- The "Enforcement Actions" link is now available on the main page.
- Links to "Print or Download Your License," "Continuing Education" for resident individual licensees, "Endorsed Agents" for business entities are now available at the top of the license record.
- New links to business entity license records and company profiles are available on individual and business entity license records.
- "Helpful Hints" are available to retrieve a license record.
- New "Collapse All" and "Expand All" to review specific licensing information by expanding and collapsing the license information.
