## 3. Member Shows

*Show managers are advised to submit their show applications and pay nomination/recognition fees of \$40 per show as early as possible to secure show dates and to benefit from publication of dates on MI-SHO's website, [www.midilsporthorse.org](http://www.midilsporthorse.org)*

- Under no circumstances will a show be granted MI-SHO recognition after the competition has been held.
- When more than one show is held in a competition year by the same show management under the same name, each show is considered a separate entity.
- To reserve a show date from the previous year, a show's management must register the show with the MI-SHO show secretary by **February 15** of the new competition year.
- The manager of any horse show for which MI-SHO affiliation is desired, must register the show with the MI-SHO show secretary and pay the necessary registration fee.
- A horse show's prize list must state that the show is recognized by MI-SHO. If this

information is not included in the prize list, MI-SHO will not award points to the show's exhibitors.

- Printed or electronic show results must be received by, or online results made available to the MI-SHO point secretary, within **14 days** of the completion of the competition.
- Results should include class numbers and name/description, count of competitors per class, horse's name, rider's name and age, if available, and class placings.

#### **4. Conduct of Member Shows**

  - Recognition benefits will include a database mailing to all of our members to notify them of the show, listing on the MI-SHO web site and Facebook page \*Membership roster/contact information will be provided to the show organizers upon request.
- **Eventing/Combined Test-Derby competitions** will not themselves be recognized and are exempt from paying show fees for 2019. However, individual member participation in USEA recognized Horse Trials/3-Day Events and MI-SHO approved mini-event/combined test/derby competitions will be recognized. As such, it is the individual member's responsibility to notify the show secretary of their participation and their individual placing results.
  - All USEA recognized Horse Trials/3-Day Events are recognized by MI-SHO.
  - All MI-SHO approved mini-event/combined test/derby competitions will be listed on the MI-SHO website.
- **THE ONLY DOUBLE POINT SHOW WILL BE HELD BY THE MI-SHO ORGANIZATION**
- Request to hold a MI-SHO recognized show should be received by the MI-SHO secretary 60 days prior to the day of the show. Any exceptions must be approved by the board. Under no circumstances will shows be granted recognition after the competition has been held.

- Two horse shows occurring on the same day(s) may not both be recognized by MI-SHO unless they are at least 50 miles apart. At the discretion of the MI-SHO board, two shows may occur on the same day if the two shows involved offer different classes, such as a dressage show and a hunter show. In case of conflict, the show whose application and payment is received first by the MI-SHO secretary will be given priority. If both shows' applications and payments are received by the MI-SHO secretary at the same time, the show which has used the date previously will be given priority.
- Competitions may have "local" or "closed" classes. These classes are designated by the show management to be open only to horses/students of the facility. These classes will not receive MI-SHO Points. Similarly, competitions may have breed specific classes; however, these classes will not receive MI-SHO Points.
- Show management may reserve the right of declining to receive an entry and to return any fee before the opening of the competition. They shall have the right, without being liable for compensation or damages, to prohibit any person from attending or showing a horse in the ring.
- Show management may reserve the right to cancel any of the classes which do not fill or to divide or combine any class or classes should the best interests of the show require it. The judge may hold preliminary trials in order to reduce the number of riders for final competition.
- Adequate warm-up areas must be provided with a minimum of 2 warm-up fences for the hunter/jumpers. Warm up jumps must include ground poles.

*Shows offering O/F classes that are above the max height recommended for the division will not have those classes recognized by MI-SHO for the End of Year Awards.*

## **6. Course Requirements**

As laid out in further detail below, certain requirements are necessities when building and competing over a Hunter, Jumper, or Equitation course. MI-SHO expects show management to comply with these and USEF rules during accredited MI-SHO competitions.

**MI-SHO reserves the right to refuse to recognize a competition that fails to abide by proper course and show requirements. MI-SHO follows all USEF rules and defers to the USEF rulebook for any specific rules not laid out here.**

## **GENERAL INFORMATION REGARDING JUMPING COURSES/STRIDING IN A COURSE**

For all disciplines, related distances on a course (i.e. lines, bending lines, combinations, etc.) must be measured accurately for the average stride of a horse.

The average stride of a horse is **12 feet long**; **6 feet** must be accounted for **both** landing and take-off (an additional 12 feet total).

For example, if a course designer wants to set a 4-stride line it would be calculated as follows:

4 strides x 12 feet = 48 feet apart

Add 6 ft for landing and 6 ft for take-off for a total of: 60 feet apart

Thus, a 4-stride line must be set at 60 feet apart

### **Here is a list of measurements for popular related distances:**

1 stride: 24 feet apart

2 stride: 36 feet apart

4 stride: 60 feet apart

5 stride: 72 feet apart

6 stride: 84 feet apart

One can properly set these distances by “walking out” the line.

Become comfortable with what it takes for you to cover 3 feet with one step.

Typically, to count out one stride, a person will take four 3-foot steps.

Taking our 4-stride line example then, one would walk out “5 sets” of 12 feet

An easy way to do this, is to put out 1 finger when you hit your first set of 4 steps, then another finger out for your next set of 4, all the way up until you hit 5 extended fingers.

Additionally, ground poles must be in place in front of all jumps.

## **JUMPERS**

On the USEF website, all rules re: Jumpers and Jumper classes can be found in chapter “JP Jumper Division.”

<https://www.usef.org/compete/resources-forms/rules-regulations/rulebook>

If looking for a particular topic/issue, Subcategories Include:

Jp-1: General

JP-2: Eligibility

JP-3: Section Specifications

JP-4: Levels of Difficulty

- JP-5: Course Requirements
- JP-6: Scoring
- JP-7: Jumping Faults and Scoring Tables

Important Pull-Out Points from JP-5 Course Requirements

**JP124 JUMPER COURSES**

There must be at least one change of direction in every course including jump offs.

**JP 125 SPREAD OBSTACLES**

MI-SHO recommends that all courses have at least three spread obstacles. Spread jumps must exceed the height by a minimum of 2” and a maximum of 6”

**JP131 SPEED, TIME ALLOWED, TIME LIMIT, and OPTIMUM TIME**

The Time Allowed is based on a minimum speed of 325 meters per minutes (360 yards per minute). The Time Allowed must be announced and posted prior to the start of the class.

Time Limit: The Time Limit is defined as double the Time Allowed. Going over the Time Limit results in elimination.

Optimum Time: For classes scored under Table IV, the optimum time is defined as 4 second less than the Time Allowed.

Faults/Eliminations:

Under JP-7, JP 144, a handy table of jumping faults is available. This table proves useful for judges and competitors to understand how their round was scored or why their round resulted in an elimination. [See pg. 959 of Jumper Division Chapter in USEF Rulebook]

Variations of Jumper Classes:

Full information on the various types of jumper rounds is provided in JP-7 Jumping Faults and Scoring Tables. Particularly, look specifically at JP 145-148 within subchapter 7 for jumper classes most suited for MI-SHO rated competitions.

- JP145: Table II – Classes Scored on Faults and Time
- JP146: Table II – Classes Scored on Faults Only
- JP 147: Table III – Faults Converted into Seconds
- JP148: Table IV – Optimum Time Classes

As a useful reference, here is a short form overview of the most common jumper classes.

**TABLE A [Table II, Sec. 2(a) and (b)]**

These classes are typically the most common and are run over two rounds. In the first round, only consider going clear without going over the time allowed. All horses tied for first place after round one (zero-faulters in most cases) go on to the shortened jump-off course, or round two. The jump-off course can either be immediately after course one for a rider (Table II, Sec. 2(b)) or delayed, to be run after all riders complete round one (Table II, Sec. 2(a)). The goal of the jump-off is to keep all rails up while going as fast as you can. Horses are placed

by faults first, then time.

**\*\*A horse, however fast, cannot beat a horse that jumps clear\*\***

Each rail down, or a refusal, is 4 faults. Faults are also awarded for going over the time allowed (one fault for each second or portion thereof, over the time allowed).

**TABLE A [Table II, Sec. 1]**

No jump-off occurs in a Table 11, Sec. 1 class. Instead, the time from the first round determines the placings. This is why often, this type of class is called a “speed round.” Thus, the strategy in this type of class is to go as quickly as you can with no faults from the start.

**POWER AND SPEED [Table II, Sec. 2(c)]**

This variation of jumper class is run over a single class, with the jump-off incorporated into the second half of the round. Typically, these classes have more jumping efforts than either Table II, Sec. 2(a) or (b) or Table II, Sec. 1 – usually around 14 efforts. This is because the “first round” of a power and speed class consists of the first 7-8 jumps, with the “second round” being the latter half of the course. Every horse competes over the first round, but only those who have not accumulated any faults in the first half go on to finish the second part of the course, or “jump off.” All in all, it is essentially a jump-off class where the jump-off is completed without stopping.

A rider knows they have made it to the second round, if, after the last fence of the first half is jumped, no bell or whistle sounds. If the judge does sound the bell or whistle, the horse must stop and exit the ring. The bell or whistle indicates faults were picked up in the first half.

**TABLE C [Table III]**

The main distinction of Table III classes and the others is that faults are converted to time. This gives a horse with a rail the opportunity to still beat a horse with a clear round. Each class is run over one course. For each rail down, instead of 4 faults, 4 seconds are added to the time. The horse with the fastest time wins.

**HUNTERS**

On the USEF website, all rules re: Hunters and Hunter classes found in chapter “HU Hunter Division.”

<https://www.usef.org/compete/resources-forms/rules-regulations/rulebook>

If looking for a particular topic/issue, Subcategories most applicable to MI-SHO Include:

- HU-1: Definitions and Eligibility
- HU-2: Division of Sections or Classes
- HU-3: Courses
- HU-4: Attire, Tack, and Equipment
- HU-5: Judging
- HU-6: Class Specifications

## HU-8: Conduct

### Important Pull-Out Points from HU-3 Courses

#### **HU120 GENERAL**

All jumping obstacles must be set at the required height for the class. The “required height” may have a variance of no more than 2’ over or under. Exceptions:

- Trot fences may not exceed 3’ in height and spread for horses and 2’ in height for ponies in classes restricted to ponies;
- The first fences of any hunter course – meaning, in practice, the first fence may be smaller

USEF rules dictate and MI-SHO encourages, that horses show over a minimum of 8 fences set to required height. **MI-SHO requires at least one change of direction (change of lead) in every course.**

**EXCEPTIONS:** Cross rail hunter divisions and Short Stirrup hunter divisions may opt to include courses with zero changes of direction at the discretion of show management. If changes of direction are included in any Cross rail or Short Stirrup hunter class, simple lead changes shall not be punished.

NO course may have exhibitors trotting or cantering through the in-gate or out-gate; any exhibitor choosing to do so will be eliminated.

Crossing a track between obstacles shall constitute a disobedience and will be penalized by judges – UNLESS the course diagram so calls for it.

#### **HU123 TYPE**

A minimum 2” difference is required for the back element of an obstacle (oxer). A ground line is required for all obstacles.

#### **HU124 IN AND OUTS**

An in and out (two jumps set for one or two strides) is considered as two obstacles in the required number of obstacles. It must NEVER be used at the start of a course

### Important Pull-Out Points from HU-4 ATTIRE, TACK, AND EQUIPMENT

#### **HU126 TACK**

Martingales are prohibited in any under saddle class.

Snaffles, pelhams, and full bridles, all with cavesson nose bands are required.

\*\*Judges are allowed to penalize for unconventional snaffles, pelhams, or full bridles including, but not limited to, hunter gags and kimberwicks

#### **HU127 EQUIPMENT**

All artificial appliances, including but not limited to, boots, wraps, and bandages are prohibited.

## **EQUITATION**

On the USEF website, all rules re: Equitation and Equitation classes found in chapter “EQ Equitation Division.”

<https://www.usef.org/compete/resources-forms/rules-regulations/rulebook>

If looking for a particular topic/issue, Subcategories most applicable to MI-SHO Include:

EQ-1: Regulations for All Seats

EQ-2: Hunter/Jumping Seat Equitation Section

### **Important Pull-Out Points from EQ-2 HUNTER/JUMPING SEAT EQUITATION SECTION**

#### **EQ107 CLASS ROUTINE**

The performance/judging begins when the horse enters the ring.

Competitors are allowed to circle once before approaching the first obstacle

The following constitute faults at the judge’s discretion:

- Loss of stirrups
- Loss of reins

Elimination results from the following:

- Fall or hose/rider
- Three cumulative refusals
- Off course
- Trotting or cantering through in or out gate

Flat Classes: Martingales not allowed on the flat for any class unless class specifications specifically allow for their use

Riders must proceed at least once around the ring at each gait and, on command, reverse and repeat.

#### **EQ 108 COURSE REQUIREMENTS**

USEF requires and MI-SHO encourages all equitation over fences classes to contain at least 6 obstacles

Verticals can be jumped in either direction provided ground lines are correct

For classes where participants are 13 years of age and older, USEF requires and MI-SHO encourages the course to include at least 2 changes of direction and the addition of at least three of the following:

- Bending line
- Narrow jump (5'6"-8')
- Roll back turn
- Fence at the end of the ring
- Long approach to a single jump

**EXCEPTIONS:** Cross rail equitation divisions may opt to include courses with zero changes of direction at the discretion of show management. If changes of direction are included in any Cross rail equitation class, simple lead changes shall not be punished.

## 7. Judges

*Please refer to USEF GR 1304 for full judging rules.*

- A judge may not adjudicate at any competition in which a member of his or her family, a client of the judge, or any of the judge's horses, is competing.

- No exhibitor may show before a judge who boards, rides, or trains (for horse showing purposes) any horse under the exhibitor's ownership, or lease, in the two months preceding the competition.
- MI-SHO recommends that a judge not adjudicate at more than one (1) member show within a radius of 100 miles within a 60-day period.

### **Instruction for Judges:**

## 12. RECOGNIZED EOY DIVISIONS

**Hunter Divisions.** USEF rules and class specifications are followed at all MI-SHO competitions except as noted below. If a show offers more than one division under the same name (i.e. beginner cross rail and open cross rail), the highest total points earned from only one division will count for EOY awards. Breed specific divisions will not count toward EOY awards.

*Note: No equitation classes will count towards these EOY Awards. Competitors must attempt/complete the course in at least one class over fences in a division to be eligible to earn points in the under saddle classes.*

- **Newcomer Walk/Trot Rider** is open to any child or amateur adult in their first or second year of showing regardless of the horse being ridden. This is a walk/trot only division; no rider may cross-enter into any canter divisions at the same show (excluding dressage classes). *Exception: Equitation classes will count towards this EOY award. Rider does not need to compete over fences to qualify for this EOY award.*  
Fence Height: trot a pole and/or cross rail not to exceed 2' at the highest point.
- **Cross Rails** is horse or pony ridden by a child or an **amateur** adult. This is a canter division; however, no penalty will be assessed for trotting the over fence classes provided a separate "Cross Rails Trot- only" division is not offered at the same show. When a show host offers two separate divisions for Cross Rails that specify a Trot-Only Division and a Canter Division, riders may cross enter in each of these divisions but will be required to canter in the Cross Rails Canter Division. No mount/rider combination may cross enter into divisions over 2' at the same show for point consideration in either Cross Rails, (Trot or Canter), and the division

ridden with fences over 2'. Riders may cross enter into cross rails but must compete "NOT TO BE JUDGED" and will not accrue points in the Cross Rails Division when showing in divisions at fence height higher than 2' at the same show. Trot only cross rail divisions will not count toward this EOY award.

Fence Height: 18" to 2'

- **Short Stirrup Hunter** is a horse or pony of any age or show experience ridden by a **child/junior** who has not reached their 11<sup>th</sup> birthday by December 1<sup>st</sup> of the current show year. Ribbons won in Short Stirrup do not affect the rider's status for this division. Beginner Riders must declare their eligibility at the beginning of the show year. Riders may cross enter 2'6" classes but may not show as a Beginner Rider after competing in any over fences class in which fence height is above 2'6".  
Fence height: 2'
- **Master Rider Hunter** is open to any horse or pony ridden by an **amateur** adult exhibitor who has reached his or her 50<sup>th</sup> birthday before December 1<sup>st</sup> of the current show year. Riders may not cross- enter any division with fences higher than 2' at the same show. **IF** no Master division is offered at a show, points can be earned from placing in any 2' division (or 2'3" division if not eligible to compete in the 2' classes). You can only earn points from one division per show towards the Masters EOY awards. Points will not count towards two EOY divisions (i.e. Beginner and Master) at one show. The rider is responsible for contacting the Point Secretary to identify which division they want their points to count toward.  
Fence height: 2'
- **Baby Green Hunter** is open to any horse or pony in its first or second year of showing over fences at any recognized show including local, rated, and open shows before December 1 of the current show year.

Limit riders must declare their eligibility at the beginning of the show year. Riders may cross enter 2'6" classes in the same show but may not show in Limit classes after competing in classes 3' or higher.  
Fence Height: 2'6"
- **Amateur Adult Hunter** is any horse or pony ridden by an **amateur** adult competitor. The same rider/horse (pony) may not compete at the same show in any class (equitation excepted) in which the fence height exceeds 3'3".
