

TAURUS TRIBULATION PERIOD

The purpose of this illustration is to depict the celestial array as it occurred on the 1st day of the 70th anniversary from Israel's declaration of independence in May 14, 1948. In other words, what did the sky look like that night and does it suggest or allude to anything to do with the 'Sun, Moon and the Stars'. Well, coincidentally, yes, the 'Sun, Moon and the Stars', in this case Venus all converged in the Sign of Taurus on May 15, 2018 and in approximate phi ratio to each other. What was noted, in particular was that the New Moon occurred on this day. A New Moon is always analogues to a 'transitional period' as the sliver of the New Moon is then anticipated to usher in the new month according to the Hebrew calendar, etc. Does this particular New Moon on the 70th year anniversary of Israel's rebirth possibly signal such a coming 'transference' back to Israel from the end of the Church Age that is on the horizon? Would or could such a celestial convergence mean something even prophetically is to come in light of a 'transference' and upheaval? What this study wishes to present is a suggestive correlation of the coming Tribulation Period in the context to Taurus and Uranus. It is using the factors of the Giant Gas planet, Uranus as it is leaving Pisces and how it will traverse briefly through Aries to then enter Taurus within the next few years. The factor of the Biblical inference given to Taurus will then be analyzed in how it depicts the coming 'Wrath of the Judge', that is Jesus. The depiction of the planet Uranus is that of 'Heaven' itself, which is one of the inferences to the name of GOD Almighty.

Ironically, Uranus signifies a transition of a drastic change that is accompanied by the rise of global dictatorships. It is rather interesting that the rise of the major dictatorial world powers that wanted to rule the world occurred when Uranus was in Taurus. Will it be no different with the coming AntiChrist? Esoterically, Taurus is also associated with the Stock Market, finances, money, a 'Bull Market', etc. It will be befitting of how during this time with Uranus in Taurus, the AntiChrist will roll out his economic-medical-religious Mark of the Beast, which a Bull is.

The time it will take for Uranus to span the length of the constellation of Taurus will be approximately 9 years. Uranus only visits each Sign of the Mazzaroth every 84 years. Some constellations are smaller in expanse compared to others, some Signs will have more or less years, in which Uranus will be in such a Sign. The timeline shows the yearly increments of Uranus' progress pegged to the May 15 anniversary of Israel's modern rebirth. The years will be marked starting from right to left, as the trajectory of the planet Uranus along with its retrogrades will look traveling across the sky from Earth's perspective. Interestingly, the Taurus and Uranus connection is that on precisely the 70th year anniversary of Israel's independence with the New Moon, the position of Uranus was at the exact point on the Ecliptic where the 2 Fish of Pisces are 'bound' by Cetus, the 'Beast out of the Sea', etc.

May 15, 1948
1st Day of Israel's rebirth
70-year anniversary
1948-70 years = 70 years
1948 years - 70 AD = 2018

Uranus starts to leave Pisces in 2018 and will traverse through Aries thereafter for roughly 5 years. Astonishingly, from this 'unbinding' of the Fish from Cetus to when Uranus moves into Taurus and then exits it is in approximate phi ratio of time to the total 13-year movement of Uranus. The constellations were created in phi ratio properties, if one also superimposes the spiral phi ratio onto the entire length of the constellation of Taurus, the fulcrum of the spiral is dead center on the Pleiades. In terms of the name of Uranus, it is referenced to the ancient Greek deity of the sky Uranus (Οὐρανός). Uranus was considered the father of the first generation of the Titans.

According to Bullinger's work, astronomically the *Bride of Christ* is raptured before this 7-year Tribulation Period of the judgment and wrath of the Judge begins. *There is nothing of 'the Church' revealed here. The Church will be caught up to meet the LORD in the air, to be forever with the Lord (1 Thess 4:17) before He thus comes unto the world in judgment.*

Uranus is associated with great change, the 'Planet of Revolution' and known as the 'Great Awakener'. Such a factor combined with Taurus signifies a world transition and abrupt change that will be catastrophic. This is because Uranus is an outer planet, and thus the effects of its transit through Taurus will largely be seen on a global level and impact. The planet Uranus is the ruling planet of Aquarius. In the coming 'Golden Age' of Aquarius, Uranus in Taurus also signifies a coming breakdown of the Order, the Luciferian New World Order. It will be judged at last by the coming judgment and Wrath of Jesus as the 'Judge'. Uranus is also said to affect security and food supplies. This again is ominous as there will be extreme famine throughout the world caused by war during the coming Tribulation Period.

In terms of a Biblical interpretation of Taurus, E.W. Bullinger says that Taurus is the subject of Redemption completed, and consummated in triumph. No more sorrow, suffering, or conflict; no more the bruising of the heel of the Redeemer. His coming 'unto' this Earth is not to suffer for sin but it will be a coming in power to judge the Earth in righteousness, and to subdue all enemies under His feet. It is the prophecy of the coming Judge of all the Earth.

Earth
Uranus

Average orbital speed 6.80 km/s
Orbital period 84.0205 yr
30,688.5 d[3]
42,718 Uranian solar days
Inclination 0.773° to ecliptic
6.48° to Sun's equator
Known satellites 27
