

# Community Service

October 2023

“No one has ever become poor from giving.”

Anne Frank

Hello ALA Members of Arizona,

October is education month. This is a great time to visit local schools and talk about ways to help your local veterans, active military, and their families.

The fall holidays are not far away. Have a food drive to put together meals for people in need. Work with your local medical facility or school to put together a community blood drive.

It's time to think about the awards to be given at next convention. Information and requirements are on the National and Arizona auxiliary websites.

I don't need monthly reports but please share with me the activities your unit has done or is doing. I would like to share these with all the units for ideas.
