

NJTA Sponsor Showcase

This is a continuing series of articles intended to spotlight our sponsors by providing a brief bio or history and a short explanation of the products or services they offer. Please consider our club sponsors whenever you are planning the purchase of goods or services.

Moss Motors has been a long time sponsor of NJTA events, including the Vintage Triumph Register (VTR) National Convention in Princeton this summer.

If you've been enjoying British cars for any length of time, you undoubtedly know and have certainly done business with Moss Motors. Their "early days" go aback to 1948. It is however, not our fathers' Moss anymore. Moss Motors has grown beyond being a knowledgeable parts and accessories supplier. They have also become a resource for information and instruction, as well as being the provider of an interactive and unifying communication platform. Moss Motors is one of a handful of business organizations that, in my opinion, are in touch with the heart of the British car community here in the US today.

Moss presently has a dozen catalogs in print, several devoted to the Triumph marque: the Spitfire, TR2-4A, TR250/6, TR7/8, and the GT6.

And there is also *Moss Motoring*, an entertaining and informative magazine.

Started in 1983, it covers a broad range of topics in the following areas: Stories, Technical Articles and Info, History, Racing, Heroes, News and more. NJTA Club members Brian Ostrowsky and Lillian Blair have had articles published in *Moss Motoring* - "A Wedding Triumph" and "Thank You For Your Service" respectively.

On the Moss website, you will find many topics of interest, including but not limited to:

- Parts, Hardware, and Supplies for over 26 models of British Iron. And the not so British, but still well respected and popular, Mazda Miata;
- A search tool to help find the part you need;
- Catalogs to download;
- Videos to watch;
- Individual Car Specifications;
- Technical Tips including Discussions, Blogs, Forums and Photos;
- Apparel, accessories, and gift certificates;
- An events calendar, and;
- An opportunity to subscribe to their E-News as well the aforementioned Moss Motoring Magazine.

You can have a field day on the website.

Speaking of field days, Moss Motorfest 2017 is scheduled for June 3rd in Petersburg, Virginia. It also features, on June 2nd, a ceremonial induction of the inductees is NJTA notes on their website that Mr. Moss launched new models, and throughout much of the post-war period to Mr. Cook!

Speaking of field days, Moss Motorfest 2017 is scheduled for June 3rd in Petersburg, Virginia. It also features, on June 2nd, a ceremonial induction of the inductees is NJTA notes on their website that Mr. Moss launched new models, and throughout much of the post-war period to Mr. Cook!

If you're interested in a thorough account of the Moss story, a well documented history can be found on their website. And I have previously recommended Al Moss' autobiography, *The Other Moss: My Life with Cars and Horses*. Today, Moss Motors remains true to his original vision, to "...offer products designed to help enthusiasts enjoy their hobby".

It's still fun for me, how about you?

Contact Info
