The Small Business Assessment

Protect your Systems. Protect your Data. Protect your Business. At a price you can afford.

“93% of companies that lost access to their data for 10 days or more due to a disaster filed for bankruptcy within one year” – National Archives & Records Administration in Washington.

Recent events, such as Hurricane Sandy, California wildfires, and Colorado flooding, continue to serve as a tragic reminder; no business is too small and no environment is too secure not to be impacted when disaster strikes.
