

Minutes of Neighbourhood Plan meeting via “Teams”, October 25th, 2023

Attendees: Cheryl Tyler, Nick Beedie, Amanda potter, Jo Scrutton & Jacob Parker-Henry.

Apologies: Christine Sykes

Amanda and Jo explained that Oliver has left for Cambridgeshire and Jacob is taking on that role. He was formerly involved in the NPs for Kirkheaton and Lepton.

Amanda shared the Holme Valley mapping(we can view maps on Kirklees website and she will send us the link).

Amanda made it clear that irrespective of zoom level used the boundary lines must be in exactly the same place. We must also ensure that boundaries go through roads and not buildings.

There was then a general discussion about the latest design Code document. Jo Scutton apologised for only being able to get their notes/comments to us yesterday.

It was agreed that Nick, Christine and Cheryl would have another Teams meeting ASAP to keep momentum to discuss the notes and comments made by the planning team. Nick mentioned that we are seeking a new Planning Consultant but no names were disclosed.

Nick said that his design Code document was intended to be “ a rich menu of details” from which we could pull out items for the policies. It was said that we need to drill down down to simple notes (policies) for planning application clarity.
