

GS1 Scale Labeling

- **Lot Reporting**
Create and view lot reports with weight detail and serial numbering for recall
- **GS1 Barcode Labeling**
Compliant with the latest GS1 labeling and barcoding rules. Easily add label designs and graphics. Country of Origin
- **Palletizing**
Group your transactions with palletizing features to acquire pallet manifest labels
- **Catch Weight Control**
Print Fixed weight and variable weight boxes.

Provision Processing System Lite Scale and Labeling System

PPS LTE is a second generation labeling software designed for food processing plants.

Using Microsoft SQL Server Technology, PPS LTE is an expandable scale labeling and shipping system. PPS LTE follows standard GS1 labeling practices for confidence when shipping to the largest of clients. Simple scale integration makes this a powerful system that can easily be expanded to PPS Full, a system capable of invoicing, scanning, inventory, production management and slaughter management. Online demo's available.
