

# ATTENTION

Please note that we have a water treatment system here at Windemere Shores. This means **NOTHING** (Even if it states that it is flushable) can be flushed except toilet paper.

## **THIS MEANS NO:**

- Kleenex
- Feminine hygiene products
- Paper towels
- Baby and adult wipes (Not even flushable ones)
- Toys (Please watch your little ones)

Unfortunately, we have had **SERIOUS PROBLEMS** with all the above.

If any drainage pipe is clogged, it will back up in the unit and make huge mess.

It will cost thousands of dollars for both the owner and the association.

For your information, if the drainage pipe clogged and caused back up in the unit,

The cost for the owner will be about **\$9000.00** and the cost for the association about **\$8000.00**

Your cooperation is **CRITICAL** to our system to work properly and avoid un necessary high expenses , delays and headaches for every one.

Thank you
