

DSA Newsletter

DSA is now a member of the S3DA!!!

This brings us a larger branding opportunity and greater shooting opportunities for our high school and younger archers. It also has scholarship potential for our Junior aged archers.

The Mission of S3DA:

The mission of the Scholastic 3-D Archery (S3DA) Program is to foster, educate and guide youth in the areas of indoor target, 3-D and outdoor target archery as well as safe, ethical bowhunting practices. The goal of the S3DA program is to provide archery and bowhunting opportunities for young people in after-school settings as well as with archery-affiliated clubs and businesses in the community. We provide an effective after-school archery program, focusing on Indoor 5-spot, 3-D and Outdoor Target archery and the certification and tools to deliver the instruction to youth. As a result, S3DA expects to see increased participation in 3-D and target archery by youth and parent archers using compound bows and traditional archery equipment while also helping to increase participation at local, state and national archery events. In addition, S3DA expects to help provide a basic understanding and respect for our natural resources, environment and nature, with a special emphasis on the modern wildlife conservation and regulated sport hunting.

CONGRATULATIONS Shaylee Smith!!!!

Shaylee Smith's hard work has earned her a spot on the Southwest Red Team for USA Archery!

The mission of the RED Program is to develop compound and recurve athletes, through the USA Archery athlete competencies and High-Performance Ethos, who are competitive nationally and internationally. The RED Program was expanded to include compound in 2020 and regional and national camps will now be composed of both recurve and compound athletes and coaches.

The RED Program is designed for athletes ages 13-17 who are looking to accelerate their performance with intent on making a national or international team. The coaching staff will utilize age appropriate training plans to further develop the athlete's but also look to develop the athlete's personal coaches for long-term success. Through RED, athletes will also develop teamwork, interpersonal, mental, communication and leadership skills.
