STROKE RECOVERY PRODUCTS

HELP PATIENTS REGAIN THEIR INDEPENDENCE

You play a key role in patients' recovery. Let us help. We have products specifically designed to aid stroke patients in relearning everyday living skills.

SETTING THE STANDARD IN NEURORECOVERY

Therapy with a Robotic Touch. The ReoGo™ is an innovative robotic device that works in 3 dimensions and is specifically designed to aid in the rehabilitation of upper extremities of patients suffering from stroke or other brain-related injuries.

Treatment Progress Scoring

- Detailed feedback on patient progress
- Monitor and track movement quality
- Detailed patient treatment history

New Software Applications

- Engaging, fun and effective rehabilitation games
- Incorporates hand and finger exercises

5663-27
