHVH. This disclosure to Mankind was in fact the 1st Biblical Prophecy given to Mankind, Genesis 3:15, a Proto-Evangelism or Gospel.

ASTRONOMICAL PROPERTIES OF THE STRUGGLE OF THE SEEDS

The purpose of this illustration is to show the Astronomical Alignments that happened during the time Jesus was on the Cross of Calvary. In fact it is the case that the actual Crucifixion date was on Passover in April 14, 32 AD, what is unique is that there was a Planetary Alignment juxtaposed to the Cross looking directly North in front of the site. This is the case if one looked just over the Mount Moriah at High-Noon when 3-Hour Solar Eclipse occurred. This is the instance when the whole Earth was covered by Darkness. The Astronomical Sign was of Draco with the Foot of Hercules at its Head, as if to 'crush' it. This depiction is reminiscent of the Genesis 3:15 contention between the Seed of the Woman, which was and is Jesus and the Seed of the Serpent, Lucifer ultimately through the agent and host of the coming AntiChrist.

The Crucifixion Rendition illustrated is based on the Archeological Research and work of Ryan Wyatt. This purported site is itself in phi ratio in terms of distance from the Garden Tomb and the Skull Façade.

Jesus is The Seed of the Woman That crushed the Head of the Serpent. But the Serpent, Lucifer at the Cross of Calvary stung the heel of Jesus. Ingeniously, Jesus foiled the 'Trap' set by Satan in that by the Power of Death, Jesus used Death to conquer Death.

According to Wyatt, the Term of Offense or 'Crime' of Jesus was also advertised on boards that were edged within the ledge of the pinnacle of Mount Moriah.

# CRUCIFIXION OF JESUS

## PROBABLE MATHEMATICAL PROPERTIES OF THE BLOOD ATONEMENT

The purpose of this illustration is to built upon the work of the late Ron Wyatt and his theory about the place and circumstances surrounding the Crucifixion of Jesus Christ. Specific to the Research or Ron Wyatt, this study suggests that if the stipulations are correct, then the following correlations are probable based on approximate mathematic measurements of distances primarily from the point of the supposed spot of the Crucifixion of Jesus Christ. According to Ron Wyatt's eye-witness account, he dug through to the Cave where the Ark of the Covenant was/is and the other Temple Furnishings were hid-away before the Babylonians came and led Judah to the Captivity or 2nd Diaspora. Astonishing, Wyatt surmised that the Crucifixion Spot was directly upon some 40 feet. Moreover, during the Earthquake recorded in the Gospels, the Rocks rent to create a Crevasse that let the Blood of Jesus flow down to the very Mercy Seat of the Ark. The Jews are looking for a coming Messiah Figure that will allow them to build the 3rd Temple in time of 'Peace'. After the Diaspora in Babylon for 70 Years, it took a Cyrus type of Man to Decree that Jerusalem be rebuilt. This facilitated later on the eventual contrition of the House of YHVH. There was actually a lull in the time that the return of the Exiles started to come back. The Walls were built 1st and eventually the 2nd Temple was then constructed. In the Last Days, will there be a repeat of this Prophetic-Historical Pattern. Since 1948, the Exiles from the Last Diaspora since 70 AD started to return to Israel and the Walls have been built up now. What remains is the construction of the 3rd Temple. Who will be this coming 'Cyrus Anointed' that will facilitated the decree? What could be 1 of the main catalysts do demand such a Temple? It will be after a War. Then 1 such variable and element would be the reveling of the Ark of the Covenant.

This study suggests that the very Crucifixion of Jesus Christ was also fashioned according to Mathematical distances to include a phi ratio factor that correlated approximately to how far the Ark of the Covenant was in approximate distance from the exact Crucifixion Spot. Throughout the Bible, both Old and New Testament there is a clear theological application of how Jesus or the Messiah is a type correlating to the many types and shadows of various elements presented. Most, if not all involve Mathematical Coefficients even.

One such element is the Ark of the Covent. For example in a brief Summation, the contents of the Ark had the Law Tablets, the Bread or Mana and the Staff of Aaron. They all speak of the broken Laws of YHVH that need Blood Atonement or that of a Covering. The Mana or Bread speaks of how Jesus said that He is the Bread of Life. And the Staff of Aaron that budded speaks that Jesus is not only the Branch or coming Messiah Reader but that He would be resurrected.

If the top of the Head of Jesus is the edge and the Feet of Jesus is one factor of the entire measurement, it is speculated based on the supposition of the Garden Tomb that the height of Jesus was about 5'11". What is also a contributing factor is that based on Wyatt's excavations, Jesus was apparently elevated on to a 4 foot Platform as to highlight the spot that was perhaps reserved for the most vile of Offenders and to be clearly seek of the city crowds just outside the Damascus Gate.

### HOLY OF HOLIES

### Tabernacle of Moses

This study suggests that like the very site of the Crucifixion to the supposed Cave where the Ark of the Covenant was hidden is in phi ratio proportion of distance. If one takes the Height of Jesus to have been 5'11" based on the modification of the Garden Tomb, and then the 4 feet elevated Crucifixion Spot, then one can approximate the distance Mathematically to conclude that indeed the Cave right below the Cross of Calvary where the Lamb of YHVH was sacrificed was approximate 40 Feet below.

40 feet  
 = 119 inches (9-11 code)  
 or  
 = 3.3 yards (33)  
 or  
 = 3.022 meters (322)

Did this event also record as a 'Mathematical Signature' of the Month and Day of Jesus' Birth of September 11, -3 BC (9-11) and the age He would die on April 14, 32 AD? And having also a 322 degree heading from the Dome of the Tables on the Temple Mount that many believe is the place where the Ark of the Covenant rested in the Holy of Holies?

What is astonishing is that if the distance that is implied is extrapolated and elevated to a possibly Prophetic Significance, it speaks volumes of recurring Sacred Biblical Numbers and echoes the approximate dimension of the Ark of Noah.

Ark of Covenant
