Weekly Tuition: \$405 for full day (9-6) & \$282 for half day (9-1).

Lunch and Snacks included. Morning Extended Care available.

GARDENING!

June 19 to 23

This week we'll learn about how we can care for our planet as we do our part in living green. Children will also be farming fruits, vegetables, and herbs and work on 3 different gardens. They will also explore and discover about plant growth, preparing foods and care for their own little baby plant.

FRIENDLY BUGS!

June 26 to 30

We will learn about some not-so-creepy crawlers that help our environment! We'll watch furry caterpillars transform into beautiful butterflies, release hundreds of lady bugs and baby praying mantis in our garden, and find some worms. Birdies will visit and make bird feeders.

FARM ANIMALS!

July 3 to 7 [closed 7/4]

Now it's time to learn about our pets and farm friends! We'll have a petting zoo visit with pets like guinea pigs, bunnies, ducks, a horse carriage ride and more! We'll follow with balloon animals and face painting! Your pets can come too! All children can come for petting zoo day Wednesday 10-12! **Bring your pet to school day* is Thursday.

CREATIVE ART!

July 10 to 14

Children are creative by nature. We'll explore and experiment with different media like clay and paper mache, painting, mosaic, collage, and non traditional materials! From large community projects to individual works of art the children will explore and express their ideas beautifully and have fun doing it!

Weekly Tuition: \$405 for full day (9-6) & \$282 for half day (9-1).

Lunch and Snacks included. Morning Extended Care available.

ALL ABOUT SPORTS!

July 17 to 21

We are going for the Gold on this week! We'll play many games with plenty of ways to get a medal! Gymnastics, track, sports, and a bouncy to practice our high jumps! We'll also learn about what our bodies need to stay healthy and strong! All children can come for bouncy day on Wednesday 10-12!

WATER WEEK!

July 24 to 28

As it gets hot we must get wet! We'll play with water all week in water pools, sprinklers and bubbles! We'll learn about properties of water and have a pretend beach day on our sandbox making sand castles and more. Swimming suits must be at the school all week.

JR. CHEFS

July 31 to August 4

This week we'll explore science in the kitchen! A yummy week of cooking activities! Food preparation in a safe environment will encourage discovery and creativity. Fruit, breads, cookies, salads, juices, sandwiches, and more! Family style meals to enjoy some of the goodies - what great fun!

CRAZY SCIENCE

August 7 to 11 [11 min. day]

We are crazy about science! This week your little ones will explore & experiment mixing different substances as they discover how they react and what happens after. They'll make volcanos explode, make squishy dough, and more messy and fun hands-on activities that will amaze and inspire your little scientists.
