Blue Medicare Supplement Important Information

Covering the Gaps Left by Original Medicare

Medicare covers many health care services and certain prescription drugs, but it doesn't pay for all of your costs, such as copayments, coinsurance and deductibles. These "coverage gaps" could leave you paying up to 20 percent of your health-related expenses. A Blue Medicare Supplement plan can give you additional coverage for Medicare deductibles and coinsurance for services like: Hospital stays, skilled nursing facilities, physician services, diagnostic tests, and medical and surgical services and supplies. You'll also be covered for Medicare-eligible costs not covered by Medicare.

Guaranteed Acceptance for Coverage

Enrollment is simple. You're eligible for Blue Medicare Supplement coverage if you:

- Are age 65 or older and eligible for Medicare (or under age 65 and eligible for Medicare by reason of disability – Plan A and Plan G available)
- Enroll within six months of enrolling in Medicare Part B
- Are not covered by certain Medicaid programs
- Are a North Carolina resident

Avoid Waiting Periods for Pre-Existing Conditions

If you enroll within 30 days following your 65th birthday, or if you have six months of continuous prior coverage, the six month waiting period for pre-existing conditions will be waived. Pre-existing conditions are conditions for which medical advice was given or treatment was recommended by or received from a physician within six months before the effective date of coverage. If you wait until after the deadline to enroll, you may have a waiting period for pre-existing conditions and may have to complete a medical questionnaire.

Note: Policy benefits are limited to those approved by Medicare for payment.

Notes:

- Blue Medicare Supplement rates are effective through May 31, 2022.
- This coverage is guaranteed renewable and may not be canceled or non-renewed for any reason other than failure to pay premiums or misstatements in or omissions of information from your application.
- These policies may not fully cover all your medical costs. These policies contain provisions that list benefits to those approved for payment by Medicare.

Medicare Basics

Original Medicare (Part A and Part B) is run by the federal government. The government pays doctors and hospitals directly for health care.

Part A Covers:

- Hospital care
- Skilled nursing facility care
- Hospice care
- Home health services

Part B Covers:

- Doctor visits
- Preventive services
- Ambulance services
- Physical and speech therapy

Part C (Medicare Advantage Plan) Provides:

- Part A benefits, including hospital visits, skilled nursing care and home health care
- Part B benefits, such as doctor visits, outpatient care, screenings and lab tests
- Prescription drug coverage (Part D coverage is included in most Medicare Advantage plans)

Part D (Prescription Drug Plan) Provides:

- Help paying for prescription drugs including both brand name and generic medications
- A list of the drugs (also called a formulary) covered under the plan
- A network of available pharmacies to choose from and mail order pharmacy services

Note: This information is not a complete description of benefits. Contact Blue Cross NC or your Authorized Agent for more information.

Compare Plans

We Want to Help You Choose the Blue Medicare Supplement Plan That Includes the Benefits Most Important to You

Attained-age plans should be compared to entry-age plans (also known as issue-age plans). Premiums for entry-age plans do not increase due to age.

Our rates increase due to age when you move from one age band to the next. Rates may also be adjusted for medical inflation or overall claims experience.

Any change in rates will be preceded by a 30 day notice and is guaranteed for 12 months. Rates are subject to change June 1 of each year, but members will not be singled out for premium increases based on their individual health.

This is only a summary of benefits. Please see the **Outline of Coverage** for more details.
