

**EVALUATION OF TEACHING STAFF****POLICY**

The Board recognizes that the teaching process is complex and that the evaluation process is a difficult and technical function. Teaching is the most important single element in the educational program, therefore evaluation should serve 3 purposes:

1. To raise the quality of instruction and educational services to the children of our community;
2. To aid the individual teacher to grow professionally, and
3. To raise the standards of the teaching staff as a whole.
