

Solution vs. Salvation

Solution concerns a problem;
salvation embraces a person.

Solution is relative and partial;
salvation is radical and total..

Solution takes a step;
salvation is a leap.

Solution requires analysis;
salvation demands conversion.

Solution relies on reason;
salvation hinges on hope.

Solution is a sign and a map;
salvation is new territory.

Solution provides a remedy
designed to heal;
salvation is a new design
destined to overhaul.

If you look to Jesus' gospel
for mere solutions,
you will miss the invitation
to His salvation.

For society, as for individuals,
sickness is exacerbated
when we keep on
concocting solutions
instead of
seeking salvation.

If life seems empty and aimless,
it is tragic to come up with
a new solution,
when what is needed is
total salvation.
