

A plus combined Course Handicap side must be added to the gross score to determine the net score. (See Decision 9-4b/1.)

Example: On side A-B, Player A has a Course Handicap of 5 and Player B has a Course Handicap of 12. Side A-B's combined Course Handicap is 17. Side A-B will receive 9 strokes ( $17 \times 50\% = 8.5$ , rounded to 9).

**Stableford Competition: Allowance:** Players use full Course Handicap, and strokes are taken as they are allocated on the stroke allocation table.

Example: Player A has a Course Handicap of 16 in a Stableford competition based on net scores with par as the fixed score. Player A's gross score of 5 on a par 4 allocated as the 15th handicap-stroke hole results in a net score of 4 (par). Player A receives two points for the hole.

## STABLEFORD COMPETITION CHART

Hole Played In	Points
More than one over fixed score or no score returned	0
One over fixed score	1
Fixed Score	2
One under fixed score	3
Two under fixed score	4
Three under fixed score	5
Four under fixed score	6

## **Plus Handicaps**

When applying a percentage of Course Handicap to a plus handicap player, it brings that player closer to zero. This occurs in order to keep as close as possible the proper percentage of disparity in handicap. For example, playing at 100 percent of Course Handicap, the spread of two players, a +5 and 10 Course Handicap, is 15 strokes. In a competition where 80 percent of Course Handicap is utilized, the +5 becomes a +4 ( $+5 \times 80\% = 4$ ) and the 10 becomes an 8 ( $10 \times 80\% = 8$ ). The difference between their adjusted Course Handicap is 12, which is 80 percent of the original spread of 15 using 100 percent ( $15 \times 80\% = 12$ ).

## **Frequently Asked Questions and Answers on The USGA Handicap System**

**Q:** *Why do I have a Handicap Index and a Course Handicap?*

**A:** A Handicap Index represents the potential playing ability on a course of standard playing difficulty. A Course Handicap represents a whole number of strokes needed on a specific set of tees to play to that tee's USGA Course Rating. A player needs a Handicap Index to convert to a Course Handicap.

**Q:** *If I have a Course Handicap greater than 18, where do I get my 19th stroke?*

**A:** Each hole is assigned an allocated handicap stroke number, 1 through 18. In this situation, one stroke is assigned per hole, and two strokes are assigned on the number 1 allocated stroke hole.

**Q:** *If I pick up on a hole, what score do I post?*

**A:** Record the "most likely score" for handicap purposes. A most likely score is the number of strokes already taken plus,

in the player's best judgment, the number of strokes needed to complete the hole from that point more than half the time. Do not automatically post using the Equitable Stroke Control (ESC) maximum. ESC is applied after the round and is only used when the actual score or the most likely score exceeds the maximum number.

**Q:** *I lost a match 4 and 3, so I only completed 15 holes. Can I turn in an 18-hole score?*

**A:** Yes. For the holes that were not played, record a score of par plus any handicap strokes entitled to based on full Course Handicap. If the post-match holes were played, post the adjusted gross scores for holes 16-18.

**Q:** *If I have an injury or disability, can my Handicap Index be adjusted?*

**A:** Yes. A modified Handicap Index (M) can be provided by the player's Handicap Committee. Feel free to visit Section 8-4c(iii), Decision 8-4c/1, and 8-4c/2 of "The USGA Handicap System" for additional information.

**Q:** *What happens if I fail to post a score or post one in error?*

**A:** Post the score as soon as possible. The Handicap Committee can post a penalty score for any score not posted equal to the highest or lowest Handicap Differential in the player's scoring record. Regular absence of posting can result in adjustment or withdrawal of a Handicap Index.

The Handicap Committee at the golf club where a player maintains a Handicap Index can correct any score posted in error.

**Q:** If I haven't played in several years, may I start over with a new Handicap Index?

**A:** If the player's scoring record is available via the club's computation service then the player should use the last Handicap Index on resumption of play. If the existing scores do not accurately represent the player's current potential ability, the Handicap Committee may modify the player's Handicap Index under Section 8-4c. If the player's scoring record is unavailable then the player has no Handicap Index until five scores have been posted and a handicap revision takes place.

**Q:** What if I belong to two or more clubs; should I have the same Handicap Index?

**A:** All scores must be posted to all golf clubs. If the clubs use the same computation service, a player may register with the service as a multi-member and post scores at the club where the player has played. The handicap computation service will combine all acceptable scores into one scoring record.

If the clubs do not use the same computation service, the player has the responsibility of posting all scores to all clubs.

**Q:** Can I use an online service to establish a Handicap Index?

**A:** A Handicap Index is issued only through licensed golf clubs, and the online service would need to have a golf club established following all elements of the USGA Handicap System and like all golf clubs, it would have to be licensed by the USGA to issue a Handicap Index to its members. A golf club can obtain a license agreement directly from the USGA or through its membership in an authorized golf association that is already licensed by the USGA and that has jurisdiction in the geographic area that includes the principal location of the golf club.

**Q:** My golf course has a Slope Rating of 135. My friend's golf course has a Slope Rating of 120. Does this mean my golf course is more difficult than my friend's course?

**A:** Not necessarily. Keep in mind that Slope Rating is not a measure of absolute difficulty. One needs to know the other components (USGA Course Rating and Bogey Rating) including what type of player is in question — low, middle, or higher handicap player. The higher the Slope Rating means scores between the scratch and non-scratch golfers are spread out more.

**Q:** My next event states that I must have a Handicap Index from a licensed golf club. What does that mean?

**A:** Every golf club desiring to issue a Handicap Index must be licensed. A list of these clubs is displayed on the Authorized Golf Club Listing of the USGA website at [www.usga.org](http://www.usga.org). Many tournaments may make this a condition of the competition, to which players must comply with in order to compete — see Section 9-1.

**Q:** *Can I post a nine-hole score to my scoring record?*

**A:** Yes, a nine-hole score is acceptable for posting purposes and must be added to a players scoring record. When posting a nine-hole score, the player should be aware of the individual USGA Course Rating and Slope Rating for nine-holes. These Ratings must be used along with the adjusted gross score for the side played.

When two nine-hole scores are combined, the USGA Course Rating is the sum of each nine-hole USGA Course Rating and the Slope Rating is the average of the Slope Rating of the two nines (if the average is .5, it is rounded upward to the next whole number). Two nine-hole scores combined to create an 18-hole score should be designated with the letter C (e.g., 85C).

**Q:** *Can a round played alone be posted?*

**A:** No. See page 2, “Peer Review Defined,” and page 9 under “Unacceptable Scores.” Playing alone doesn’t meet the definition of peer review, which is a key component of the USGA Handicap System and having an opportunity to play golf with each other and support or dispute scores that are posted.

**Q:** *Where can I get more information on the USGA Handicap System?*

**A:** By contacting a local authorized golf association or visiting the USGA website at [www.usga.org](http://www.usga.org). It is available online to view at no charge. In addition, feel free to call the USGA Order Department at 1-888-920-USGA(8742) to order a copy of “The USGA Handicap System.”

**NOTE:** These Course Handicap Tables are charts for converting a Handicap Index to a Course Handicap based on the Slope Rating of the tees played.

Due to limited space, the Handicap Index is capped at +3.5 and the Slope Rating range is 100-155.

To calculate a Course Handicap for a Slope Rating lower than 100, or for a Handicap Index lower than +3.5, please refer to the formula in the section "Course Handicap Explained."
