DESCRIPTION: Beautiful high-end Wing target bow in excellent near-mint condition. I won an indoor state championship with this bow 15 years ago. Phenolic and Bubinga riser. Bow has no delamination; no cracks; limbs are straight. The limbs are a uniform color but look a bit different in some of the pictures (a camera-lighting thing) - a bit of traditional yellowing of the limbs. Overlays and tips are in great condition. No drilled holes; No chips, dings or cracks. No crazing or stress cracks; a few light/faint stress lines on the phenolic grip (see last pic) . A few minor scratches and nicks here and there. Decals are in excellent condition. Comes ready to shoot with string, nocking points, tip protector, and line-new (old stock) Hoyt Pro-Rest (Hoyt doesn't make any like this now days, and when you can find a like-new one the cost is around \$40). This bow is a great shooter, as well as a magnificent show piece.
