Dear Students and Parents,

The School Board, District Administration and Staff of the Lake and Peninsula School District welcome you to the 2018-2019 school year! The purpose of this handbook is to provide LPSD students and parents with information concerning the school operating laws, regulations and procedures. Please take time to read this handbook and familiarize yourself with the basic operating rules of our schools.

The components of this handbook are based on State of Alaska Statutes regarding school law, policies, procedures and regulations. Community input was sought by the School Board and was incorporated into this document. This handbook was also created with additional guidance from LPSD Board Policies and Administrative Regulations.

Following the procedures within this handbook will ensure consistency across our district this year. It is recommended that school staff, and students with their parents have an open discussion on these procedures at the beginning of the year. Again, please take some time to review the contents of this document.

If you have any questions or concerns with these policies and procedures, please feel free to give me a call. I look forward to another great school year!

Sincerely,

Ty Mase  
Superintendent  
Lake and Peninsula School District

## **SCHOOL BOARD MISSION STATEMENT**

The Mission of the Lake & Peninsula School District is to develop productive citizens who are positive role models, self-directed learners, academically prepared and resilient. We will accomplish this through our Standards-Based System in a safe, culturally sensitive environment with an emphasis on technology, extended opportunities, and committed partnerships.

## **TIPS ON HOW TO BE A SUCCESSFUL STUDENT**

Success in school involves commitment, effort and time. The following general information is provided for students as a guide for the development of a successful and enjoyable school career.

**SET GOALS:** Clearly defined goals help to identify where you want to go, how you are progressing and when you reach the finish line. Set both short and long term goals.

**WORK INDEPENDENTLY:** Be a self starter. Discipline yourself to complete assignments and track your goals to be sure you are meeting them.

**ORGANIZE YOUR TIME:** Your schedule should provide for study time, school-related activities, out-of-school activities and leisure activities.

**FIND A GOOD PLACE TO STUDY:** Remove any distractions. Don't kid yourself into thinking you can study as effectively with music blaring as you can in a quiet atmosphere. Gather all needed materials before starting to study. Have easy access to pencils, books, and any other materials that are needed.

**USE AN ASSIGNMENT NOTEBOOK:** Don't trust your memory. You should be sure that you know what assignments are required **and** when they are due.

**TACKLE HARD ASSIGNMENTS FIRST:** Do memory work first and alternate between written assignments and reading. Most students can learn more in three 40-minute sessions than they can in one session of 120 minutes.

**CONCENTRATE:** Break up your study time. It is easier to concentrate if you divide your study time among different subjects and give yourself a study break occasionally (10 minutes per hour).

**TAKE NOTES IN CLASS:** You will be able to pay closer attention to the instructor if you take notes in class. Note-taking also helps you to better remember the information. Your teacher will help you to recognize important information by giving you clues. Important statements may be spoken more slowly, written on the chalkboard, or repeated. Write key phrases only. Keep your notes together, dated and in order. They will be helpful when studying before a test.

**LISTEN IN CLASS AND THEN ASK QUESTIONS FOR CLARIFICATION:** If you don't understand the information, don't be afraid to ask for an explanation!

**COMMUNICATE WITH THE STAFF:** Let your teachers and counselor know who you are and what you require in order to achieve your goals. Communication is one of the key elements of a successful school career. It is a valuable asset that can only be developed through continued use and interaction.

## **GUIDANCE AND COUNSELING**

Problem solving: A counselor or teacher can be a great help when you have personal problems. You may want to see a staff member if:

8. You would like to join a group to share thoughts and feelings about problems.

College and Career Information: Your teacher(s), or Principal can help put you in contact with the school counselor when...

1. You want information about making your career choices or require job information;
2. You need college or other post-high school information;
3. You need financial aid information;
4. You would like information on scholarships;
5. You need to request letters of recommendation;

## **ATTENDANCE**

## **Board Policy 5110**

The School Board recognizes that individual student attendance in school is an important aspect affecting the quality of instruction offered to individual students as well as to the entire student population.

Parents of students between the ages of 7 and 16 are expected to follow the provisions of [Alaska School Law 14.30.010 to Section 14.30.050](#), which explains compulsory attendance expectations. Site administrators, teachers, and LSACs shall report students not complying with the Law.

Each school in the District is expected to develop a specific tardy policy to reduce tardiness at its site. Tardiness is defined as a student not being in his/her assigned classroom or seat in that classroom at the beginning of the period. A tardy becomes counted as 1/2 day unexcused absence after the tardiness exceeds 30 minutes.

Successful educational advancement is enhanced by regular school attendance. The responsibility for regular attendance lays with each student and his/her parents or guardian. However, it is the obligation of the school to assist the student and parent to assure that regular school attendance does occur.

1) All absences, whether excused or unexcused, are considered an absence, including but not limited to being sick, family trips, religious holidays, emergencies at home, death in family, medical appointments, and out of school suspension. For those students whose families are engaged in commercial fishing when school begins in the fall, a prearranged absence not to exceed 15 days may be granted.

2) It is the belief of the School Board that family trips should be scheduled either during summer vacation or at times when school is out for vacation. Should a family vacation require the student to miss more than 15 school days, assignments will not be given for the class or classes missed. For absences up to 15 days, the teacher will be required to provide assignments in each class including homework. The work must be completed and returned to the teachers no later than one week after return to school. If a family wishes to vacation for more than 15 school days the parents would be encouraged to enroll the student in a school district in the area of the vacation.

a) A student who has not been in attendance in the District for 20 days, during any reporting period (Quarter) will not receive a Snapshot. *(Added: 7/03)* A Snapshot is the reporting tool that identifies the student's level of progress.

3) Any student attending school in the District must maintain regular attendance. A student who has missed 10 consecutive days unless the absence has been prearranged will be dropped from the attendance records. On return the student must reenroll prior to attending school. (Board Policy revision 8/26/97 and 5/05)

4) When a student's absences exceed 10 days per semester the Site Administrator, shall by written memo, indicate the number of absences and dates of absences and request the parent or guardian to improve their child's attendance at school.

5) When the student's absences exceed 15 days per semester the Site Administrator, shall by written memo, notify the parent and send a copy of the notice to the District Office. Upon receipt of this letter the District

Office administrator shall within three (3) days, and monthly thereafter, check and insure that the student is attending school. If continued violation occurs, the designated District Office Administrator or Superintendent or Chief School Administrator, shall by written letter request parental assistance to immediately improve school attendance. A copy of this letter will be sent to the VPSO or nearest state trooper's office requesting enforcement of the Attendance Law.

6) Each site administrator shall notify the students of the attendance and absence policy at the beginning of the school year. Each student shall return to the school a copy of the Statement of Understanding, from the Parent Student Handbook, with parent signature, noting the parent has read the District attendance expectations.

7) Students shall provide a written excuse or telephone call from the parent or guardian indicating the reason for each absence from school.

8) Students maintaining regular attendance shall be eligible to participate in competitive sports activities or other school sponsored activities.

9) No student will participate in a school activity or sport if absent from school the day of the scheduled travel or activity.

10) Any student absent from school for a period of ten consecutive school days will be dropped from the attendance rolls of the school unless satisfactory arrangements are made with the site administrator in advance.

11) Each LSAC is free to adapt more stringent modifications to the above attendance policy provided the modification is coordinated with District Office.

Students' must demonstrate 80% proficiency on each assessment to advance to from one level to the next.

The District uses a Personal Education Plan (PEP) to assist each student in successfully completing the required course of study. The PEP assists the District in effectively allocating community and school resources in support of each student's fulfillment of the vision expressed in the District's Mission Statement. The PEP **is not** an individualized course of study, alternative curriculum, Special Education Individualized Education Plan (IEP), or an exemption from the graduation requirements. The PEP **is** a planning tool prepared by students, parents and educators to outline a course of study and activities to assist the student in meeting their goals.

## **Homework**

Homework is considered a regular part of the school's academic program. Parents are encouraged to provide a regular time and place for students to complete the days' assignments. The schools and all personnel hired by the District are required to support this effort and provide alternatives at school to accomplish homework when no other place is available.

**Transfer Students**

In the case of a student entering from a school that requires Carnegie Units, the number of required credits for the student's remaining school year shall be adjusted on a proportionate basis to require at least 5.25 credits for each full year of attendance in schools of this District. Any deviation from this policy must be approved by the Board on an individual basis.

Questions regarding these requirements should be directed to the Superintendent. The School Board will consider unresolved questions.

In considering whether a student's transfer credits meet requirements, the Administrator of Instruction and Student Activities will exercise his/her judgment as to whether or not subjects transferred into LPSD are acceptable. Any significant deviations from LPSD's course requirements should be referred to the District Office before consideration for graduation.

## **Distance Education Course Offerings**

To be eligible for distance education coursework, students must first pass the minimum graduation level at full implementation of the SBS in one of the eight content areas. The school counselor will meet with the parents, student and teacher to determine the appropriate course work for each student. Once a distance course has been identified it must be submitted to the Administrator of Instruction and Student Activities for final approval. Parents will pay for the initial cost of tuition and books for all distance courses. Parents will be reimbursed for the distance course tuition and books once the student successfully completes the course with a 70% or higher.

## **STUDENT REPORTING:**

The Lake and Peninsula School District has established a reporting system and alternative approaches for measuring student performance. These measurements are consistent with the educational program in the District. Transfer students must be in attendance for a minimum of 20 days to receive a snapshot for any 9 weeks reporting period.

Appropriate snapshots, forms and procedures for reporting student progress to parents have been established by the district. The reporting tools are designed to help all parents understand their child's current level of achievement in all eight content areas. Weekly and/or bi-weekly communication with the community is essential to meet the educational goals of the District.

### **Reporting System for K through 12**

Criteria for determining student movement through the District's curricular levels shall be guided by student performance as measured by:

- Skills based assessments
- Analytical assessments
- Performance based assessments

### **Parent-teacher conferences**

Parent-teacher conferences are held at least twice per school year. Parents/Guardians are encouraged to contact the school and arrange conferences as desired.

## **STUDENT ACCIDENTS AND ACCIDENT INSURANCE**

Parents are primarily responsible for their children's health care. The School District does not provide medical care or insurance for student injury that may occur while attending school or participating in school sponsored activities. The District can provide information on student school accident insurance. This insurance can be purchased by the parents. Contact the site Principal for more information.

## **STUDENT RIGHTS AND RESPONSIBILITIES**

The Lake and Peninsula School District Board of Education recognizes that education is a right not to be taken away without cause. This right, however, is conditional upon the individual's willingness to obey reasonable rules and regulations. Rules, regulations and disciplinary actions are to be directed toward serving educational outcomes. The School Board, given authority by the state government, delegates to the administration of the District the responsibility to use democratic principles and to exercise prudence in the formulation of essential and enforceable rules. Students must conduct themselves in an appropriate manner in which learning can take place and where mature behavior, self-discipline, and personal responsibility are nurtured.

Since it is necessary for rules and regulations to be established, students are to be informed of the rules and the rationales underlying them. Adult authority will be used to enforce these rules when it becomes necessary. The importance of individual rights and privileges that accrue from a democratic society can be maintained only if each individual assumes personal responsibility for his/her behavior.

### **IT IS THE RESPONSIBILITY OF THE STUDENT TO:**

Attend school daily, except when ill, and to be on time to all classes.

Express his/her opinions and ideas in a respectful manner so as not to offend or slander others.

Dress in a manner so as not to be an undue distraction or interfere with the activities of others.

Act responsibly at all times, and take into consideration the feelings of others. Do not interfere with the rights of others.

Conduct oneself in accordance with school rules, policies and expectations that regulate student behavior.

Be willing to volunteer information in disciplinary cases should you have knowledge of importance in such case.

Take an active part in student government by running for office or conscientiously voting for the best candidates.

Make problems known to the administration through the student government.

Review questions with the teacher before bringing grievances before a local administrator.

Question, review and understand current policies.

Request a review of grades, assignments or tests.

Enhance the learning culture by approaching studies diligently and honestly.

### **CONCERNS/COMPLAINTS PROCEDURE**

The District recognizes that students/parents may have concerns regarding the professional staff, support staff, or the instructional program. By direction of the District School Board, the proper procedure for dealing with complaints will be as follows:

1. If the problem involves a classroom teacher, the complaint should go to the teacher first.
2. If the problem cannot be resolved with the teacher, the complaint should go to the Administrator/Head Teacher.
3. If the Administrator/Head Teacher cannot resolve the problem or if the problem involves the Administrator/Head Teacher, the complaint should go to a District Administrator. Every effort should be made to resolve the problem on the local level.
4. If the problem still cannot be resolved after consulting a District Administrator, the Superintendent should be consulted.
5. When all other attempts to solve the problem fail, it should be brought before the School Board. The Board's decision will be final.

## **DISCIPLINE**

## **Board Policy 5144**

The School Board believes that one of the major functions of the public schools is the preparation of youth for responsible citizenship. The district shall foster a learning environment, which reinforces the concepts of self-discipline and the acceptance of personal responsibility. Students are expected to progress from being adult-directed to self-directed with minimal application of disciplinary measures.

The Board recognizes that there must exist certain disciplinary policies and regulations relating to student conduct which delineate acceptable behavior and provides the basis for sound disciplinary practices within each school in the district in order to maintain an environment conducive to learning. These policies and regulations will be enforced fairly and uniformly and consistently without regard to race, creed, color or sex.

The administration, teachers and classified staff share mutual responsibility for the enforcement of district policies and regulations pertaining to student conduct and safety. The Board shall give reasonable support and assistance to employees with respect to student discipline. The Board shall review its policies related to student rights and responsibility at least once every three years and shall modify its policies as needed in accordance with law.

The Board recognizes that not all students will adhere to district rules for appropriate behavior. Sufficient support services shall be provided so that continually disruptive students will not be returned to regular classes without some modification of behavior. Students may be assigned to other alternative programs or be subject to removal from school.

Each Principal/Head Teacher shall publish school rules for student discipline, which describe the school's behavior management plan and consequences for student misconduct. Special care shall be taken when developing school rules to solicit the views of the school community, including administrators, teachers, school security personnel, parents/guardians and students.

School site rules must be strictly based on district policy, regulation and state and federal laws and be enforced fairly and uniformly. The Superintendent or designee shall establish procedures for the approval of such rules.

At the beginning of each school year, the Superintendent or designee shall ensure that every student and his/her parents/guardians are notified in writing of the availability of Board policies and administrative regulations related to student rights and responsibilities. Such policies shall be posted in accordance with law. (4 AAC 07.030)

### **In-School Suspension**

In an effort to establish disciplinary procedures that are effective in reducing student truancy and misbehavior and do not interrupt the educational process, the School Board, Superintendent, or designee may authorize in-school suspension as an alternative to out-of-school suspension.

In-school suspension removes the student from the school social scene while still requiring him/her to maintain the same basic school day schedule and to keep up with required academic assignments. Failure to serve in-school suspension or removal from the in-school suspension program for disciplinary reasons shall result in out-of-school suspension or additional time assigned.

### **Corporal Punishment**

Corporal punishment is prohibited by law as a disciplinary measure against any student. School administrators and teachers shall employ other means of disciplining students.

The prohibition on corporal punishment does not prevent the use of reasonable and appropriate force by a teacher or other supervising employee, which is necessary to maintain order or protect student welfare. Reasonable and necessary force or physical restraint against a student may be used to protect the student, or others,

from physical injury; to obtain possession of a weapon or other dangerous object; to maintain reasonable order in the classroom or on school grounds; or to protect property from serious damage or destruction. The force shall not be greater than necessary to control the misconduct or dangerous situation. In no event may deadly force be used against a student.

### **Reporting to Law Enforcement**

In addition to subjecting a student to discipline, any crime committed by a student while at school, on school grounds, or during any school sponsored activity on or off campus shall be reported to law enforcement. Criminal proceedings are independent of actions taken by the School District. The District may impose discipline for misconduct regardless of whether criminal charges are filed or a conviction is obtained. The Superintendent should ensure cooperation with law enforcement in the criminal investigation of students who commit crimes while under the jurisdiction of the school.

### **Discipline of Special Education Students**

Most special education students will be disciplined according to the District's policies and procedures except for the following reasons: 1) The Student's Individualized Education Plan (IEP) calls for the modified disciplinary procedure and/or; 2) The Student's IEP team members hold a meeting and determine that the misconduct was related to the student's disability.

## **DISCIPLINE PROCEDURES**

### **Administrative Regulation 5144**

- (A) Corporal punishment is not allowed as a means of discipline in the Lake and Peninsula School District.
- (B) The Rules of Discipline. They are not binding to the extent they rule out common sense and good judgment but are cited in an effort to achieve fairness and consistency. In all cases parents will be notified as soon as the site administrator has cause to believe that a student is guilty of any of the following unacceptable behaviors.
- (C) Suspension and expulsion of pupils from school is allowed under District Guidelines.

#### **Detention:**

Each school and teacher in the District has the right to require a student to report for after-school detention. Parents will be notified prior to a child being detained. Detention may be assigned to assist a child who has fallen behind in studies or to discipline a child who has been a disruption at school or in class.

#### **Suspension:**

A Principal/Head Teacher may suspend temporarily a pupil from school for reasons only as outlined in AS 14.30.045.

Suspensions shall be immediately reported to the parent/guardian and to the Superintendent or Chief School Administrator.

Reasons for suspension, expulsion, or denial of admission of pupils by the Hearing Authority as detailed in Alaska Statutes are as follows:

- 1) Continued willful disobedience or open and persistent defiance of reasonable school authority.
- 2) Behavior which is inimical (harmful, hostile or adverse ) to the welfare, safety, or morals of other pupils.

- 3) A physical or mental condition, which in the opinion of competent medical authority will cause attendance of the child to be inimical to the welfare of other pupils.
- 4) A physical or mental condition which in the opinion of competent medical authority will render the child unable to reasonably benefit from the programs available.
- 5) Conviction of a felony, which the governing body (School Board) of the District determines will cause attendance of the child to be inimical to the welfare or education of other pupils.

Where suspension is specified or recommended, IN-SCHOOL SUSPENSION should be the first consideration.

Only the most severe infractions should result in suspension out of school. In-house suspension means that the student is required to report to a specified supervised area where he/she has limited interaction with other students or the teachers. The suspended student should have daily assignments given to him/her or be otherwise occupied with academic activities.

A student who has been suspended or expelled for violating this policy may seek early reinstatement by submitting a written request to the Superintendent or designee. The request must identify all the reasons why the student feels that early reinstatement is appropriate. The student will be ineligible for all extracurricular travel for 45 calendar days.

After the 45-day suspension period, the student must submit a letter of apology to the LPSD Superintendent and ask for their eligibility to be reinstated. The letter must contain the offense and the corrections made to ensure it won't happen again.

Repeat violations resulting in being sent home will reviewed by the School Board and the length of ineligibility will be determined.

A student will also be held to site and district discipline policies when they return to their school site.

**Other instances that will result in a review of a student's eligibility:**

Leaving a school sponsored trip for non-emergency situations.

Not attending a trip without giving at least a 7 calendar day notice of cancellation.

## **Weather Restrictions and Conditions for all Student Travel**

Student travel is prohibited on any piston aircraft when the ambient air temperature is twenty (20) degrees Fahrenheit below zero or colder.

Student travel is prohibited on any turbine aircraft when the ambient air temperature is thirty (30) degrees Fahrenheit below zero or colder.

Students are not to be transported in the back of an open vehicle if the ambient air temperature is twenty (20) degrees Fahrenheit below zero or colder.

### **Student travel at these temperatures is at the discretion of the individual.**

Be aware that we all need to renew our awareness of the increased danger of travel due to inclement weather and short daylight hours available for flying at certain times of the year.

Please take the extra precautions to provide for the maximum safety margins we owe the students, staff and ourselves. These extra precautions include, at the minimum, the following:

1. Prior planning, including written travel information with students' names, telephone numbers, addresses and dates of travel. This should be available for the travel coordinator no later than one week before travel is to begin. Of course, we will always deal with emergencies, but the longer lead time we have, the better we can get the job done.
2. All students and chaperones traveling on District sponsored aircraft, are required to be dressed appropriately for the weather. We must be adamant on this requirement with students. This requirement shall be observed during the winter months which extend to April in our area.
3. All personnel are reminded that at no time should they feel compelled to travel when conditions are questionable. If you think that weather or other conditions warrant a postponement or rescheduling, please inform District Office that a plane should not be sent for you or your students.

***It is vital that everyone exercise these safety precautions and planning activities that benefit all of us. Thank you for your cooperation.***

### **Statement of Understanding**

Students enrolled in LPSD grades 5 through graduation will be required to sign a "Statement of Understanding" signifying that the eligibility requirements and penalties have been read and understood. This must be signed and on file before any participation can take place. (See attached Statement of Understanding)

Parents(s) or guardian(s) of all students regardless of student level will be required to sign a "Statement of Understanding" signifying that the eligibility requirements and penalties have been read and understood. This must be signed and on file before any participation can take place. (See attached Statement of Understanding)

## **THE LAKE AND PENINSULA SCHOOL DISTRICT INTERNET SAFETY and ACCEPTABLE USE POLICY**

### **Introduction:**

The computers, hardware, software, and local area computer network (LAN) in each school and the district office are maintained to provide a variety of quality educational resources to the students, staff, and communities of the Lake and Peninsula School District including:

- Electronic Mail (e-mail)
- The World Wide Web and other Internet Resources
- File sharing of local and District information
- Computer equipment and software

The goal in providing these services is to support the District's Mission and Student Outcomes by facilitating resource sharing, innovations, research, and communication.

### **Internet Safety & Acceptable Use Policy:**

In response to the Children's Internet Protection Act (CIPA) and subsequent Federal Communications Commission (FCC) rulings on the implementation of the Act, Lake and Peninsula School District has implemented the following measures to insure the safety of its students and comply with the requirements of the Act.

1. To prevent access to visual depictions of an obscene or child pornographic nature, Lake and Peninsula School District will implement a technology protection measure filter all web access on all computers to inappropriate visual materials and supervise all student use of computers.

To prevent unauthorized disclosure, use and dissemination of personal information regarding minors, Lake and Peninsula School District will ensure that students are under adult supervision when using computers and will educate students to the risks of disclosure of personal information on the internet.
6. To restrict minors’ access to materials harmful to minors, Lake and Peninsula School District will supervise all student use of computers and may filter student internet access using filtering software.

With access to computers and people locally and world-wide, materials that may not be considered to be of educational value in the context of the school setting becomes available.

While internet content filtering will enable the blocking of access to known inappropriate resources and services designed to defeat filtering, no electronic technology measure can guarantee blocking of all non-educational materials. The District believes, however, that the benefits of the computer network including the value of the information and the opportunities for interaction with colleagues and peers far outweigh the possibility that users may obtain material that is objectionable, controversial, or not consistent with the educational goals of Lake and Peninsula School District.

The inappropriate use of the Lake and Peninsula Schools District’s computer network will result in a cancellation of the privilege of using the computer network and possible disciplinary action. Electronic mail, internet use and other network activity is not private. The computer equipment and software within the school, as well as the electronic mail and internet services are the property of the District. Lake and Peninsula School District reserves the right to access and/or monitor any and all activity and materials performed on, or contained on, District equipment or networks. Each user will be responsible for complying with the guidelines set forth in this “Internet Safety and Acceptable Use Policy” and applicable internet and technology procedures. Privileges will be denied, revoked or suspended for users who do not comply with the terms of the Internet Safety and Acceptable Use Agreement. Users identified as a security risk, or identified as having a history of inappropriate use or problems with other computer systems will be denied access to the network. Any employee identified as having violated District safety and use guidelines will be subject to disciplinary action up to and including termination.

All students, staff, or other users must have a signed copy of this agreement on file with the site administrator before access to the Network will be allowed. **Network Etiquette (suggestions for considerate use of network resources):**

1. Be polite – Use appropriate language. Be careful in your use of sarcasm, anger and other emotions. It may not always come through the way you intended. Be professional and careful what you say about others. E-mail is easily forwarded.

2. Double check the mailing address(es) before you send your message. Be sure your message is going where you want it to go.
3. Keep paragraphs and e-mail short and to the point.
4. Use correct grammar, spelling, and punctuation.
5. Use both UPPER and lowercase letters in your messages. It is normally inappropriate to use all capital letters. IT LOOKS LIKE YOU ARE SHOUTING.
6. Type your name at the end of each message to “sign” your message.
7. Delete messages as soon as possible to free up valuable storage space on mail servers.
8. Use bulk mailing techniques only when necessary. Don’t “spam” users of the system.
9. Print only the important parts of e-mail messages, web pages or files. Don’t waste paper.

### **Parent Notice for Directory Information**

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that the Lake and Peninsula School District, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child’s education records. However, the Lake and Peninsula School District may disclose appropriately designated “directory information” without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the Lake and Peninsula School District to include this type of information from your child’s education records in certain school publications. Examples include:

- **A playbill, showing your student’s role in a drama production;**
- **The annual yearbook;**
- **Honor roll or other recognition lists;**
- **Graduation programs; and**
- **Sports activity sheets, such as for wrestling, showing weight and height of team members.**

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent’s prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories - names, addresses and telephone listings, unless parents have advised the LEA that they do not want their student’s information disclosed without their prior written consent.

The Lake and Peninsula School District has designated the following information as directory information:

- **Student’s name**
- **Participation in officially recognized activities and sports**
- **Address**
- **Telephone listing**
- **Child’s photograph**

- **Weight and height of members of athletic teams**
- **Degrees, honors, and awards received**
- **Date and place of birth**
- **Major field of study**
- **Dates of attendance**
- **The most recent educational agency or institution attended**

If you do not want the Lake and Peninsula School District to disclose directory information from your child's education records without your prior written consent, you must notify the District in writing by September 11, 2013. Please contact the Principal/Head Teacher at your child's school to complete the "opt out" form.
