Self-Reading Your Analog Meter

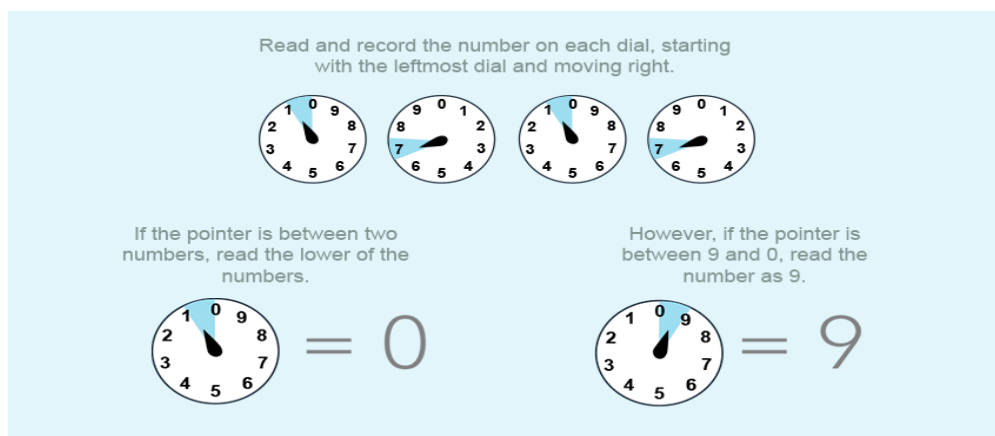

You can report your reading by following the instructions below or call Customer Service at 800.477.4747. Report your meter reading no more than five days after your scheduled visit.

You can also email DTE your meter reading. Send an email to mymeterread@dteenergy.com, and be sure to include the following information:

- Customer name
- Service address
- Date of meter read
- Meter Number (s)

Dial Meters Dial meters have four or five dials, which resemble small clocks, numbered in opposite directions. The pointer inside of each dial indicates one number of the meter reading. Please click the image below for instructions on how to read your dial meter.

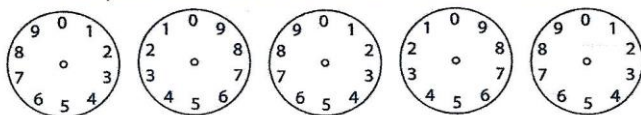

Reading A Dial Meter

When Calling about Your Bill

Meter No. _____

Please have your account number and a current meter read on hand when calling with a bill concern. READ DATE: ___/___/___

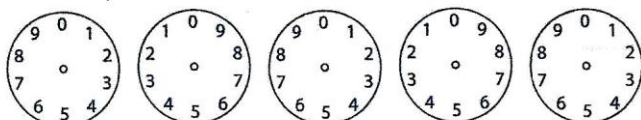

You can use the diagram (left) to record your current meter read. Stand in front of meter. Mark the dials exactly as you see them.

- **Electric Meter** – use all five dials
- **Gas Meter** – use last four dials
