

2022 Indoor Season

Practice Policies / COVID Protocols

1. All athletes must be fully registered with the club prior to attending their first practice. Club registration can only be completed online using this link: www.Trackiereg.com/2022-UWAC
2. Spectators/Parents will not be allowed to attend practice.
3. The area around the St. Denis Centre is a construction zone, so the drop off area is in front of the Human Kinetics building on College Ave. Parents can also wait in the parking lot immediately across the street for pick up after the practice session. The lot is a Pay & Display lot, the parking attendants on campus are enthusiastic.
4. As a requirement of registration with Athletics Ontario, all club members are required to be fully vaccinated. At this time, this requires that each participant have 2 doses of the COVID vaccination.
5. Upon entering the building for each practice, the club member must show their proof of vaccination. Only the enhanced vaccine certificate with QR code where proof of vaccination will be accepted. Having this readily available electronically works best.
6. Each club member upon entering the building must also complete the UWindsor COVID self-assessment for every entry. There are two ways to do this:
 - a. Preferred method: First complete the [UWindsor Vaccine Attestation](#), this will produce a code to be used in the Safe Lancer App. Next, download the [Safe Lancer App](#), start the self assessment tool, click on Visitor, enter the vaccination attestation code, then complete their self-assessment. The Vaccine Attestation code needs to only be completed once.
 - b. They can provide a paper copy of the self-assessment by Printing and completing the document at home and bringing it with them, or Fill in the same document on arrival (desk staff will have a supply of paper copies)
7. A Log of each person attending each practice will be kept. This will be done in the foyer upon entering the building, look for the table with club banner.
8. Masks are required upon entering and exiting the building and whenever not training.
9. Social distancing of 2m will be in effect.
