Member Comments:	Share on Band of Neighbors:	I found this provider on Angie's List, made the call on Thursday and he was there Saturday afternoon to provide the service. He called when he was on his way, did the digging to get to the septic (I knew where it was located, but he did the digging) and pumped the system. Service was quick, no problems. I plan on calling again in a few years when my next cleaning is due.		Professionalism	A

Description Of Work:	I called seeking information on inspecting a specific system for a new home purchase. The woman on the phone was professional and helpful, answered a lot of questions and gave advice free of charge. When I buy the house I would call these guys to do the service based on the character represented on the phone.		Punctuality	N/A

Approximate Cost: \$250.00
Description Of Work:

Pumped out the septic tank and evaluated the state of the existing tank.

Member Comments:

Great Bear Septic Service was professional and courteous and they really know their "stuff". They gave us helpful information about the septic tank as well as the existing tank and how soon we really need to replace the tank since the house was just purchased.

They will be our first call for all our septic needs from today forward and should be yours too!
