

THE GREAT AMERICAN ECLIPSE

The Great American Total Solar Eclipse darkens the skies all the way from Oregon to South Carolina on August 23, 2017. The expanse of the shadow along a stretch of land is about 70 miles wide. The eclipse has a magnitude of 1.0306 and is visible along the narrow corridor through the heartland of the United States as if it is 'dividing' it in half. The Longest Duration of 'Totality' will be 2 minutes 41.6 seconds at the map coordinates of 37°35'0"N 89°7'0"W. This point is in the Shawnee National Forest just south of Carbondale, Illinois. The Greatest Extent or Maximum is at the map coordinates of 36°58'0"N 87°40'18"W. This point is near Cerulean, Kentucky between Hopkinsville and Princeton, Kentucky. Interestingly, out of all the major metropolitan cities, Nashville will be the one where people will be able to see the eclipse the longest. In a prior study entitled, *The United States of ISIS*, the study suggested that the total solar eclipse of August 21, 2017 relates in some way to the replica *Temple of Ephesus* and the powers that the goddess it houses represents. In the ancient world, Ephesus was where the 1st Church of the book of Revelation wherein a resurrected Jesus addressed its condition, spiritually and prescribes a remedy for the prognoses.

However, the August 2017 event is the first one whose totality path lies completely within the United States since 1776, the founding of the American Republic; some 241 years or at the eve of the 242nd year. The starting point is on the waterfront at Government Point, Oregon, at 10:15:56.5 a.m. PDT.

The center line's last contact with the U.S. occurs at the Atlantic Ocean's edge just southeast of Key Bay, South Carolina. The center line of the solar eclipse crosses through 10 states. If one does a study of the Biblical significance of this possible numerical inference, the number 10 occurs 242 times.

The number 10 has connotation of a sacrifice as the Passover Lamb was selected for slaughter on the 10th day of Nisan. The 10th day of the 7th month in the Jewish calendar is Yom Kippur. Lastly, the 10 generation since Adam was Noah and perhaps such an association could see the 'World Order' transference on such a year. Many Bible prophecy student as if whether the USA is in the Last Days.

Could this 1776 benchmark and Biblical meaning have a possible inferred that with the dividing of the USA, it will have been completed and the 'Order', that of the New World Order is to subsequently begin as a result? Why a 'division' would possibly be signified by such an eclipse? Many are convinced that the Luciferian axiom of 'Divide and Conquer' of America occurred specifically with 9-11. Another possible implication could be how subsequently the Luciferians that rule and run the USA used the national-politique to attempt to divide Israel. It is rather ominous that the total solar eclipse that has not occurred 'sea to shining' sea since 1776 is accented in the constellation of Leo.

Those that study a measure of astronomy and Biblical prophecy will early-on realize that Leo specifically pertains the Redeemer, the Conquering Lion of the Tribe of Judah. Leo is the type of Christ that was promised, came and will again. It is also the end of the Mazzaroth or Zodiac as Virgo is the commencement of it.

Moreover, the Leo constellation has the Royal Star of the known Cosmos, that of Regulus which conjoins the total solar eclipse at this time. It is also exactly 1 month away from the astronomical alignment of the *Great Sign of Virgo* of the book of Revelation 12.

THE TOTAL SOLAR ECLIPSE is in actuality an Astrological Cross eclipse alignment

The next total solar eclipse over the continental U.S. occurs on April 8, 2024. What is unique about this subsequent one is that it will mark an 'X' in the 'heart' of the USA. Oddly enough in once recognized the occult numerology, the duration of totality lasts at least 3 minutes and 22 seconds on the east coast of Maine.

Summer Solstice

This is the infamous 322 *Skull and Bones* Secret Society brand. It will also stretch to 4 minutes and 27 seconds in southwestern Texas. The August 23, 2017 marks the first time in 99 years that such an eclipse occurs of this nature.

The *New Moon* that will cause the total solar eclipse will be a *Black Moon*. These *Black Moons* are a rarer and occur about once every 33 months. In certain forms of Pagan religions such believe that certain actions become more potent when performed on the night of a *Black Moon*.

The number 10 according to BibleStudy.org, signifies testimony, law, responsibility and the completeness of order. Ten therefore represents man's responsibility to keep the commandments of YHVH, which the USA as a divided nation has not at this stage of its final 'division'.
