

Hi Lo Platform

- The Hi platform sits above the eave to allow a consistent step height when transitioning to the roof stairs.
- The Lo platform sits below the eave to provide standing access at the inspection portal
- You can exchange your ES3544(42) for 1 qty ES7444(42) and 1 qty ES8544(42) to set your platform ~4" below the eave on 44" or 42" bin sheets
- On 32, 39, 45 inch rings you can use a platform and standard stair section on the top ring to have a high platform above the eave.
- Formed top and intermediate rail on the platform with 1" Tube Handrail on the transition stairs
- If utilizing a sidewall deck, the Hi Lo platform makes an easy transition from the roof stairs to the sidewall deck
- To be used on bins 36' in diameter or larger

Easy Step Hi Lo Platform
