

Plazbox

Plazbox Features:

1. It is Patented.
2. It replaces 42 sheet metal boxes.
3. It gives you the option of entering the box on all five sides.
4. It is virtually indestructible.
5. It is designed to stack on top of each other to save you warehouse space.
6. It is a seamless airtight product (NO sheet metal product is).
7. It accepts 4" ducts through 8" ducts (NO sheet metal product does).
8. It cuts inventory space by more than 75%.
9. It increases inventory without costs.
10. Its different size adaptors snap on with ease.
11. It is designed to be used insulated or uninsulated.
12. It was designed to give the Wholesalers a product that would replace every register box through 8" duct, without the cost of inventorying 42 sheet metal boxes.
13. It always gives the Wholesaler a box to fill the order.
14. It is designed to be used in new and existing construction where it can be used in 12" to 24" O.C. framing.
15. It is also designed to fit in between floor joist, or 2" X 10" lumber.
16. It was also designed to be used in light commercial applications. The box will fit in between the 2' X 2' drop ceiling tile, or the 2' X 4' ceiling tile.
17. After using this product you will find that there are many more features and advantages that will save you time and money.

One Plazbox with adaptors will replace all 42 of the following boxes:

Plazbox WYE Adaptor Plate

WYE Adaptor Plate Features:

1. One Plazbox with WYE Adaptor Plate replaces over sixty sheet metal wyes.
2. Cuts inventory of wyes by more than 80%.
3. Increases inventory without cost.
4. Virtually indestructible.
5. It is insulated or uninsulated.

6. The only tool needed is a utility knife or even a pocket knife.
7. It is designed for the Contractor to make the exact application needed in the field.
8. It is designed for the Contractor to only inventory one wye and one box for all his ductwork needs through 10" ductwork.
9. It is designed to save the Contractor time and money on installation.
10. This wye adaptor was designed to give the Wholesaler and the Contractor the opportunity to cut inventory by more than 80%.
11. It gives the Wholesaler a product to sell that he would not normally stock.
12. It gives the Contractor a product that he can use in almost every application, without the cost of inventorying all the different products needed to do the job.

One Plazbox with WYE Adaptor plate replaces the following sheet metal wyes, triangles, and tees.

SHEET METAL WYES

4X4X4	7X7X4	8X7X6	9X8X6
