

# Getting your business back up and running

Disrupted by the Pandemic?  
Need Pipe can get you back in  
Business!

A total Integrated Solution tailored for you

## Key Outcomes

- Business is open and safety checks are in place
- Compliance with local regulatory requirements and bodies.
- Staff and visitors checked frequently for high temperature throughout the day,
- Frequent sanitizing of hands in business offices and facilities,
- Targeted messages and campaigns providing health and safety awareness and added reminders/encouragement,
- Realtime analytics to show trends and allow informed decision making

The Need Pipe Group have the solutions to get you back to “business as usual”:

- Realtime temperature checks: < 5 milliseconds
- Facial recognition — with or without masks— and optional integration with your HR systems
- Integration with Access Control and People Counting systems
- Heat mapping systems to determine distancing
- Hand sanitizers with integrated digital signage
- Data collection for real time analytics, dashboards and reporting

Need Pipe also provide full after sales support and managed services if needed
