Who are the Swaffers. The Swaffers are your everyday wafer cookie family that each has its own unique fun as a family and individually. Ok, wait did I say wafer cookie family.

***Meet
The
Swaffers***

***Let's
meet***

them!!!

The

Swaffers

*Meet
Crunchy
Swaffer*

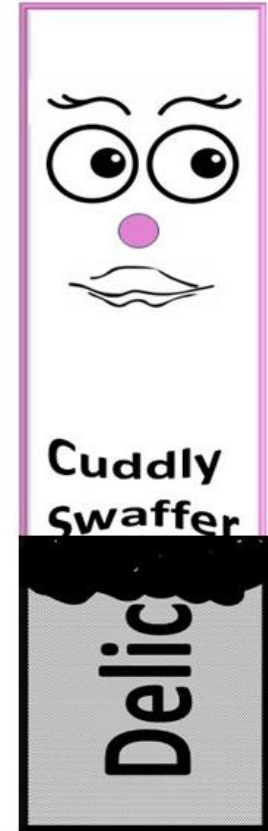

***His
Boy
Crispy***

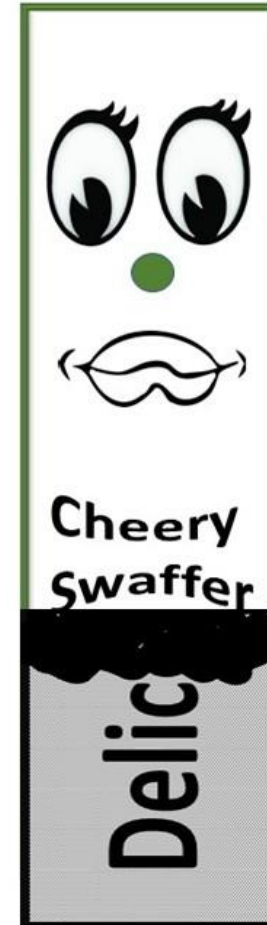

Daughter

Cuddly

***Cheery
His
Wife***

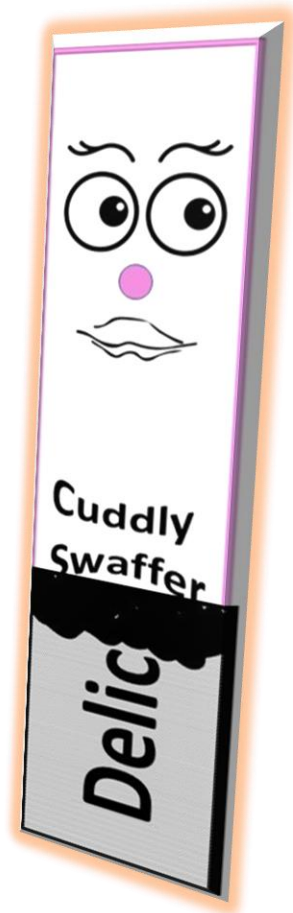

Crunchy Swaffer is the father of the family. He may have a hard outer crunch, but he is sweet and full of fun inside.

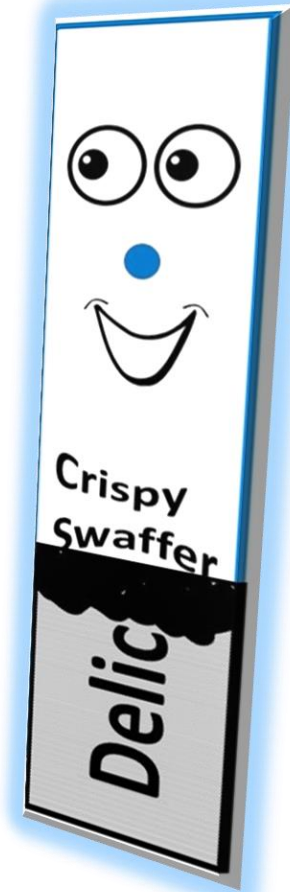

Cheery Swaffer is the mother of the family. She has a delicate outer layer, that it keeps everyone together with a lovely creamy inside.

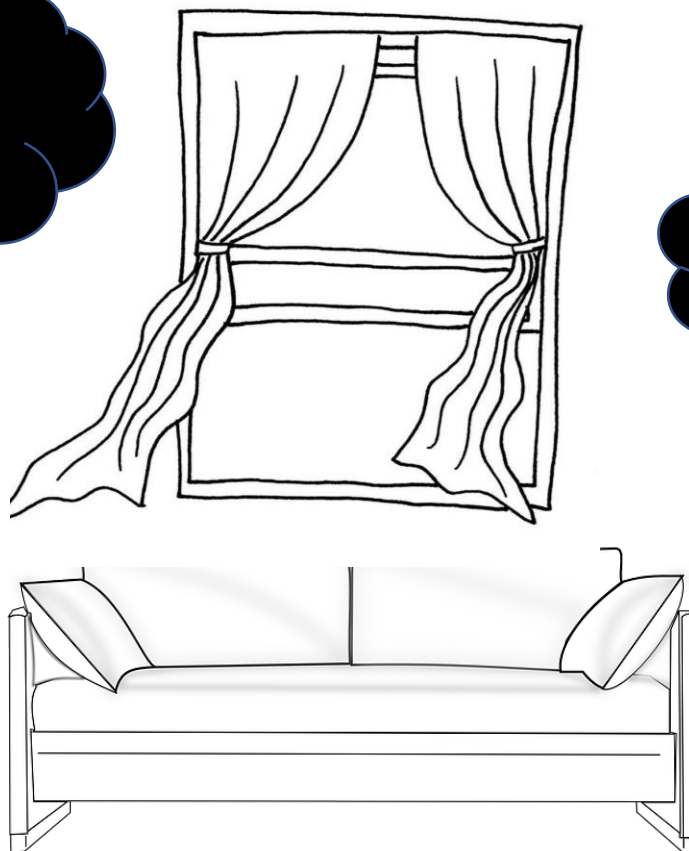

***Daughter Cuddly Swaffer
loves to do all the things
that most girls like to do.
She is just as cuddly and
sweet as can be.***

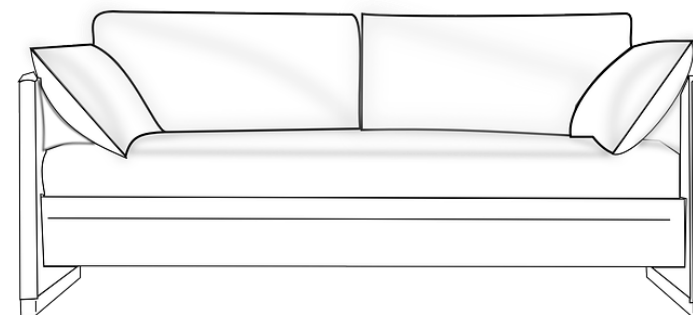

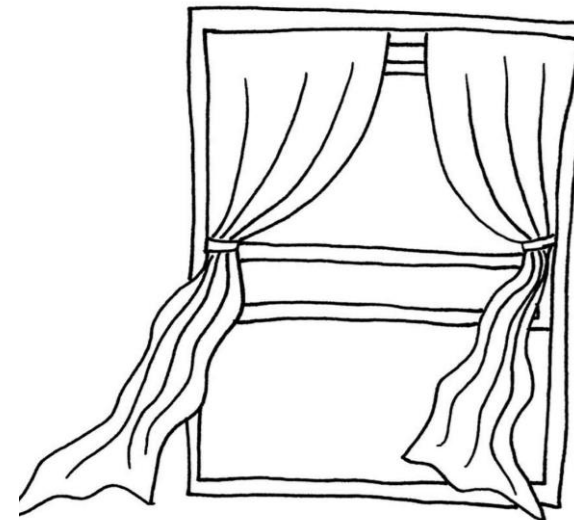

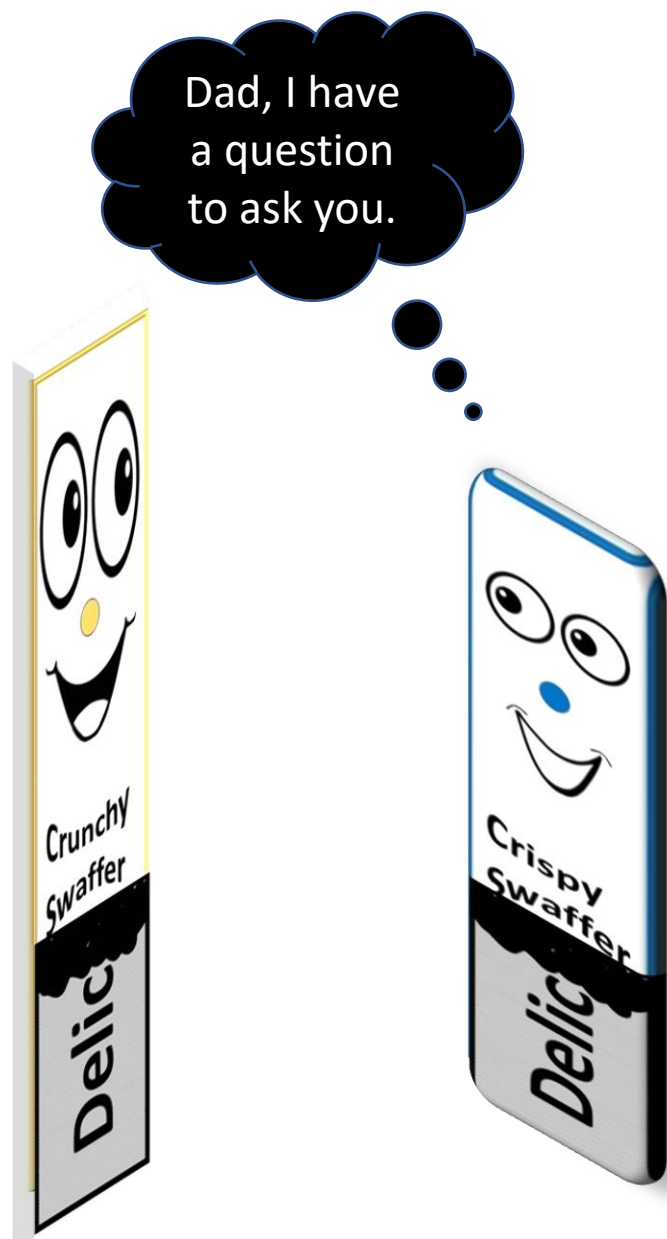

Crispy Swaffer is like his father. Like most boys, he may be little hard on the outside, but he is fun loving on the inside.

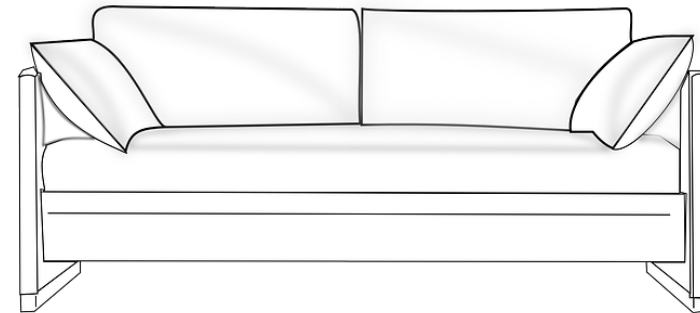

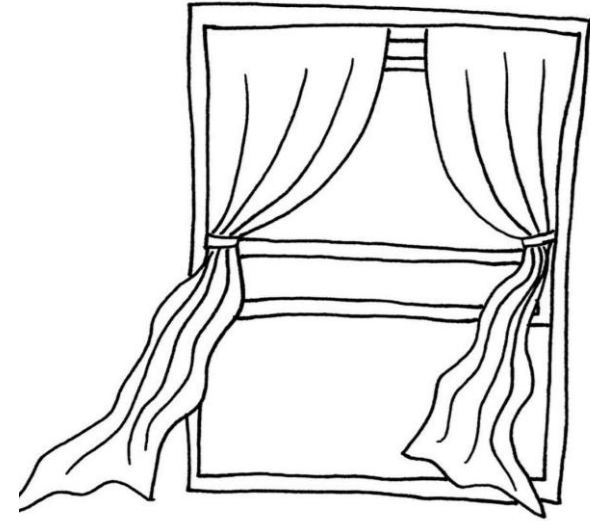

Variety

Oh, Son you
know you can
ask me anything,
anytime.

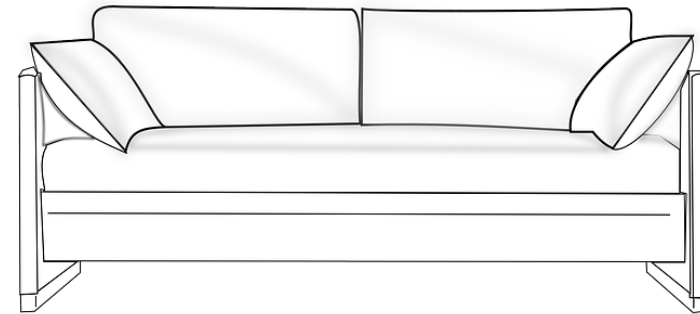

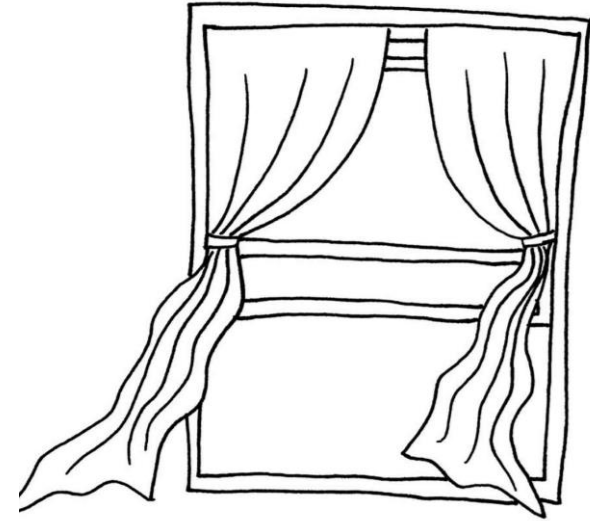

**Today we talked about
various things in the
world.**

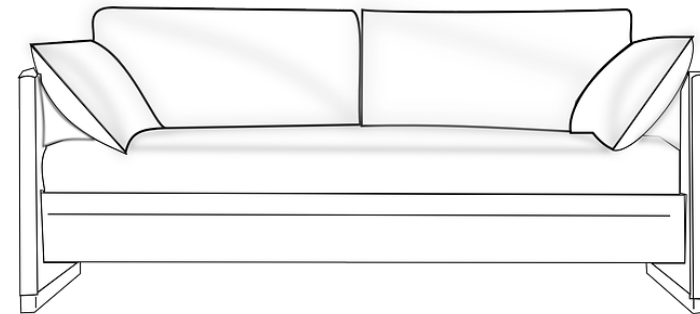

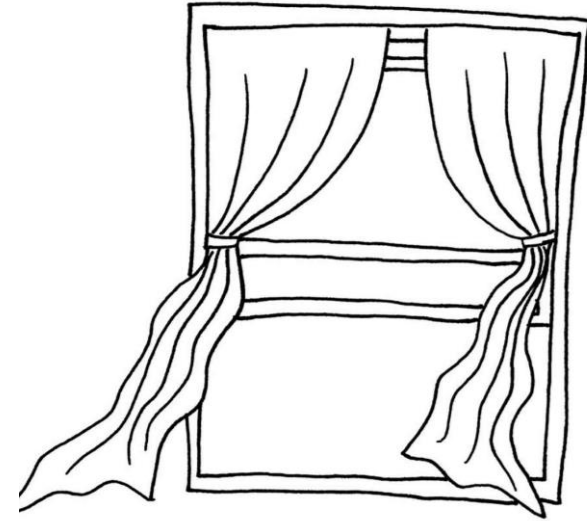

That sounds
great, but what
question would
you like to ask
me?

Dad we
talked
about
variety

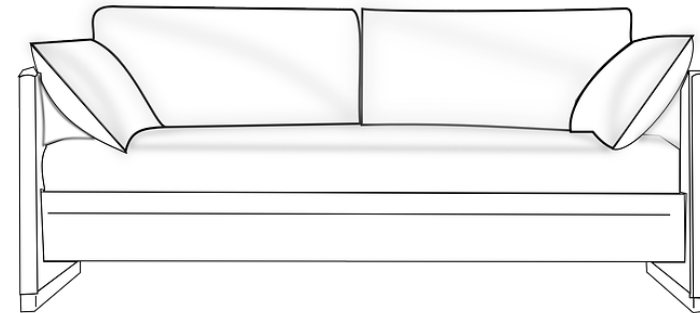

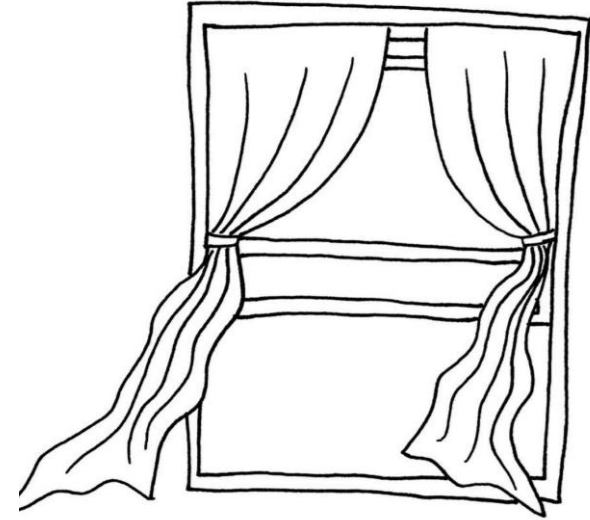

We talked about
variety. Our teacher
said that there is
variety among the
wafers

That is true son
there is variety
among the
wafers.

So, what is
variety
among the
wafers?

Variety

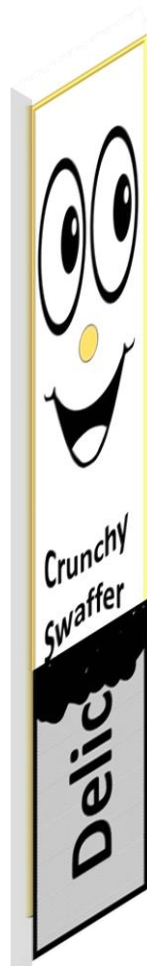

**Variety means a number
or collection of different
things or people**

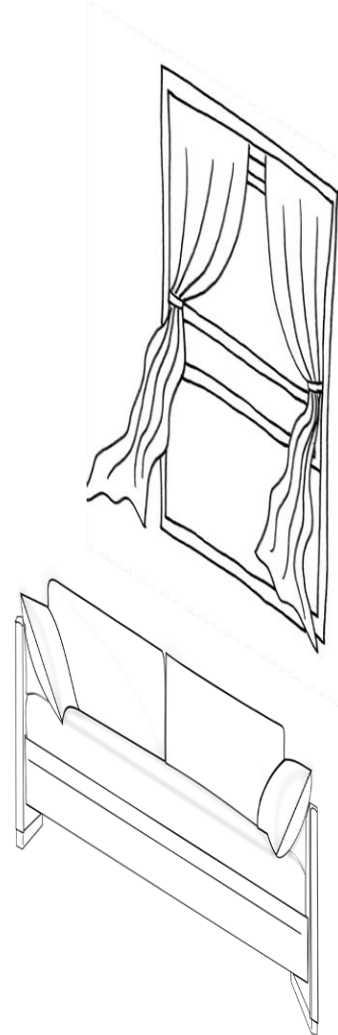

Variety

Variety is good because everyone doesn't like the same thing nor is everyone alike.

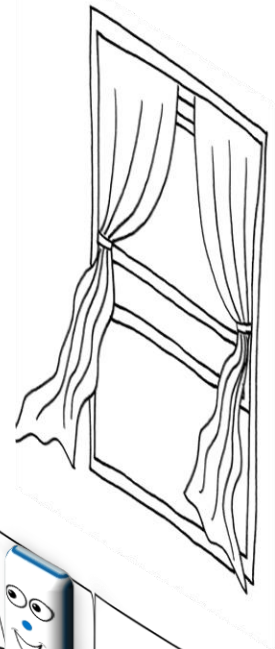

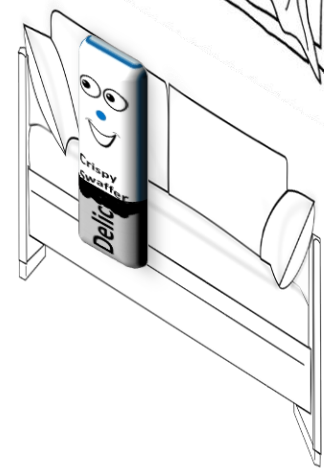

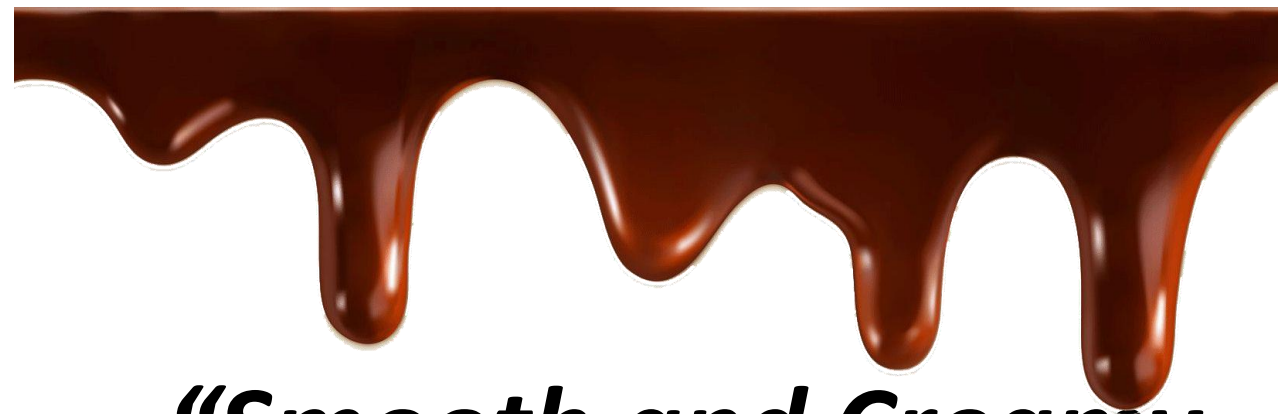

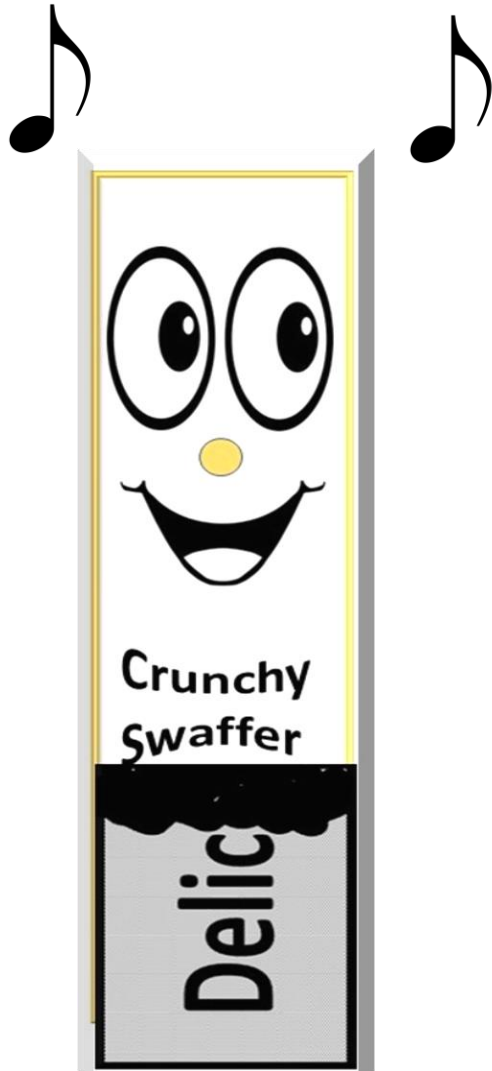

Ok, but what
does that
mean among
the wafers?

Have a seat son
and let me tell
you all about
variety.

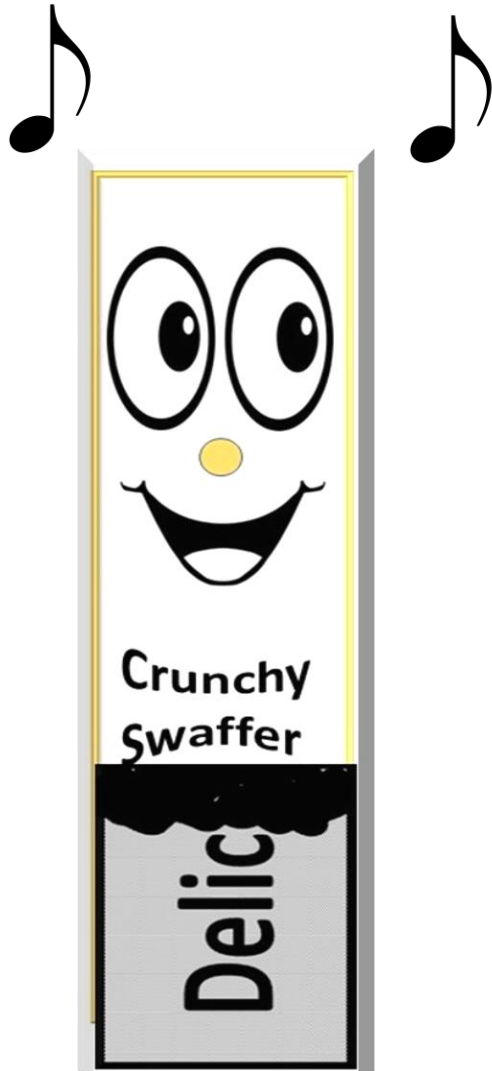

***"Smooth and Creamy
Oh, so dreamy."***

Chocolaty Chocolate Wafers

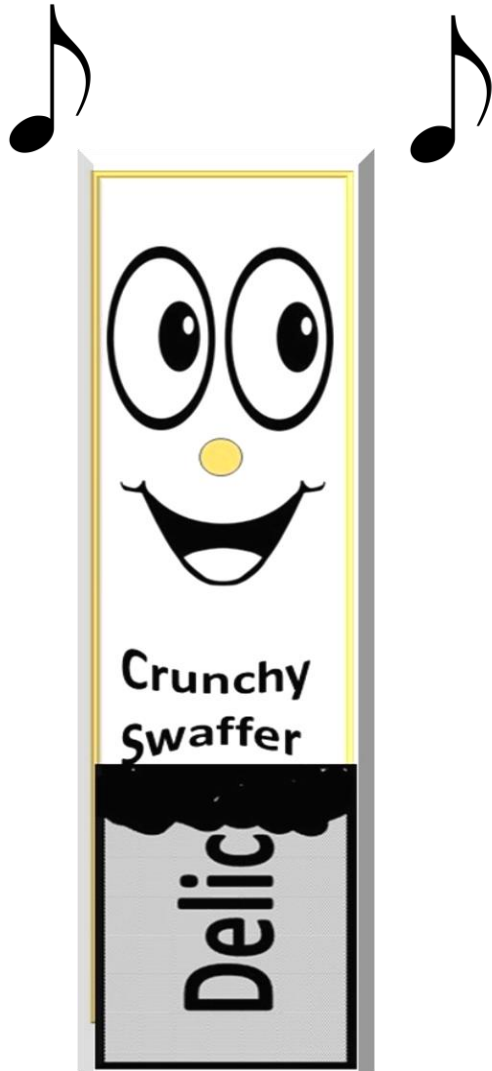

***“Then there is lemon spice
Which is very nice.”***

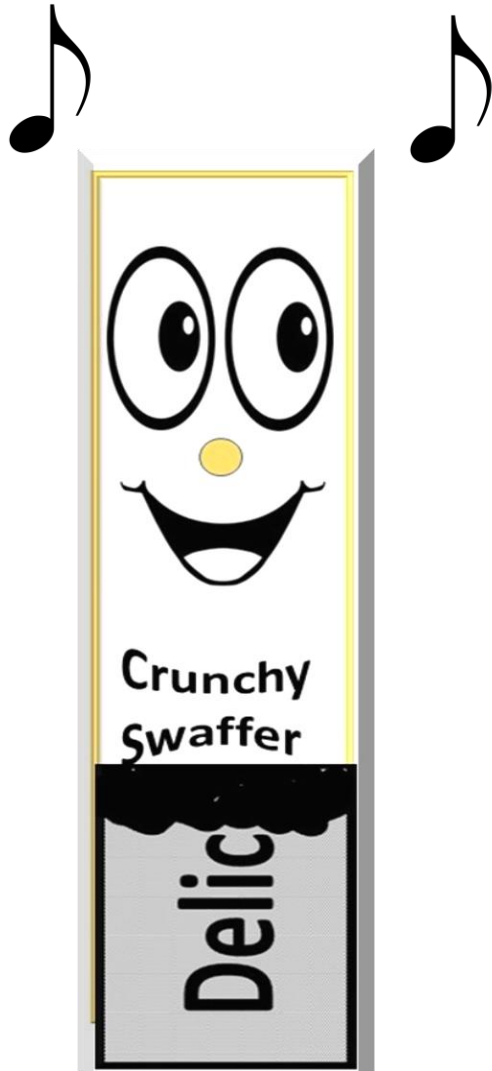

Lemon Wafers

***"I can't forget blueberry blue,
Which is very new."
Blueberry Wafers***

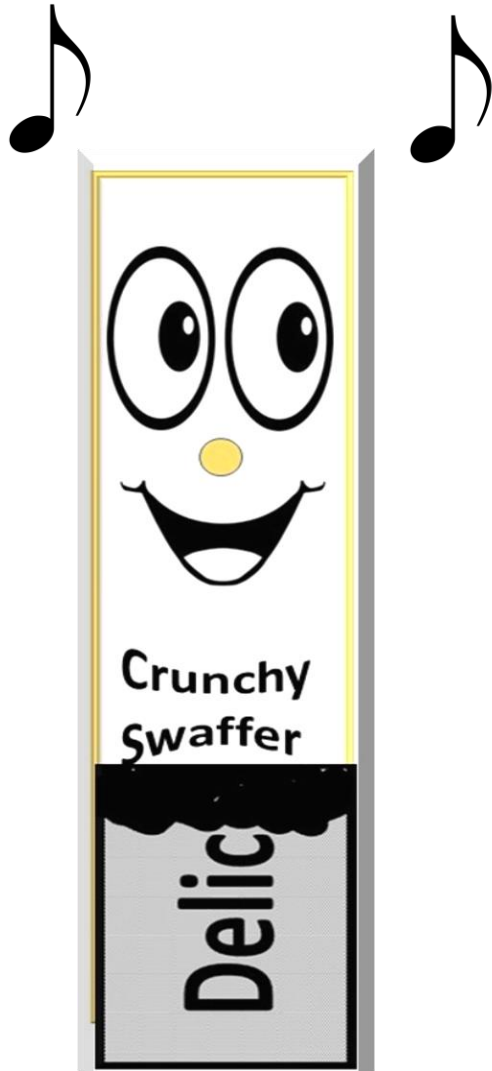

***“We also have red cherries,
the sweetest of the berries”***

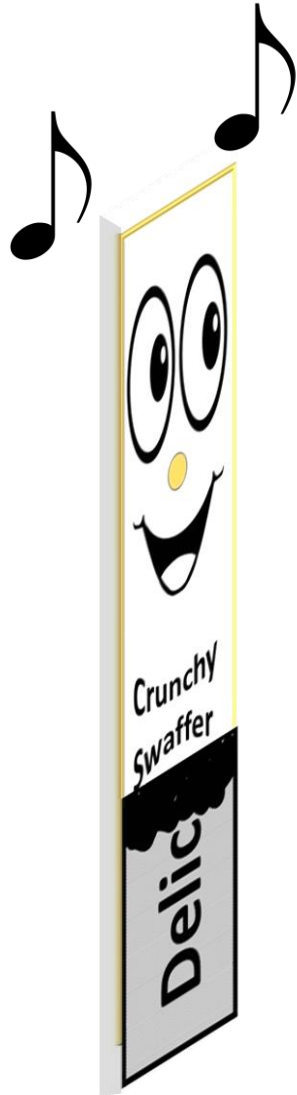

Red Cherry Wafers

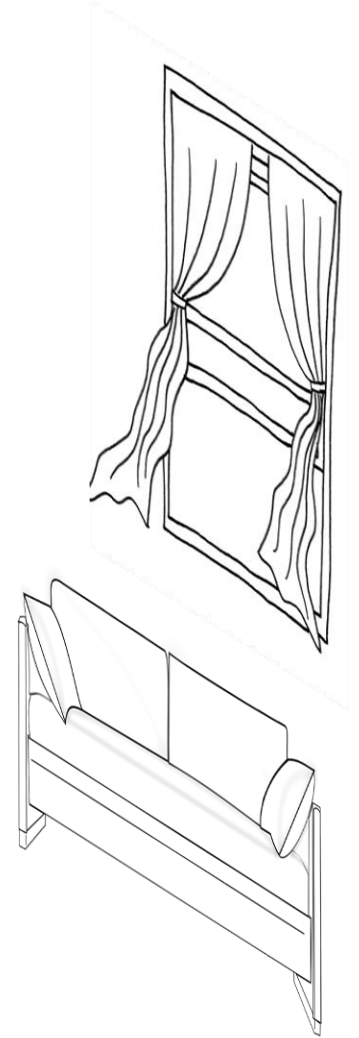

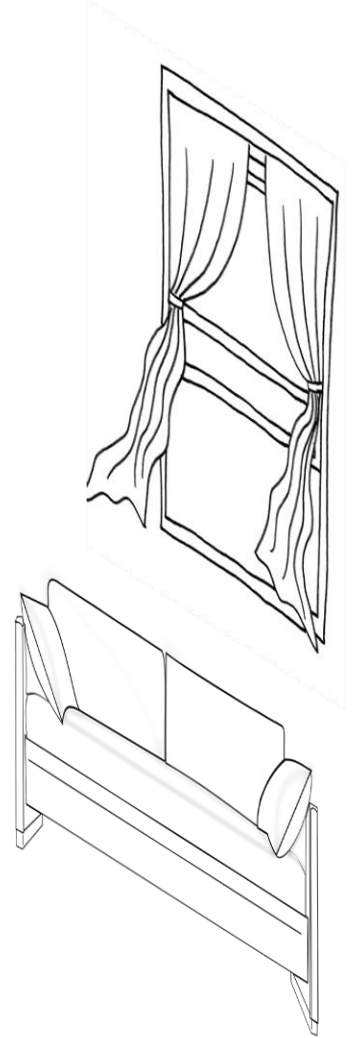

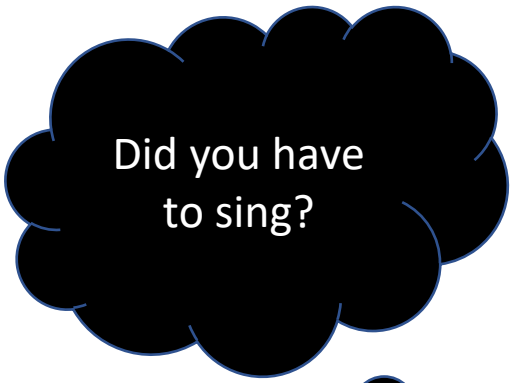

***"I can't for forget the vanilla cream
Which the Swaffers are part of the team"***
Vanilla Cream Wafers

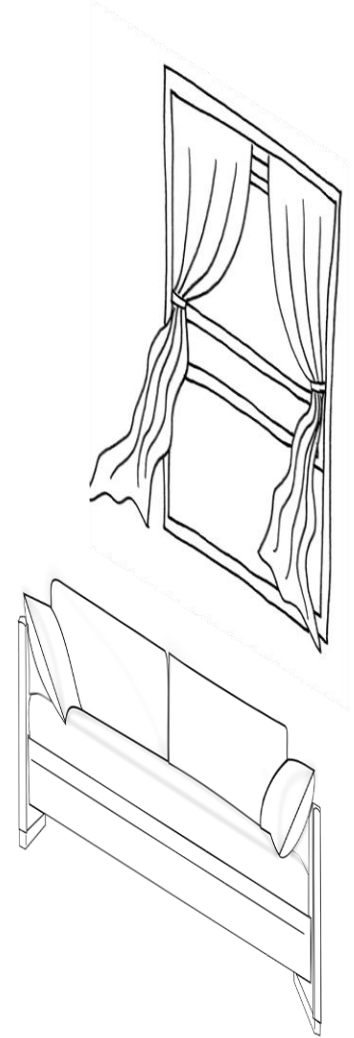

Dad, Dad,
Dad. I got it.
Thank you

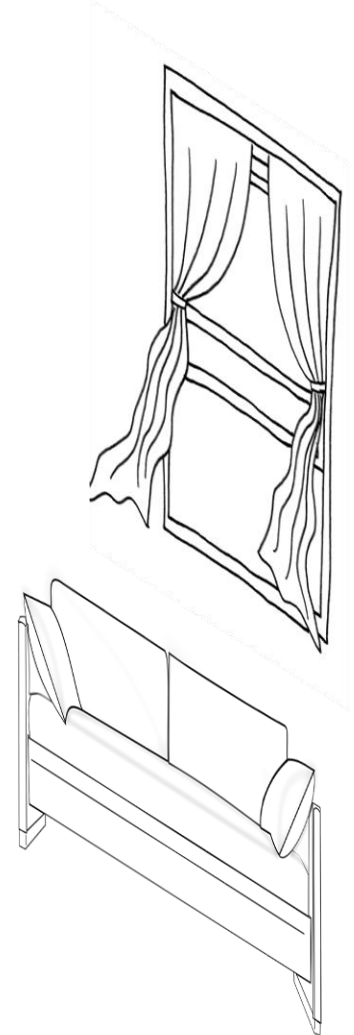

Sorry, I got
carried away.

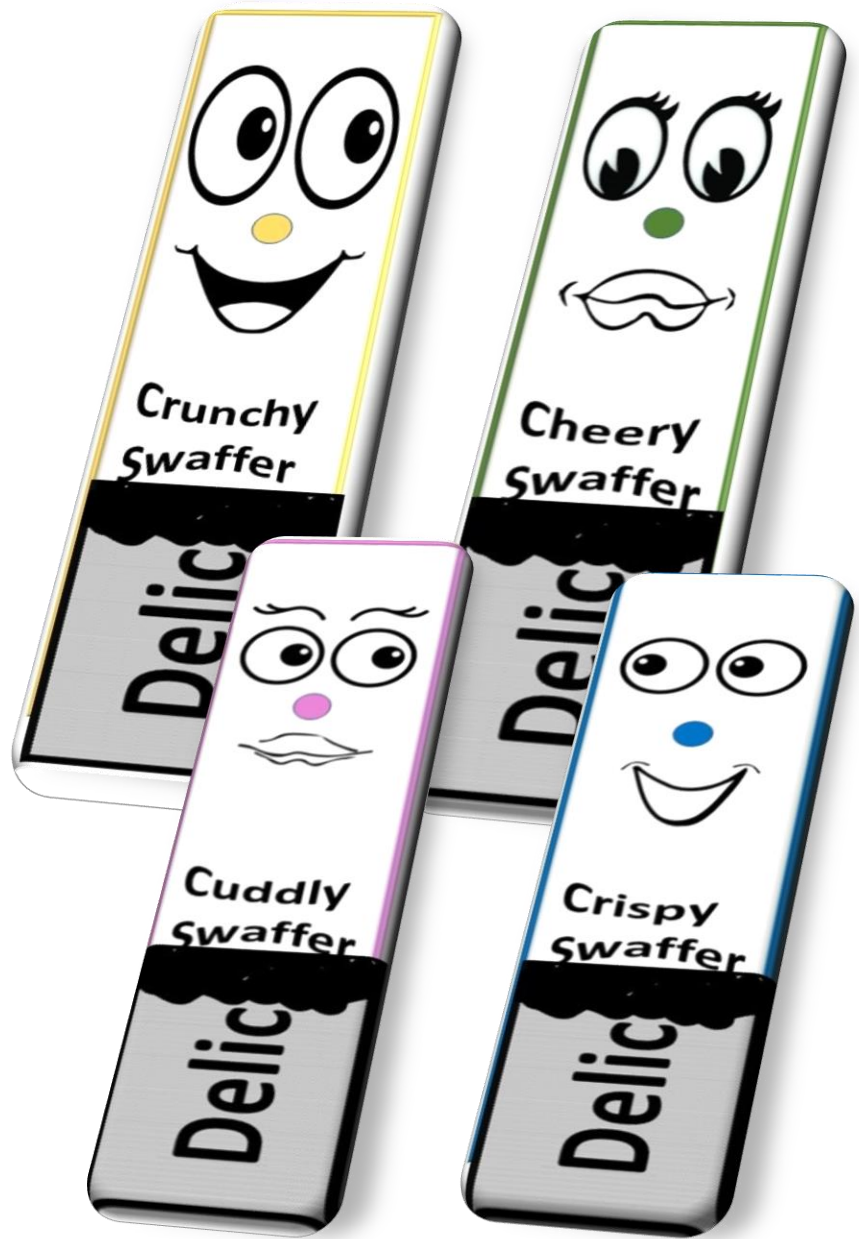

Do you
understand
variety?

Yes, variety
different

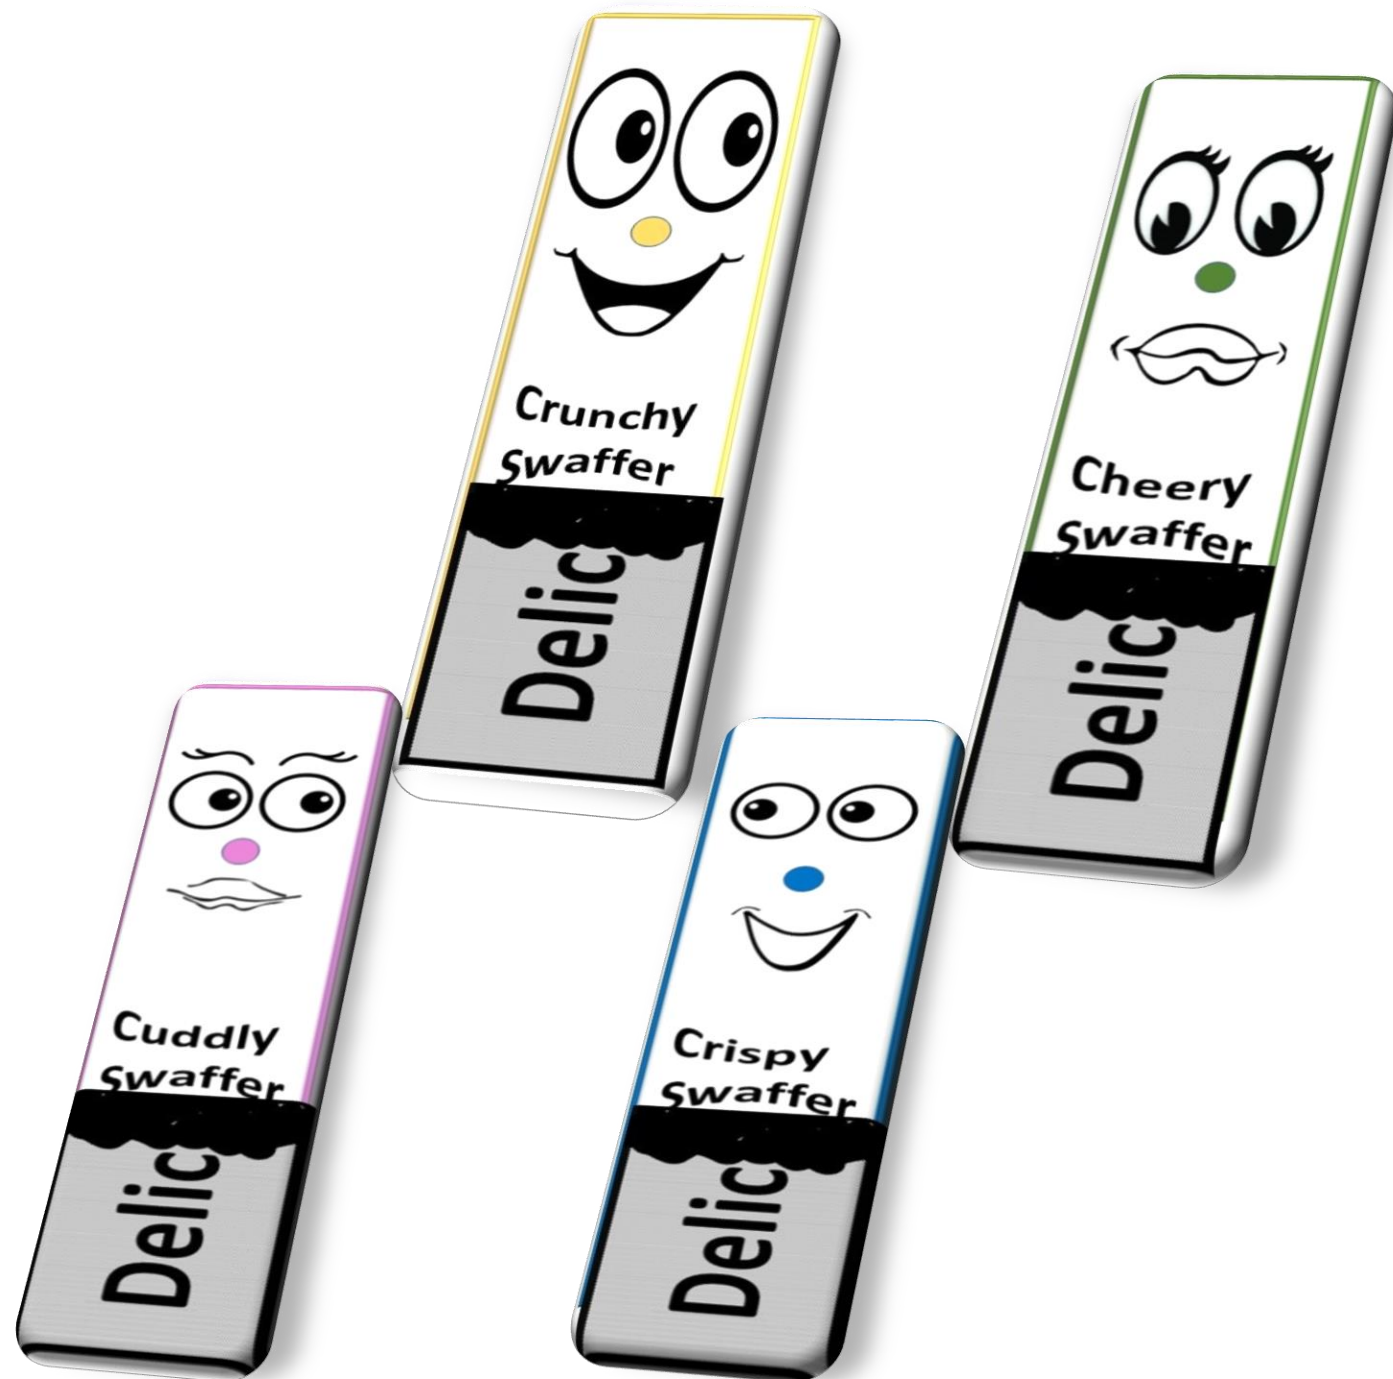

**Yes, variety mean
different. Just as
each one of us are
different.**

Author's Notes

Imagination is such a beautiful gift we can allow a child to have with no limits. The process of curiosity is a natural stage of development for children. They are natural-born scientist and investigators. It is our responsibility to foster and nourish those innate skills in our kids. So, go grab those pots and pans or a box and start using those beautiful, colorful, and creative imaginations!
