

SW188

Slim revolutionary device that tracks not only your heart rate but steps taken, distance traveled, calories burnt and active minutes. It also gives you instant reminders when calls or texts are coming in. Monitor how long and how well you sleep and wake yourself with a silent alarm that will not disturb your partner. Slim, comfortable and easy to wear, you will barely feel it's on your wrist! Full color screen!

Functions:

Dynamic heart rate monitoring, activity detection and tracking, pedometer, calories burnt, distance tracking, sleep monitor, incoming call notification (caller name/caller ID), instant messages, alarm reminder, sedentary reminder, stop watch, anti-lost, shake bracelet to take photos, etc. No cable needed: USB port is mounted under the screen and plugs directly to any USB port for charging.
