## Dowsing on Discernment!

Right now with so much opposing statistics & contrary information on the Corona Virus that has dictated the shutdown of economies around the world, it is becoming more important now than ever to use our dowsing skills to determine which side is correct, which is not, who is lying, who is sincere but misinformed, who is providing accurate information.

This information is critical as people's lives, livelihoods, their ability to be able to pay their personal as well as commercial rents or mortgages, their ability to be able to support themselves and their families are being lost now. Suicides are up. Domestic violence up. Long lines of people are lined up at food banks. Upwards of 25% of Americans are now out of work. Farms are plowing under their crops, dumping milk, euthanizing their animals. For what? Is it really necessary? **Is the response really justified or are more people going to die as a result of the shutdowns itself?**

There is a standard measurement of risk that says that for every 1% of unemployment, 37,000 people die. Multiply that by 25% and you get 925,000 people - much, much worse than this virus would kill. And that is just in the US!

## FREE DOWSING BOOK by Rosemary Lanza

Rosemary Lanza has been urgently requested by her spiritual guidance that she needs to enlist people to dowsing in order to do something about the Corona Virus. This 29 page booklet was written by her in an effort to do so. Rosemary is charging \$15 for a hard copy, but offering the pdf free of charge. If you find the manual helpful and would like to donate \$5 or \$10 on her PayPal account, she will graciously accept.

Her contact information is
