

## Color Country Corvette Club Presents

# Tour of the Vanderhall Factory

## Springville, Utah

Hosted by Derek & Shelby Hall

**Thursday, September 16, 2021**

We will **depart Terrible's Gas Station at Exit 13 at 8am** for the 4-hour drive to Springville. We will make bio stops in Beaver and Scipio along the way and enjoy lunch together in Springville prior to the tour.

This run could easily be an overnighter for those that prefer not to drive to Springville and back in one day. Many of you have family and friends in Utah and Salt Lake Counties so this could be a Club event and much, much more.

Jay Leno featured one of these unique vehicles in one of the episodes of Jay Leno's Garage and spoke highly of the model he purchased. (Cut and paste this link into your browser to view Jay Leno's video)

The factory is a full blown, computerized assembly plant which can produce 150 vehicles per week as the demand for these easy to drive, high gas mileage, head turners is ramping up.
