1986, Broome
Community College,
Binghamton, New York

Gregory E. Hayes, P.E., CPD

Vice President

Chief Plumbing & Fire Protection Engineer

Professional Experience

As a Mechanical Engineer and Department Head of the Plumbing and Fire Protection Division Greg is able to see projects from more than one vantage point. This allows for a more thorough, coordinated project. Greg has worked on existing building renovations and new building designs, including computer facilities, assisted care facilities, multi-family residential buildings, office tenants, museums, laboratory facilities, restaurants, retail, and recreation projects.

Greg strives to produce error free, timely service to our growing client base. Greg is an expert in utilizing our computer resources including AutoCAD to most efficiently and effectively produce projects. Greg also understands that the future success of Summit depends on maintaining our position on the leading edge of technology and the automation of many typical engineering tasks.

AREAS OF PROFESSIONAL COMPETENCE

Mechanical Engineering Design

Project Management

Energy Analysis

Laboratory Design

Tenant HVAC Design

Fire Protection Design

Plumbing Engineering Design
