Hankinson Community Center buildings (above) as they looked nearly 100 years ago. Photo below shows how they look today after complete renovation and the addition of a new 5,000 square-foot state-of-the-art facility for meetings and events.

Hankinson is a city of 1,000 population just off I-29 (Exit 8) near Lake Elsie and near the Minnesota and South Dakota borders. Our community saw the need to save these three historic buildings and, with thousands of volunteer hours, hundreds of thousands in donations, grants and other funding, successfully completed a plan to renovate them and add a new structure to form a modern, beautiful facility that will be memorable for you and your guests. We have strived to have everything you need including a licensed fully-stocked kitchen (below and center right) that features stainless steel appliances and fixtures along with automatic dishwasher system, grill and plenty of counter space to serve your guests.

Our beautiful lobby area in the historic Hein building.

A state-of-the-art sound system carries music throughout the 4,500 square-foot main hall and into the smaller meeting room. Large, flat-panel monitors are located throughout the public areas for your enjoyment and convenience.

Guests are served in style at the beautifully crafted bar.

Watch the action in our lobby on the flat-panel monitors. View below shows handicap-accessible southwest entry, stage and bar areas, plus viewing screen and extra monitors.
