

SPANISH RED ROSE

How many times have you used “Iceberg” rose in a landscape... that reliable splash of white flowers, almost year-round? What if there was a RED rose like that? Bold red, luxurious foliage, same height and size- doesn’t even get the mildew on leaves that “Iceberg” can get. From ocean’s edge, to harsh inland valleys, and even the cold of mountain climates, it’s PERFECT! (hint)... run a drift of Spanish Red Rose next to, or near-by, “Iceberg”- for a real COLOR POP!

WwB (WHAT WOULD BE)... A GOOD PLANT RECOMMENDATION?

Rose, Spanish Red with Iceberg. Parking lot transformation.
