GLEN ELLYN, IL

Plaqued Houses and Buildings

2013

The charm of bygone days lingers in the Village of Glen Ellyn in the design and architectural details of the scores of historic homes and buildings that remain along its narrow, tree-lined streets. These elements offer residents and visitors a sharp contrast to modern subdivisions. The Glen Ellyn Historical Society (GEHS) invites you to explore the history and style of these homes through this pamphlet.

The House Plaque Program was established by the GEHS in 1969 to recognize houses and buildings of historical and/or architectural significance. Since then, 73 buildings have been awarded plaques that are displayed proudly at front entrances.

Many of the plaqued homes are located downtown between 549 and 592 Main Street, a National Register District. There are many other homes in Glen Ellyn that are deserving of a plaque. Contact the Glen Ellyn Historical Society if you would like your home or building to be considered for this designation.

Requests for plaquing of a structure may be made in person at the History Center, by submitting a letter via USPS or by email. Include the address of the building and the name and contact information of the current owner.

How are plaques awarded?

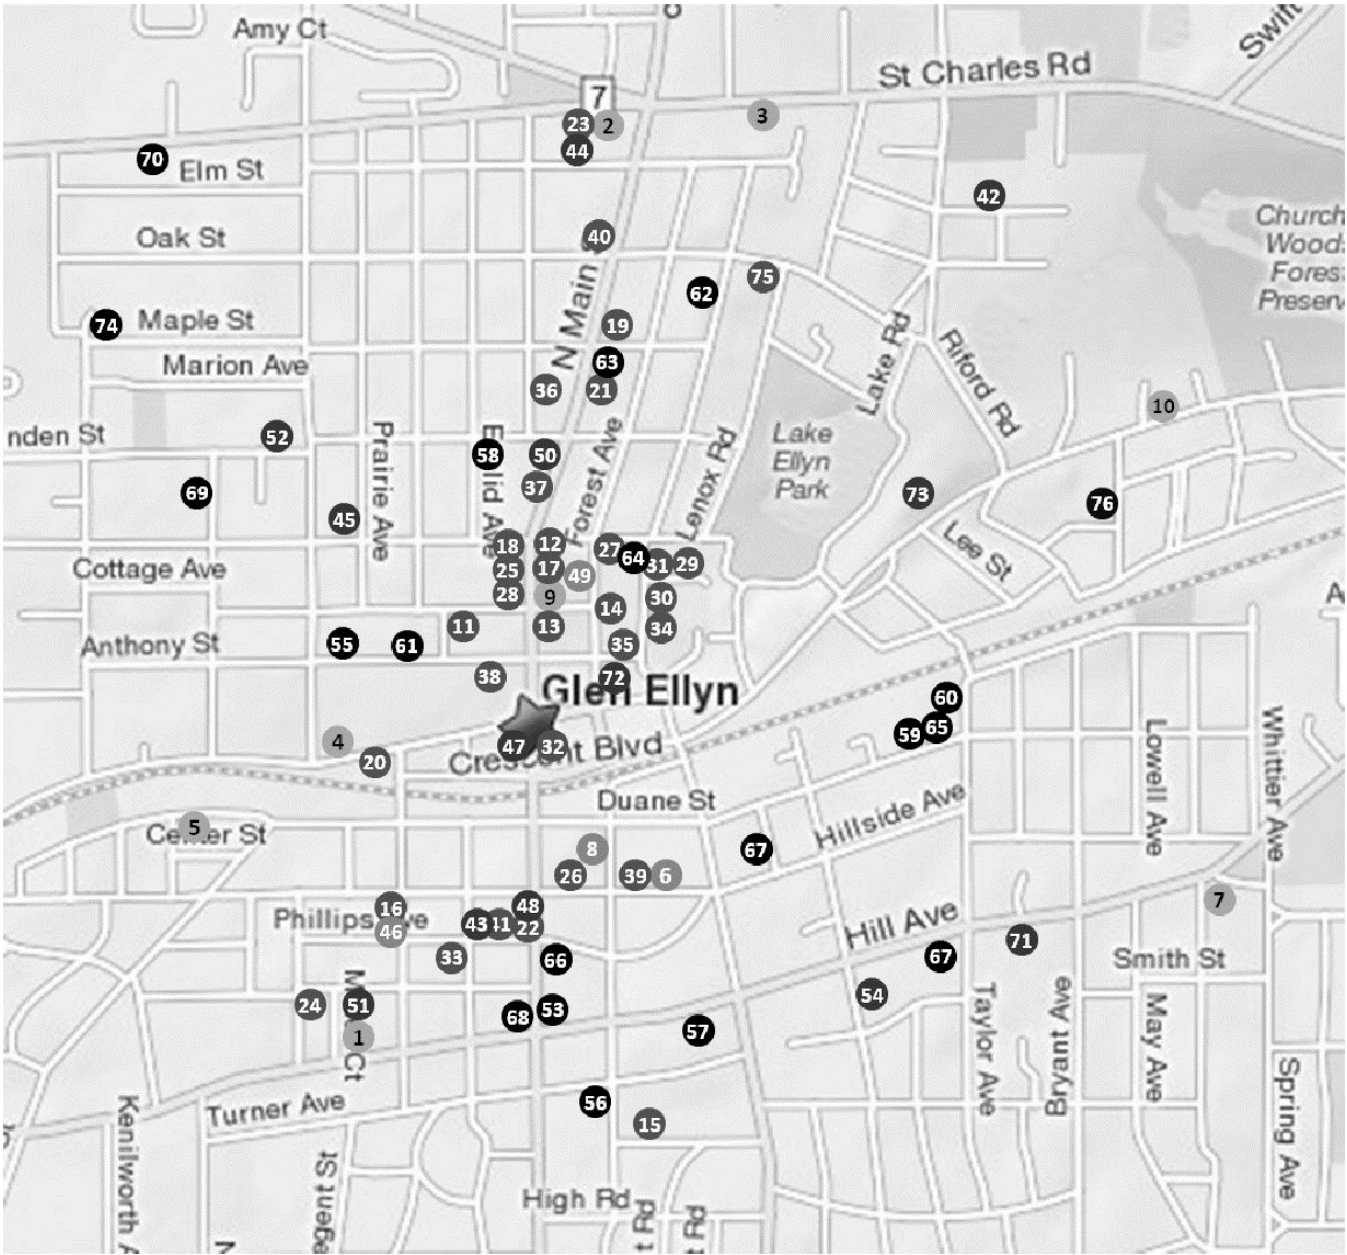

A contribution to the Glen Ellyn Historical Society allows volunteers to research a house or building. Tax records and inspections are used to determine if the house meets the following criteria:

- Age—over 80 years old
- Historic Significance
- Architectural Significance
- Maintenance

If the house meets the criteria, a second contribution funds the creation of the plaque and a report with complete information on the history of the house. A short photo-op ceremony is held at the house to commemorate the award.

Detailed information on the House Plaque Program may be found on the GEHS website at www.GlenEllynHistory.org.
