*Carrying the message of Christ
and His work on the cross
to see the kingdom of God
manifest.*

The GLORY BARGE

We are on a mission to build and launch a Christ-inspired barge on the waters of the Erie Canal. This watercraft is a modern-day equivalent of the Apostle Peter's fishing boat, designed for a different catch. We look to carry the message of Christ to the hearts that need the Gospel message.

The Vision:

Seeing the Erie Canal be used as the “Birth Canal” for our world’s next major Christian Revival/Awakening.

The Mission:

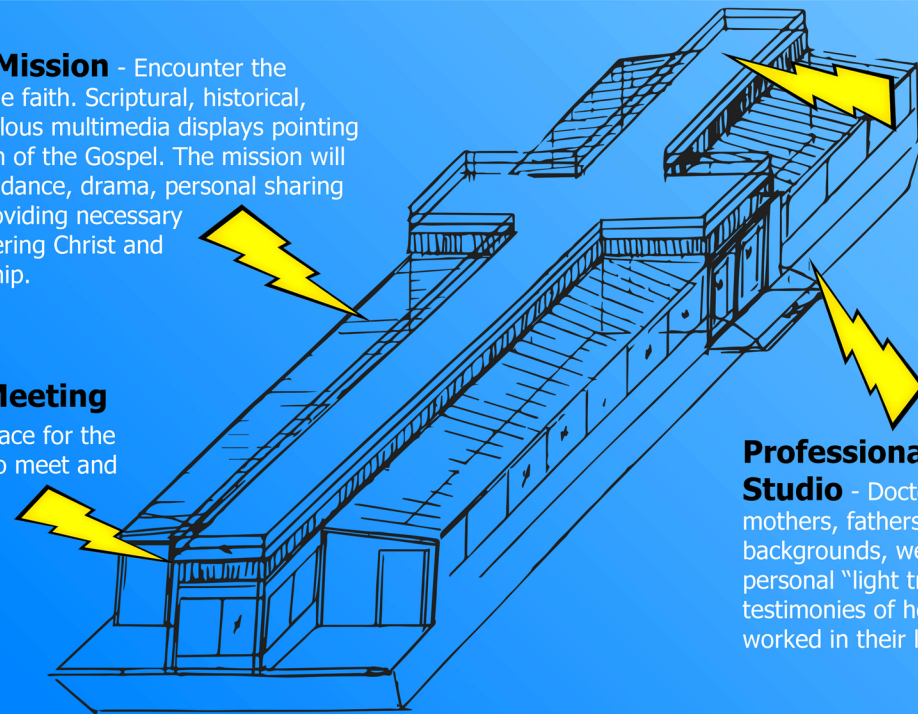

Erie Canal Light Transformation Inc. (ECLTI) is a New York State non-profit 501c3 corporation. It was developed as an unique, multi-media contemporary platform based on Judeo-Christian principles. A core focus of ECLTI’s barge platform is to share the transformational and nurturing power of Jesus Christ in the personal stories of individuals throughout the Erie Canal Historic Corridor, to bear witness that He is “The Light” of nations throughout the world.

GLORY BARGE EXPERIENCE

...where listening and healing are paramount.

Heart of the Mission - Encounter the evidence behind the faith. Scriptural, historical, logical, and miraculous multimedia displays pointing people to the Truth of the Gospel. The mission will encompass music, dance, drama, personal sharing & prayer, while providing necessary Bibles for encountering Christ and Christian Discipleship.

Conference Meeting Room(s) - A place for the Glory Barge staff to meet and pray about each canal stop.

Illuminated Cross Deck Sound Stage

- A place for worship music, and a bright reminder of God’s justice, offered forgiveness, and love shown by the Lord Jesus’ atoning sacrifice on the cross.

Professional Recording Studio

- Doctors, military personnel, mothers, fathers, people from all backgrounds, we look to document personal “light transformation” testimonies of how the Lord has worked in their lives.

You are invited to join the journey and support the project. Information on back.
