

Autoclave / Steam Sterilizers

Like new quality with at least 50% savings

Our factory trained staff has been refurbishing sterilization systems of all types for hospitals and surgery centers since 1993.

Professionally refurbished sterilizers save you up to 50% while providing the quality and reliability you demand for your facility. All equipment is refurbished and recertified to strict OEM and ASME standards, and each unit is backed by a full one year warranty.

Popular Models Include:

- Eagle, Century and 400 series sterilizers
- Sizes include: 16, 20, 36, 48 and 60"
- 444 Synergy and Vision series washers.

Our extensive refurbishment and testing process includes:

Inspection, Confirm Standards, Disassemble and Clean All Components

- Confirm proper American Society of Mechanical Engineers (ASME) boiler plate stamps and numbers.
- Remove door, chamber, insulating blanket
- Bead blast chamber door and stand to remove all residue

Test, Paint and Reassemble

- Hydro-static testing of pressure chamber certify its integrity
- Apply rust inhibiting sealant and finish coat to outer chamber and stand
- New insulating blanket installed
- Door assembly installed after replacing any worn parts
- Plumbing components are replaced with new parts
- Replace plumbing, valves, gaskets, wiring with new parts
- Attach control assemblies and all electrical connections

Autoclave / Steam Sterilizers

Like new quality with at least 50% savings
