

REFRIGERATION SPECIALTIES CONTROL VALVES

BACK PRESSURE REGULATORS (A4A)

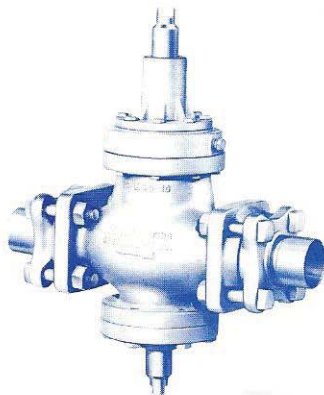

VARIOUS CONFIGURATIONS OF A4A ADAPTAMODE'S ARE SHOWN BELOW.

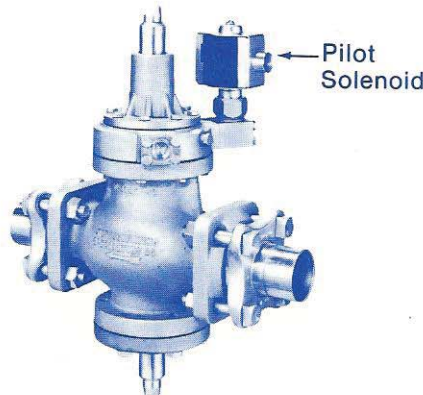

3/4" AND 1" A4A (2-BOLT FLANGES) W/2 MODULES

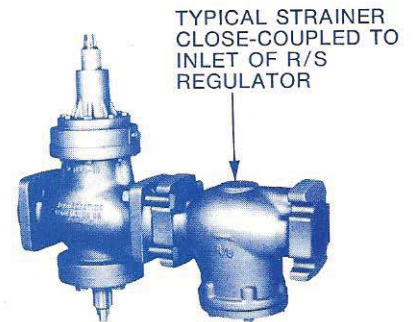

3/4" AND 1" A4A (2-BOLT FLANGES) W/2 MODULES AND STRAINER

1-1/4" THRU 4" A4A (4-BOLT FLANGES)

1-1/4" THRU 4" A4A W/MODULES (4-BOLT FLANGES)

1-1/4" THRU 4" A4A W/STRAINER (4-BOLT FLANGES)

STRAINERS ARE OFTEN USED WITH A4A'S AND ARE USUALLY CLOSE COUPLED AS SHOWN ABOVE. IF POSSIBLE, MEASURE THE DISTANCE FROM C/L OF VALVE TO C/L OF STRAINER: THIS IS THE MOST RELIABLE METHOD OF DETERMINING VALVE SIZE.
