Location: DHS – Dogwood Hill School, 25 Dogwood Drive, Oakland | IHHS – Indian Hills High School, 97 Yawpo Avenue, Oakland

Please click [HERE](#) or visit www.firstshotsoccer.com to register for a 2017 day or evening camp (**multi-person & session discounts are available for all camps**)

For **players ages 6-7**, our camps will introduce and develop your child's love of soccer through a sequence of dribbling, shooting, balance, running, jumping, and movement education drills along with a variety of fun-filled games. Your child will learn how to follow direction and improve their social skills by connecting with their peers and instructors.

For **players ages 8-10**, our camps will reinforce proper technique and develop player's athletic abilities through a sequence of lifting & juggling, eye-foot coordination, running with the ball, passing, receiving, moves while dribbling, and heading & crossing drills. Your child will learn how to dominate the ball by having the correct body mechanics. Player development is achieved with game-like activities and is enjoyed by all players.

In addition, if your child is preparing to play for a recreation or club team; this program will institute the fundamental soccer skills required for the next level of competition.

For **players ages 11-14 and 15-18**, our camps allow the developing player to be competent in all aspects of basic techniques through sequences of educational movement and execution. Timing and delivery are important factors and knowing when and why to use a movement is one of the tactics repeated during this session. Your child will sharpen their technique, which will lead to execution, and finally leads to ball skill. Having skill allows players to execute a technique under the pressure of opponents in tight space and possibly on the run.

Registered players will receive a *First Shot Soccer* training T-shirt.

About First Shot Soccer

First Shot Soccer is a recognized leader in long-term development of youth soccer players in northern New Jersey for over 30 years.
