Attendance Agreement

At Southlake Autism and Behavior Services we are committed to providing your child with the utmost in quality ABA services. In order to maintain this level of standard practice, regular attendance is essential. Progress can only occur when children attend their sessions regularly and home carryover is completed.

We also understand that children get sick and situations arise which will result in the need to cancel your appointment. Please do us the courtesy of giving us at least 24 hours notice if you will not be attending your session. Sessions cancelled with fewer than 24 hours of your scheduled appointment will be subject to a fee and may be recorded as an unexcused absence.

After 3 unexcused absences, your child may be placed on a "will call" list. Our Will Call List means your child will no longer be scheduled in a regular weekly time slot. We will call to schedule appointments when we have a cancellation that allows for an opening in the schedule.

We appreciate your understanding of this policy. We are committed to the children we serve and are devoted to the development of their life skills. In order to allow all children the opportunity to receive therapy, we cannot hold spots for clients who cancel excessively or who have 3 "no-call, no-show" appointments.

Thank you for your help in upholding this policy and ensuring your child attends therapy regularly and consistently. This will only help to maximize the results from the therapy they receive.

WELCOME

Welcome to Southlake Autism and Behavior Services (SABS). SABS is a full service ABA agency helping children, adults and families develop the necessary skills to function successfully in society. We are thankful for the opportunity to work with you. Before services begin, we would like you to know what to expect.

- A complete evaluation of your child will be completed. The evaluation will aid in determining the cause of the concern and set a preliminary course of action.
- Objectives will be targeted and treatment goals will be set.
- A treatment and intervention plan will be developed to meet the treatment goals.
- A behavior analyst will be assigned to your case.
- The services will be provided in the best or natural environment such as your home, your child's school, clinic and community settings.

In order for our services to be successful, your participation is critical. It is important to understand that in order for the behavior of your loved one to change, the behavior, habits and practices of all the individuals in his/her environment will also have to change. Therapy that is behavior analytic driven is an active process and is vastly different from other types of therapy. Your help in collecting data, participating in parent or staff training during sessions and following through in implementing the programs, even when our staff is not there will be an important part of the overall success of this intervention.
We look forward to working with you and your family as we strive to reach the set behavior goals. Please sign this statement of understanding to indicate that you have read this letter and agree to participate in behavioral services.

STATEMENT OF UNDERSTANDING

I, _____, parent/caretaker of _____, have read this letter of understanding regarding provision of behavioral services. I understand that my participation in training during sessions, and in the implementation of the treatment plan is critical to the success of my son or daughter, and therefore, is required. The staff has also explained the company policies to me regarding services. I understand these policies as well.
