ALL-STAR^{team}

Pro's Choice Infield Team

Pro's Choice products offer a whole team of products to help make your infield the best it can be. Pro's Choice Red and Pro's Choice Select soil conditioners can be used in field construction or as top dressing to eliminate compaction and improve playing surfaces. Pro Mound® packing clay can be used to construct long-wearing and stable pitcher's mounds and batter's boxes. Rapid Dry® drying agent can save the game by drying up puddles and slick spots after rain.

RED INFIELD CONDITIONER

Designed to meet the challenges of wet, dry or compacted infields, this unique durable granule helps create passageways for drainage and eliminate compaction for truer bounces and safer play.

SELECT PREMIUM INFIELD CONDITIONER

This premium infield conditioner keeps infields smooth, safe and resilient. It's uniformly sized granules and deep red color makes the perfect infield top dressing for professional looking infields.

PROmound PACKING CLAY

A unique blue gumbo packing clay, Pro Mound bonds to form a solid subsurface in the mound and batters boxes that allows players to "dig in" and establish footing without leaving large holes. Also available in preformed brick.

rapidDRY DRYING AGENT

Stay in the game with Rapid Dry drying agent. These tiny granules are designed to quickly wick away excess water from your infield and keep your games playing safely and without delay.

PROred PREMIUM RED TOP DRESSING

Pro's Choice Pro Red premium topdressing provides exceptional deep red color to your infield to give it the professional look of World Series Championship fields. Used by professional groundskeepers to enhance the look of their field, Pro Red is the only red conditioner that maintains its rich red color.

Pro's Choice soil conditioners for turf provide the ideal growing environment for turf by improving root development, resistance to disease, and moisture and nutrient delivery. Pro's Choice for Turf and Pro's Choice Green granules work within the soil to eliminate compaction and create openings for moisture and oxygen to travel to the root zone. These highly absorbent granules also absorb excess moisture and nutrients into their pores and hold them until roots need them.

TURF SOIL CONDITIONER

Designed to meet the challenges of wet, dry or compacted infields, this unique durable granule helps create passageways for drainage and eliminate compaction for truer bounces and safer play.

[\(Click here for installation instructions\)](#)

GREEN PREMIUM SOIL CONDITIONER

Colored to blend in with your turf, the granules can even camouflage bare or worn areas. Pro's Choice Green soil conditioner is made of the same highly-absorbent montmorillonite clay as our regular Pro's Choice Select making it perfect for topdressing and gameday touchups.

GOLFceramic

CERAMIC GRANULES

Pro's Choice Ceramic adds porosity to the soil and helps maintain a loose, aerated growing environment. Air-filled pore spaces provided by these hardened particles improve the passage of water and oxygen to the root zone resulting in a vigorous root system and subsequently better top growth.
