

Ground broken for Town Market

On June 3 College Street was the site for the ground breaking ceremony for the new French Lick Market. The new market will provide a plaza with kiosks and stalls for vendors in the downtown area.

Project Manager, Mike Hicks said, "We will be developing a retail experience that offers quality goods and products available to the local community and the resort guests, and we will be creating an economic benefit for local citizens wanting to begin a business."

An eight-sided gazebo will be centrally located providing an area to relax and watch interactions between vendors and visitors. Heating, air conditioning and water will be offered in some of the Market spaces.

The market site will also have additional parking available.

A community advisory council will monitor products and approve vendors for the market. Members of the council are Hicks, Wayne Ferguson, Susie Byerley, Bob Turner, Ian McSpadden and Michael McCullough.

Tim Leehe, President of the French Lick West Baden Chamber of Commerce to Hicks, "I congratulate you on another development. You are bringing redevelopment. It's been a pleasure working with you."

Marlene Noble of the French Lick Town Council sees the market as a positive addition to the downtown, and wished Mike & Debbie Hick complete success in their endeavors.

Local contractor Mark Lindsey of Lindsey's Construction said his crews are ready to get started on the market's construction. "We like to keep the guys busy and put food on the table for people."

Indiana Railway Museum Director Alan Barnett commented that he is anxious to see things happen in Springs Valley and feels that the French Lick Market will help bring people into the downtown.

"This is a community project," stated Hicks. "The only way to be successful is to have high-quality vendors. We have to have them to succeed. It's a critical factor. Everything is in place, we just need the vendors."

Holiday Closing Info	3

Proud of the progress being made on the Orange County Courthouse, Mark pauses for a quick picture in front of the historic building.

Skin Cancer: Got protection?

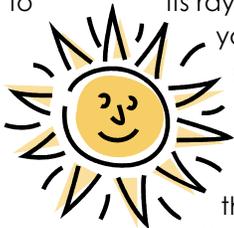

You wouldn't consider going out into a blizzard without a coat, right? So why go out in the sun without the right protection too?

Sure the sun feels good, but when you expose your unprotected skin to its rays you increase

your chance of getting skin cancer. Not convinced? According to the National

Institutes of Health, one in five Americans will develop skin cancer. That's right; skin cancer is the most common cancer in the United States.

The good news: it's easy to protect yourself from this potentially deadly disease. Check out the quick tips below for staying safe in the sun:

Wear Sunscreen - Apply sunscreen with an SPF of 15 or higher at least 30 minutes before you head outside.

Lather up - For good coverage, you need to use at least an ounce of sunscreen - about a shot glass full - and reapply every two hours.

Seek Shade - Try to avoid direct sun between 10 AM and 2 PM.

Suit up - Wear sunglasses, a hat and clothing made from tightly woven fabrics to avoid additional exposure.

While protecting your skin is important, recognizing and seeking treatment for skin cancer can save your life. Examine your skin regularly and look for the following early warning signs:

A - Asymmetry: common moles

are round while skin cancers are often asymmetrical

B - Border: skin cancers often have uneven borders

C - Color: watch for varied shades of brown, tan, black, red, white and blue

D - Diameter: if a spot is larger than a pencil eraser, it could be trouble.

No one wants to get skin cancer, and no one has to. Protect your skin. Look for early warning signs. Talk with your doctor if you suspect a problem. When it comes to the cost of health care and staying healthy, your choices can make a difference.

Get to know ... James Knies

- How long have you worked here? *8 months*
- What do you enjoy most about your job? *Making consistent money*
- Where were you born? *Gary, Indiana*
- Do you have any children? *One daughter Kaila, two*
- Favorite restaurant? *Red Lobster*
- Favorite TV show? *Deadliest Catch*
- Hobbies: *fishing & duck hunting*
- If I didn't work here, I'd be: *running a piece of equipment*
- A person in history you'd most like to have dinner with: *my grandfather*
- What are you most proud of? *My family*
- What is one thing most people don't know about you? *I grew up in Northern California.*

Project Updates

Legend of French Lick

I believe Dan is down to one trim board on the display case and a few additional toilet accessories to install once they come in. Hooray!

French Lick Town Green

It looks like steel will be delivered the week of July 14th. I anticipate erection taking 4 to 6 weeks. We should be back on the job & framing walls & pouring the 1st floor slabs in the first part of August.

Denny's Restaurant

We are pouring floor this week. After that we will just wait for the Town Green to get dried in.

Winger Home

Jeff is finishing up the rafters and hope to have roof sheathed next week 6/30 - 7/3. Windows and doors are on order. We will dry-in and let HPDI and the dry-wall hangers have it for a while.

Russellville Project

We have poured one step and one trench drain so far. We are waiting for them to make some more progress.

Lady Hawk's Locker Room

Todd Pritchett said he is pleased with the work. We should get lockers installed and flooring this week 6/23 - 6/27 and that will complete this little project.

W. Baden Shelter House-Doors

Terry ran into problems with the existing frames and we had to order new ones. They came in today 6/24 and we will be back on it tomorrow 6/25.

Orange County Courthouse

Work is almost done in the attic. The scaffold is built but we are working on the access to it. That should be done this week and will be okayed for use. Stairs have been replaced and walls extended in the courtroom. We still need to scaffold porch, courtroom & clock tower.

French Lick Town Market

Hib & Cletus are off to a good start and we poured the slab for the main building today. Hib is finding the same as on other projects - all materials are seeing significant increases.

Possible Future Projects

- Smithville Telephone Company
- Legends Restaurant

We will be closed on Friday, July 4th in observance of Independence Day. Please turn in your time sheets on Thursday morning, July 3rd before leaving for the job site. You will need to list your hours for Thursday (7/3) on the time sheet before turning it in.

Payroll checks should be available for pickup after lunch on Thursday, July 3rd.
