

SAGITTA ARROW OF YHVH

CELESTIAL MOTIF OF JESUS CHRIST TAKING THE ARROW OF GOD FOR HUMANITY

In the Mazzaroth, the Stars of Sagitta, The Arrow of GOD is sent forth to Pierce the Messiah, Jesus. It is a Foreshadowing of what was to occur at the Cross of Calvary. The following is based on E.W. Bullinger's Interpretation of the Meaning of the Stars that cluster The Arrow with Aquila and Delphinus. It is a Celestial Picture of the Death and Resurrection-Rapture of Jesus, specifically and those that are to follow of the Church Age Believers. It is not the Arrow of Sagittarius, for that has not left his Bow. That Arrow is for the Enemies of God. This Sagitta Arrow is for the SON of GOD. 'Thine Arrows stick fast in me, and Thy Hand presses me sore'. -Psalm 37:2. Jesus was, 'Stricken, Smitten of YHVH, and Afflicted. He was Wounded for our Transgressions' as Isaiah wrote about. Jesus was 'Pierced', when He could say with Job, 'The Arrows of the Almighty are within me'.

Coincidence? On March 15, the JWST Photo released by NASA on 3/15 of the Wolf-Rayet 124 'Supernova' Star, located in the Constellation Sagitta, which represents an 'Arrow', on the same Day, the FedNOW Instant Payment System, with its Ouroboros 'Arrow' Logo is announced to the Public. March 15 Highlights the 'Death' or Assassination of Julius Caesar in 44 BC of Julius Caesar in the Ides of March in Rome. It foretold the End of the Republic.

Death Blow to the Republic with the Assassination of Caesar on Eve of 75th Day of the Year and as Israel turns 75 in 2023.

Crooked Arrow Ouroboros Motif

FedNow Logo has the Ouroboros Motif on it, i.e, a Dragon or Serpent or Phoenix that is 'Eating its Tail'. This Logo is of an 'Arrow' that is Circular that meets at its End.

The Sagitta Arrow is pictured in Mid-Heaven, alone, as having been Shot forth by an Invisible Hand. It is showing how Redemption was to be Procured and by whom. It was, 'The Will of YHVH' of which Jesus came to do. The Arrow accomplishes this as seen in the Fallen Eagle, Aquila. The Smitten One Falling. This is the Effect of this Arrow, in the Pierced, Wounded, of the Falling Eagle, gasping in its Dying Struggle. And that represents the Pierced, Wounded, and Dying Saviour, Jesus whom it represents.

Ophiuchus

Constellation: Sagitta WR 124
Right Ascension: 19h 11m 30.875s
Declination: +16° 51' 38.20"

DYSON SPHERE?
Some have suggested that the Image looks like either a Giant Super Black Hole or a Dyson Sphere surrounding a Star. A Dyson Sphere is a Hypothetical Mega-Structure proposed by Physicist Freeman Dyson. His Theory Postulates that it is used to Enclose a Star in order to capture its Energy, for use by a Highly Advanced Civilization.

Wolf-Rayet Star is located in the Constellation Sagitta. The Luminous, Hot Star Wolf-Rayet 124 (WR 124) is prominent at the center of the James Webb Space Telescope's Composite Image combining Near-Infrared and Mid-Infrared Wavelengths of Light from Webb's Near-Infrared Camera and Mid-Infrared Instrument.

Delphinus
Resurrection Rapture

Delphinus is the Completion of what is the Outcome of the Redemption found only in Jesus. He, 'Died and Rose again from the Dead'. Apart from His Singular Resurrection His death, in His Conflict against Lucifer, Jesus secured the Multitudes of His Redeemed, Resurrection and to be Raptured 1 Day.

Jesus Pierced by the Lance of Destiny attributed to the Roman Soldier, Longinus.

AQUILA
Falling Eagle - Smitten One Falling
Motif of Jesus taking the Piercing
Foreshadowing the Cross of Calvary

Aquila is not the 'End' of the Story, as there is thereafter a Depiction of Jesus' Resurrection and Rapture that Delphinus represents. Delphinus, though Small and Singular is a Depiction of a Fish full of Life, and always with the Head upwards emblematic of a leaping-up as in a Resurrection and Rapture Motif. It contrasts the Fallen Eagle that is downwards.

Silver Gate

JAMES WEBB SPACE TELESCOPE JWST
The \$10 Billion Telescope, which is a Collaboration between NASA, the European Space Agency and the Canadian Space Agency, used both its Near-Infrared Camera (NIRCam) and Mid-Infrared Instrument (MIRI) to observe WR 124.
