*Being an award-winning soloist and team competitor and having run a record-setting twirling program that is one of the very few left in NJ Public Schools, I am very eager to share the beautiful sport of baton twirling with our youth. Aside from the accolades, my most important and cherished accomplishments are having **built confidence** in my students and having **given ALL of them moments to shine** in ways that fit their abilities and in ways they never thought they would!*

### Class Description:

Students will receive an hour of customized instruction from award-winning teachers that are geared towards individual needs and skill sets. Baton sequences will be taught in combination with series of dance steps & synchronized movements.

### Baton Use & Purchase:

There is a limited supply of loaner batons that may be used during class and these will be assigned in order of request. Once they are accounted for, I will order a baton for your purchase for \$24.00 which includes my coach discount. Everyone may take advantage of this one-time purchase of a baton to own *especially* if your child plans to continue learning how to twirl.
